

## BH70

Upon receiving the package, please ensure that it is intact and contains all the necessary contents. The most important item to look for is the **dongle**, which can be found in the headset bag and provides a stable connection with your laptop. For specific details about the package contents, please refer to this link: [BH70 Pack Detail](#)

Here are the steps to set up the headset:

1. Charge the headset for 10-15 minutes before turning them on. The power button is at the side of headset. Put on the headset and push the button to hear the power-on notification.
2. PC connection: Connect the **BT51 dongle** with your computer. The dongle is pre-paired with headset.
3. Mobile connection: Push the power button downward and hold for 1-2 seconds to initiate Bluetooth pairing. On your mobile phone, enable Bluetooth and select Yealink BH70.

How to use video: [How to use BH70](#)

4. We would like to suggest you download **Yealink USB Connect**, which allows you to **update the firmware** and find EQ settings that suit your preferences. This software will enhance your overall experience. Download address: [Yealink USB Connect](#)
5. The BH70 offers - **35 hours of talk time/ adjustable mic boom with built-in noise cancellation /lift to mute / busy light**. Feel free to evaluate whether the product meets your requirements.

If you have any questions or need further assistance, please don't hesitate to contact us. I'm always here to help.

Looking forward to hearing about your experience with the BH70.
