

SIEMENS

Lead change

**Transform the everyday
with us**

Commercial Project Management Development Program: *Full-time*

Program Overview:

The Commercial Project Manager Development Program (CPMDP) is a full-time two-year rotational program that provides you with formalized training and exposure to Siemens' finance-based commercial project management process and our extensive portfolio of businesses, technologies, and service.

Through 4 six-month rotations in contract review and management, negotiations and strategy, supply chain management, manufacturing and logistics, and risk management, the program will prepare you to oversee the end-to-end financial life cycle of complex manufacturing and engineering projects, while empowering you to execute innovative business solutions.

With customers in all 50 states and more than 100 U.S. cities, rotations will place you in a variety of cities and roles with diverse teams and business units across the contiguous United States. This program provides you with unique and intentional opportunities to explore different trajectories within and adjacent to commercial project management, foster your personal and professional growth, develop your technical skills, cultivate a dynamic professional network, and accelerate your career with the support of industry leaders and targeted resources.

Upon graduating from the program, you will have the tools to drive a fulfilling career path at Siemens as a subject matter expert in roles such as Commercial Project Manager, Project Manager, Financial Analyst, Accountant, and Business Process Specialist.

Examples of Past Rotations and Projects:

- Project bidding and offers (contract review, pricing, customer interface)
- Finance and controlling (project forecasting revenue, cost, cash)
- Project execution (claims management, change order calculation)
- Operations (manufacturing, procurement, logistics)
