BLITZWOLF BW-V3

The Game-Portabel BW-V3 LED LCD projector from Blitzwolf has 300 Ansi lumens, a contrast of 1000:1 and an HDTV 1280 x 720 resolution. The lifespan of the LEDs is 50,000 hours, which is over 34.2 years if enjoyed for four hours a day. The projector also offers an integrated media player that can be used to play files directly. As Blitzwolf specifies the brightness of the projector in lumens, we have calculated an approximate ansi-lumen value in this case. A picture width of up to 176 cm is possible as the projector has 300 Ansi lumens. However, if room light is available, the image should be a maximum of 117 cm wide. The model recognizes screen mirroring signals, so it is possible to play videos with high resolution and surround sound directly via WLAN from a smartphone, tablet or PC (Android, Windows and iOS). Even 1080P video signals are no problem for the projector.
