

A young child with blonde hair is shown in profile, looking intently at a green handheld device. A yellow, flexible, snake-like tube is attached to the device and is coiled around a tree trunk. The background is a soft-focus outdoor scene with green foliage and a tree.

KIDS EXPLORATION

SNAKE SCOPE

LEARN & DISCOVER

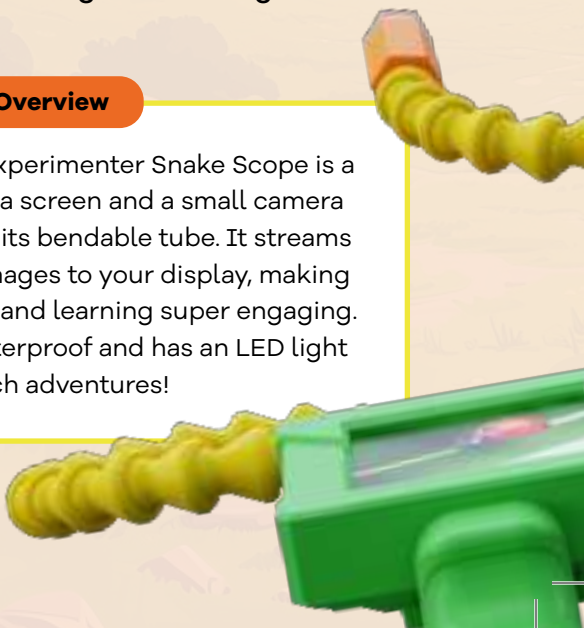

INSTRUCTIONS GUIDE

Welcome to the world of exploration with the Little Experimenter Snake Scope! This innovative toy allows children to dive into the wonders of nature, providing a unique perspective on the smallest of details. With the Little Experimenter Snake Scope, kids can uncover the hidden mysteries of the natural world, from observing ant colonies and aquatic wonders to exploring the intricate growth of grass and plants, even in the dark of night, thanks to its integrated LED light.

Product Overview

The Little Experimenter Snake Scope is a device with a screen and a small camera attached to its bendable tube. It streams real-time images to your display, making exploration and learning super engaging. Plus, it's waterproof and has an LED light for top-notch adventures!

How to Use

1. **Insert Batteries:** Open the left side panel and insert 3 AAA batteries (see image)
2. **Power On:** Press the power button on the back of the handle. (see image)
3. **Activate LED:** Press the button on the left-hand side of the handle. (see image)

Explore Nature

Ant Life: Guide the Snake Scope towards ant hills or beneath rocks to observe the fascinating world of ants. Watch as they scurry about, build tunnels, and communicate with each other.

Tree Hollows: Insert the Snake Scope into crevices of trees to peek inside. Discover the hidden chambers where insects may dwell, or observe the intricate patterns of bark and wood.

Adventure Awaits: Explore and Learn

Plant Life: Explore grass, flowers, and leaves up close, and witness the marvels of plant growth.

Discover the Hidden Wonders of Nature!

Aquatic Wonders:

Dive into aquatic environments like ponds or fish tanks to observe the mesmerizing behavior of underwater creatures. Watch fish swim gracefully and observe their playful antics.

Squirrel Life: Observe the fascinating world of squirrels by exploring their nests in tree hollows. Use the Snake Scope to peek inside squirrel holes and discover their cozy homes. Watch as they gather nesting materials, store food, and care for their young, offering a unique glimpse into the daily life of these agile creatures.

Safety Precautions:

- Always supervise children during outdoor exploration activities.
- Avoid inserting the Snake Scope into areas with potential hazards, such as bee nests, poisonous plants, etc.
- Use caution when handling the device to prevent damage to the camera or tube.

Clean and Store:

After use, gently wipe the camera lens with a soft cloth to remove dirt or debris. Coil the flexible tube neatly and store the Snake Scope safely until your next adventure.

Returns: At Little Experimenter, customer satisfaction is our top priority, we strive for happy customers. If you are unsatisfied with your purchase or wish to return your item, we offer a 30-day return policy with a money-back guarantee - provided you ship the item back to us.
