Why choose WOOZOO?

渦

WOOZOO circulators sales surpass 14 million units worldwide*
The name «WOOZOO» comes from a Japanese word for spiral.
Our circulators offer powerful spiral airflow throughout the whole room.
Compact yet powerful.

3D BLADES DESIGN

The blades of WOOZOO are deeper than most conventional fans.
Deep-pitch blades create more powerful wind streams, ensuring better air distribution while reducing the noise.

TRADITIONAL FANS VS CIRCULATORS

A traditional fan has a wider dispersion of air. It brings cooling benefits only when the airflow direction is towards you. On the contrary, a WOOZOO circulator keeps the air in a room moving and delivers comfort evenly anywhere in the room for a more comfortable environment wherever you are.

SPIRAL AIRFLOW

The rounded body and the spiral grill gather the air in the centre, increasing the airflow speed, and send the powerful wind stream further.

FOR ALL-YEAR-ROUND

Did you know that circulators are made to use both in summer and winter?
When you use heaters in winter, the warm air naturally rises to the ceiling. By positioning the circulator upwards, it will help circulate warm air throughout the room.

WHISPER QUIET

WOOZOO circulators are powerful yet silent. Various fan speed levels are available and at low level, it's quiet like a whisper.

EFFICIENT VENTILATION

Improving indoor ventilation helps to reduce the risk of the virus spreading indoors. Positioning a circulator facing an open window can efficiently move the air from inside to outside.

MAIN *features* INTRODUCTION

MULTI DIRECTIONAL OSCILLATION

Provides horizontal and vertical airflow simultaneously to send the air widely.

POWERFUL AIR CIRCULATION MODE

Quickly and efficiently circulates the air throughout the room at max fan speed.

NATURAL BREEZE

Replicates breeze patterns by changing the strength of the air flow.
The airflow level changes automatically like a natural breeze.

More comfortable than fixed airflow level. Suitable for sleep

DC MOTOR

Optimises performance and reduces energy consumption.

NIGHT MODE

Adapts the airflow volume to ensure comfortable sleep.
Strong airflow upwards and lighter airflow downwards.

LIGHT WEIGHT & PORTABLE

To easily move your Woozoo circulator from one room to another.

Akihiro OHYAMA

CEO of Iris Ohyama Group

Iris Ohyama was established in 1958 and began as a small town factory for plastic molding in Higashi-Osaka, Japan. More than 50 years since we developed our first original plastic product, we have continued to manufacture

and supply a variety of both household and industrial products, such as furniture, home appliances, and hygiene products across the globe.

Provide «Solutions» across the world through a wide range of business development.

Iris Ohyama developed the world's first transparent plastic storage product. It influenced a change in the storage culture of the world.

Through 35 manufacturing and distribution sites with more than 15,000 employees across the globe, we have created a global supply network.

We carry more than 25,000 products and develop over 1,000 new products every year.

More than sixty years of solutions for everyday life

Worldwide Solutions

Since the 1990s, IRIS has expanded to China, United States, South Korea, and Europe. We now have more than 35 production and distribution facilities across 6 countries, manufacturing and selling locally for local consumption.

In 1998, IRIS expanded business to Europe by establishing a production factory in the Netherlands. Today, in addition to

manufacturing plastic products, we are expanding our business by importing and selling furniture and home appliances.

In 2019, IRIS established the second European factory in France. In addition to plastic products, we have begun local production of sanitary masks and circulator fans to further strengthen our production and distribution within the European market.

Our Philosophy

Woozoo brand is our home appliances and electricals range. Whether you're looking for fans, room air, kitchen appliances you can count on us to stick to our promise and deliver a product that you will love ! Iris Ohyama strives to provide solutions for every need, in every season. Our products are designed to offer the ideal comfort while respecting the environment. Our technologists guarantee efficiency, performance, ease of use and design.

QUALITY & TRUST

Quality, performance and trust are at the centre of everything we do, which is why IRIS OHYAMA has become a globally recognised all over the world ! Our specialist team of buyers, technicians, manufactures and customer services ensure we are always best-in-class.

PERFORMANCE & DESIGN

Our industry-leading knowledge and experience in designing and manufacturing quality electricals products can guarantee that we will always fulfil our promise.

SERVICE

Day after day, Iris Ohyama earn the trust of millions of consumers and we intent to keep it that way. We aim to build relationships with our customers and being as transparent as possible helps us maintain this trust.

Living alone, living together, living as a family, simply living!
