Let's get started

Before using your phone, please read the legal, safety, and regulatory information provided with your product.

Put in the cards & power on

- 1 Insert the SIM tool into the hole next to the SIM & microSD card tray to pop out the tray.
Make sure you use the correct size SIM card and don't cut the SIM card.
- 2 Insert the SIM cards with the gold contacts down, then gently push the tray into the slot.
Add a microSD card  (optional, sold separately) for additional storage.
- 3 Press and hold the Power button  to turn on your phone, then follow the prompts to get started.

To turn off your phone, press the Power and Volume Up buttons  +  at the same time.

Energy Label. The Energy Label and product information defined within (EU) 2023/1669 Regulation is available at:
<https://eprel.ec.europa.eu/screen/home>.

Help & more

Get answers, updates, and info:

- **Help is here:** From the home screen, swipe up and tap **Settings** > **Help** to learn how to use your phone and get support.
- **Get more:** Get software, user guides, and more at www.motorola.com/mymotoe.
- **Get apps:** Tap **Play Store** to browse and download apps.

Legal information. This guide provides important legal, safety, and regulatory information that you should read before using your product. For the complete legal information, from the home screen swipe up and tap **Settings** > , then type **Legal information**, or visit www.motorola.com/device-legal.

Water repellent. Your phone is not waterproof. For more about your phone's water-repellent design and care, swipe up and tap **Settings** > **Help**.

Charging and battery safety. The battery in your phone can be removed by suitably competent personnel following Motorola-approved repair and service manuals. To prevent possible burning and injury, always follow the instructions provided. If your phone becomes unresponsive, press and hold the Power button until the screen goes dark and your phone restarts.

The phone is PD (Power Delivery) and QC (Quick Charge) capable. For the fastest charging speeds, choose a Motorola 18W or higher USB-A QC charger (may be sold separately) with the included QC cable, or a Motorola 18W or higher USB-C PD charger and compatible PD cable (both sold separately). Use of other chargers is not recommended and may impair the charging performance. The power delivered by the charger must be between min 5 Watts required by the radio equipment, and max 18 Watts to achieve the fastest charging speed.

Chargers that do not comply with applicable national standards may be unsafe, with risk of death or injury, and may cause slow charging or product damage. Don't charge your phone in temperatures below -20°C (-4°F) or above 45°C (113°F). To view applicable standards and to learn more, see the "Legal information" section of this guide, or visit www.motorola.com/device-legal.

Warning about high volume usage. To prevent possible hearing damage, do not listen at high volume levels for long periods. When your headset volume reaches the high volume threshold, a warning shows. Tap **OK** to dismiss it, or wait one to five seconds, then press the Volume Up button to dismiss the alert and enable the volume to continue to be adjusted.

Disposal & recycling. For help recycling products and packaging responsibly, visit www.motorola.com/recycling.

Extreme heat or cold. Don't use your phone in temperatures below -20°C (-4°F) or above 45°C (113°F). Don't store/transport your phone in temperatures below -20°C (-4°F) or above 60°C (140°F).

Legal disclaimers. Features, services and applications are network dependent and may not be available in all areas; additional terms/charges may apply. Product specifications and other information contained in this guide are believed to be accurate at the time of printing or release. Motorola reserves the right to correct or change any information without notice.

Arbitration. Your purchase is governed by a binding arbitration clause. For more information and how to opt-out, see the legal guide that came with your phone.

SAR information (on e-label). To view specific absorption rate (SAR) values for this phone, from the home screen swipe up and tap **Settings** > **Q**, then type **Regulatory labels**, from your phone's dialpad, type ***#07#**, or visit www.motorola.com/sar.
