01. Download SmartThings

02. Before we begin

Download SmartThings

Step 1.

Visit Google Play Store / Appstore.

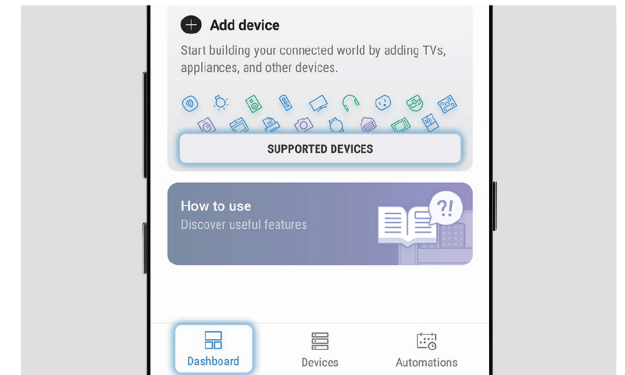

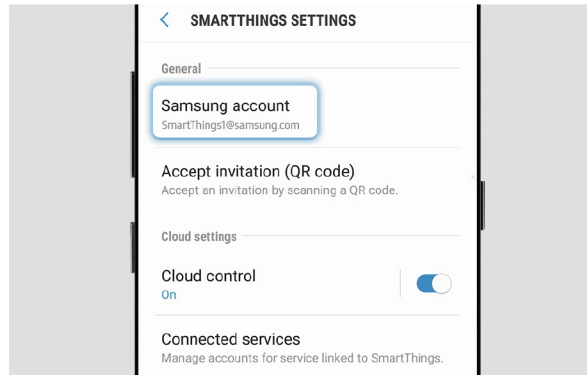

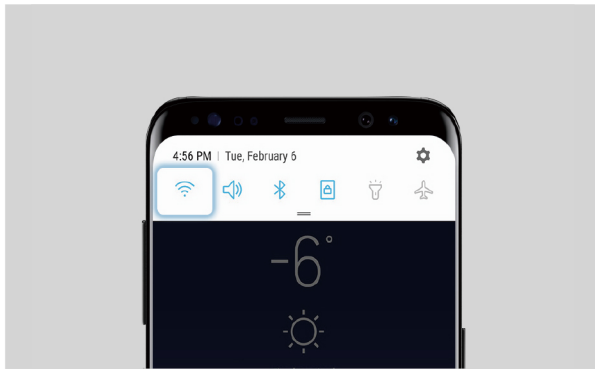

Step 2.

Download SmartThings app.

- * The Samsung SmartThings app is designed for Android 6.0 or higher, or iOS 10.0 or higher, and is optimized for Samsung smartphones (Galaxy S and Galaxy Note series).
- * Unauthorized Wi-Fi wireless routers may fail to connect to applicable Samsung smart devices.
- * Following descriptions are based on Android phone screens.

Before we begin

Please make sure that you have completed the following three steps:
If you are ready, you can get started with SmartThings.

Check whether Wi-Fi is functioning correctly.

- * The SmartThings service can only be used while connected to a Wi-Fi network.

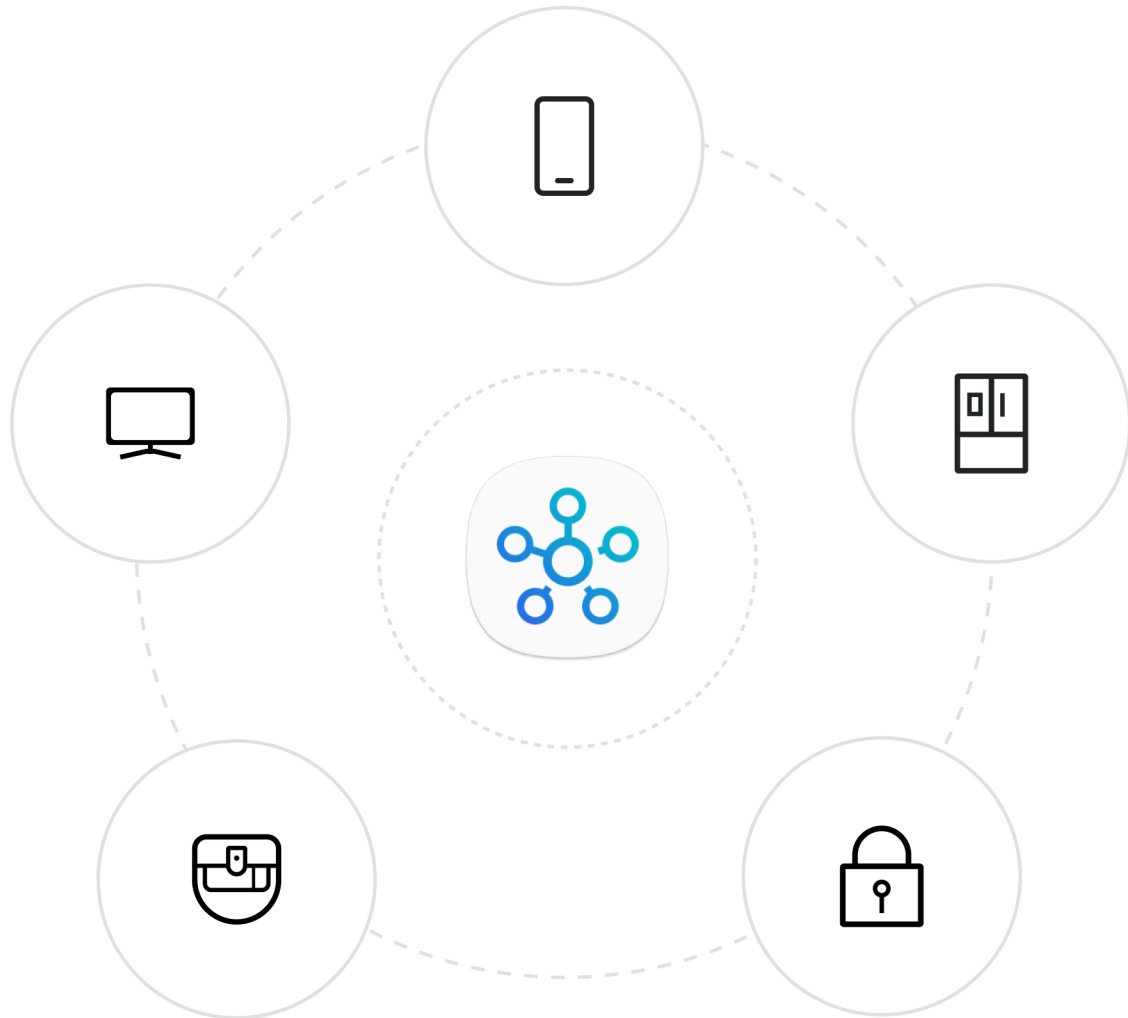

Sign in to your Samsung account.

Check whether your devices, such as your TV and other home appliances, are supported by SmartThings.

- * You can find out whether your devices are supported by SmartThings by tapping the 'SUPPORTED DEVICES' button on the 'DASHBOARD' tab.

Before we begin

Congratulations! You are now ready to use the SmartThings app.
Find out more on adding your devices to SmartThings in the next manual.
