

#### Technical Parameters

Product Name: ZombiesCat S1 Wireless Bluetooth headset

Product Model:STMK-MGM-001

Battery Capacity: 400mAh/3.7V

Charging Time:2h

Music playtime:8.5h

#### LED status

Boot pairing status: red and blue light alternate flash

Pairing success: Blue Light Flash slowly

Disconnected status: red and blue lights flash alternately

Standby status connected: blue light flashing slowly

Music mode: Blue Light Flash slowly

Transmission Distance:≥10m

Bluetooth Version: V5.1

Driver Mpedance:32Ω

Driver Diameter: Φ40mm

Frequency Response: 20-20kHz

Call mode: Blue Light Flash slowly

Power off: The Light is off

AUX mode: no lights

Low Power: red light flashing

Red Light on during charging, red light off when fully charged

#### Packing list Headphones 1-Pc Type-C Charging Cable-1Pc Audio Cable 1-Pc Manual 1-Pc

#### Bluetooth connection

- 1. Keep Your Bluetooth headset within one meter of your phone (or other connected device) as close as possible.
- 2. To ensure the headset is off, pull the switch to the ON position until the red/blue light alternately flashes, then enter the pairing state and wait for the connection:
- 3. Turn on the Bluetooth feature of the user's mobile phone (or other Bluetooth device) and search or scan it. Then the mobile phone will search all the nearby Bluetooth devices. Click on the headset name that you have found: STMK-MGM-001, and enter the password 0000(most mobile phones do not need a password), After successful pairing, the headset indicator light turned blue flashing, indicating a successful paired connection!

#### FCC Warnning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection againstharmful interference in a residential installation. This equipment generates, uses and can radiateradio frequency energy and, if not installed and used in accordance with the instructions, maycause harmful interference to radio communications. However, there is no guarantee thatinterference will not occur in a particular installation. If this equipment does cause harmfulinterference to radio or television reception, which can be determined by turning the equipmentoff and on, the user is encouraged to try to correct the interference by one or more of thefollowing measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1)This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.
