B08S

Note: You can only play music on one device at a time. you need to pause the music on your device first to play music on the other one.

6. Restore factory default settings

You may need to reset B08S if it is not working as expected. When B08S is reset to factory default settings, all the paired device information will be cleared.

● Hold the ⓞ button together 10s until the LED flashes Blue and Red.

Frequently Asked Questions:

Q : All cables are connected, but no sound out put?
A : 1. Check if the POWER indicator is on, and turn on the POWER if it is not on. When the indicator light is still not on after turn on the power, you can find a laptop power and connect to test whether it is the machine fault or a power failure.
2. If the indicator or light is on, check whether the VOL knob is in the minimum position.
If so, turn clockwise to normal Volume
3. If both of the above are normal, check the input device if it is paused, mute, or the volume is minimized.
Q : Why do loudspeakers make a lot of electric noise?
A : if you are not using the original factory standard power supply, please repla the power supply before testing. Many power supply in the market have large interference coefficiest, which will cause a lot of current sound.
Q : Why connect signal line, not play music have interferential sound
A : If you use unshielded siBnal lines, there will be interference signals enteri the power amplifier. If you hate the sound, you ar e advised to use the shielded sign lines or unplug the signal lines.

1. Product specifications

B08S is a Bluetooth receiver with power amplifier function,and also supports Aux anolog， optical wired audio input.
B08S use the high-end, Qualcomm chip Support aptX-HD function， it can drive 100W * 2 passive speakers and 1 active subwoofer， you can enjoy high-quality music while experiencing the convenience of wireless.
- Supports profiles: A2DP,AVRCP
- Audio codec: aptX， aptX-HD, SBC
- Operational range: Indoors: up to 50-70ft (without obstacles)
    Outdoors: up to 197ft (without obstacles)
- Input voltage/ current: DC24V$=$4A
- Operating temperature: -10°C ~ 45°C
- Storage temperature: -20°C ~ 60°C
- Support sampling rate in optical mode: ≤ 48KHz
- Product size: 136 × 101 × 45 mm
- Product weight: 230g
