Assembling Procedure **Must be assembled by Adults**

1.Install under board

Overturn the car body, and disassemble the board.
Take out the empennage and then assemble the board again.

2.Install motors and wheels.

Please find the drive motor first and disconnect the drive motor, then insert the motor into the rear axle, insert the connector wire into the hole and connect to the power cord. (Please refer to the picture).

When this model does not have a front motor, insert washers on both sides of the front wheel.

Please take out the bearings from the screws bag and install on the outside of the wheels. Assemble the wheels onto the front and rear axles, and assemble gasket, non-slip nuts in sequence and then fix the wheel hub. (Referring to the photo)

3.Install steering wheel

Connect the power cord and then assemble the steering wheel.

(Plug the long part of the line into the steering wheel)

4. Install front windshield and back empennage by screws (M4*12 flat head screw)

5. Install decoration parts and hood

6. Install decoration part on car door window by screws ((M4*12 and M4*14 round head screw) and rear view mirrors

Only here use M4*14 round head screw

After using the screw to fix the window, install the decoration parts then.

Please note that the rearview mirror needs to distinguish between left and right. Please insert the rearview mirror into the window. (referrer to picture)

7.Power connection

Connect power referring to the photo.

8.Install seat

First fix the seat with four screws, then install the seat on the car, paying attention to the buckle joints on the back of the seat. Put them in the car body. Install the seat and fix the fasteners in the seat, then rotate 90 degrees to lock it.

Specifications

Item	Specifications

Size	57.5" x 36" x 26"
Speed	3-5km/h (For 12V) 6-8km/h (For 24V)
Remote Control Batteries	2PCS of AAA Batteries
Charger	Input:220V/110V Output:DC12v1000MA /DC 24v1000MA

CHARGING PRECAUTIONS

Battery polarity cannot be reversed, please ensure the red wire is connected to the red battery terminal and the black wire is connected to the black battery terminal

- Press the power switch to OFF position to turn the power off.
- Open the seat, connect the battery plug, red to red.
- Never drain battery completely or to a crawling speed, recharge the battery when a decrease in speed and power is noticed.
- Battery charging must be done by adults only. Never allow children to charge the battery. A child could be injured by the electricity involved in charging the battery.
- Please don't connect the wires to a short circuit. The charger and the battery are not a toy. Do not allow children to play with the charger and the battery. Only operate the battery and charger specified according to the manual instructions.
- Please do not open the battery and the charger.
- To maintain safety of vehicle, always secure the battery with the bracket.
- The battery must be handled and operated by adults only: the battery is heavy and contains sulfuric acid(electrolyte). Dropping the battery could result in serious injury

- Before charging the battery check for wear or damage to the battery, charger, the connectors and other parts. If any damage is found, the charger should be repaired or replaced immediately. Do not use a damaged charger.
 - It is normal for the adaptor to feel warm during charging, but if the charger feels too hot, stop charging immediately and check the battery and adaptor. When charging please turn off the power switch. Please charge the battery for 8-10 hours after first use. Subsequent charges should be 6-8 hours but not exceeding 10 hours. If do not use the car for a long time, please charge at least once a month to keep the battery cells active.
1. Plug the charger into the charging socket.
 2. Plug the other end of the charger into your wall socket.
- Batteries are perishable items that are subject to under and over charging. Please observe the charging time.

■ TROUBLESHOOTING

Problem: The car will not move

Answer 1: The battery is low, please charge for 6-8 hours but not exceeding 10 hours.

Charge at least once a month to keep the battery cells active.

To avoid short fuse or power cut off:

1. Do not overload the product. Max load is 110 LBS.
2. Do not drag any item behind this product.
3. Do not allow water or any liquid into electric parts.
4. Do not change wire system without a professional.

■ TROUBLESHOOTING

Problem: The car only runs for a short time

Answer 1: The battery is low, please charge for 6-8 hours but not exceeding 10 hours.

Charge at least once a month to keep the battery cells active.

Answer 2: The battery may need to be replaced depending on its charging history and age.

Problem: The sound does not work.

Please ensure the volume is turned up and the MP3 line is not connected. Sounds from steering wheel will not work when MP3 is plugged in.

Problem: Charger overheating

It is normal for battery and charger to be slightly warm during charging. If the charger feel excessively hot, please check for a current overload or battery short circuit.

■ SAFETY PRECAUTIONS

01. While driving , adult supervision is required all the time
02. Always wear a helmet when driving
03. Please don't drive near road or on the footpath.
04. It is not recommended to drive the vehicle on wet surface or on slope greater than 15-degree.

Operation Guide

For first time use or after replacing the battery, the remote control is not paired. The car will power on after turning the ignition key.

If you choose to pair the remote control with the car, please follow the instructions below.

Step1. Insert two AAA 1.5V batteries into the battery compartment of the remote control. Ensure the battery polarity is matched correctly. If the frequency lights flash then the battery is correctly installed.

Step 2: Hold the Car Select button for 2-3 seconds.

Step 3: Turn on the ignition key to turn on the car.

*Manufactured according to FCC certification testing and ECM credential.

*This remote is to be used by adult only.

Warning-When replacing a replaceable battery,first open the lid and take out the old battery.Put in the new battery,pay attention to the positive and negative poles,cover the lid.
