

STAY CONNECTED

UHF CB RADIOS + AUTOMOTIVE RANGE

oricom
100% AUSSIE OWNED

STAY CONNECTED WHEREVER YOU GO

Oricom is an expert in communication technologies and our drive is to keep people connected on and off the road. Our range of UHF CB radios and accessories are recognised in the market as high quality products priced for everyday use.

The Oricom UHF CB Radios and Automotive range features trusted and premium products, including;

- ✓ Premium DTX Series
- ✓ Fixed Mount UHF CB Radios
- ✓ Handheld UHF CB Radios
- ✓ Tyre Pressure Monitoring Systems
- ✓ Battery Accessories
- ✓ Antennas and Mounting Brackets

With local design expertise all our products are specifically engineered for the diverse, unique conditions of Australia and New Zealand.

oricom DTX4200X

BUILT
LOUDER

BUILT
LARGER

BUILT
TO LAST

LOUDER AUDIO

The audio quality and volume has been significantly enhanced to provide Loud & Clear sound from the speakers in both the transceiver and microphone.

LARGER MICROPHONE

Professional grade microphone has been redesigned to be heavier and larger in the hand, with an extra-large easy to read LCD display.

BUILT TO PERFORM

IP54 rated construction with a new heavy duty curly cord designed for Australian conditions, the DTX4200X is backed by our 5 year warranty.

DUAL RECEIVE

RECEIVE TWO CHANNELS AT THE SAME TIME

The DTX4200X uses Oricom's unique **DUAL RECEIVE** feature. It's just like having two radios in one.

This allows you to receive and listen to two different channels simultaneously. So if your talking to your mates on channel 64 and you are monitoring the highway channel on 40 you will be able to receive both transmissions at the same time, so you don't miss an important conversation.

Optional
Magnetic
Microphone
Mount

MAIN CHANNEL - Convoy Channel 64

SUB CHANNEL - Highway Channel 40

Hear both channels at the same time so you don't miss an important transmission.

DUAL RECEIVE

AS USED
BY TIAV

Great radio for touring the country!!

"Loving this unit! The install is super easy and it's great how the head unit can be hidden behind the dash if needed.

The handpiece, controls and microphone are easy to use and the sound quality is loud and clear.

Having the dual receive function makes it great for travelling in convoy and still listening to other road users as well."

Justin & Bec - Trip In A Van

Oricom's DTX4200X is like two radios in one, allowing you to 'listen and receive two channels at the same time', so that you can hear everything that's going on.

KEY FEATURES

- Ergonomic, professional grade controller speaker microphone

DUAL
SPEAKER

The UHF390 removes the need for a head unit, with all of the radio's controls in the microphone. The integrated speaker in the controller mic works with the transceiver speaker to deliver exceptional sound quality and volume. Perfect for modern vehicles where space is limited, simply hide the micro transceiver under the dash or driver's seat.

KEY FEATURES

- Heavy duty microphone with channel control
- Rugged micro transceiver
- 38 CTCSS and 104 DCS codes
- Duplex
- Open/instant/priority scan
- Large easy-to-read LCD display
- 5 Year warranty

Also available in value packs:

UHF390TP

Pack includes the UHF390 and
ANU230 6.5dBi Antenna.

UHF3904WP

Pack includes the UHF390 and
ANU240 6.5dBi Antenna.

UHF310

MICRO SIZE

5 WATT UHF CB RADIO

This ultra compact micro UHF CB radio includes a flip LCD function and is the perfect install in modern vehicles or plant equipment, where space is limited. With a full 5 watts of power and the standard 80 channels[†], it'll keep you connected.

KEY FEATURES

- Ultra compact micro size
- Flip LCD function
- 7 Colour backlit display
- 38 CTCSS and 104 DCS codes
- Duplex
- Open/priority scan
- Rotary channel, squelch and volume control
- Dimensions of transceiver: 23.5 (h) x 100 (w) x 94 (d) mm
- 5 Year warranty

UHF028

COMPACT

5 WATT UHF CB RADIO

Rugged construction and compact in size, the UHF028 is the ideal radio to mount in your 4WD, tractor or construction equipment to ensure you stay in touch on or off road.

KEY FEATURES

- Heavy duty microphone plug
- 38 CTCSS
- Duplex
- Open/instant/repeater and priority scanning
- Rotary, squelch & volume control
- 3.5mm External speaker jack
- 5 Year warranty

TYRE PRESSURE MONITORING SYSTEMS

SOLAR
POWERED
LCD DISPLAY

NEW

The TPS10 Tyre Pressure Monitoring System packs include either 4 or 6 external sensors, but have the capability of simultaneously running up to 10 sensors through the solar powered LCD display unit.

Additional sensors are sold in the form of a double pack, with sensors able to be paired to the TPMS up to a total of 10.

The optional repeater enhances the signal from the external sensors and boosts it to the LCD Display. The unit is recommended for vehicles that are greater than 9m in length.

KEY FEATURES

- Solar powered display unit
- Long lasting display unit battery life
- Wireless transmission between sensor and display unit
- Adjustable threshold value
- Auto brightness on display
- Real time monitoring with pressure and temperature at a glance
- Compact design
- Visual and audio alarm
- Optional Micro USB input
- Intelligent sleeping mode for power saving
- Easy to install
- High/ low pressure warning
- Sensor failure warning
- 12 Month warranty

BSM888X BATTERY SENSE 12/24V BLUETOOTH MONITOR

With the Bluetooth enabled Oricom Battery Sense Monitor, drivers will stay in the know about the health of the vehicle battery, via their smartphone. Designed for flooded lead acid type batteries.

KEY FEATURES

- Free App for both iOS & Android
- Monitor up to 4 batteries on your Battery Sense App
- Connects to smartphone via Bluetooth
- Compatible with all 12/24 Volt vehicle batteries
- Notification of battery condition when approaching vehicle
- Automatic synchronisation when driver is within Bluetooth range
- Tests cranking automatically on engine startup
- Manually test charging system (alternator)
- Automatically record the time and duration of each trip
- Smartphone notifications (within Bluetooth range)
- Short-circuit and reverse polarity protection
- Historical data stored in device monitoring (up to 35 days out of sync)
- 12 Month warranty

BC090 12V BATTERY CHARGER

SUITS 12V LEAD-ACID/
LITHIUM BATTERIES

The BC090 is a smart automotive 12V battery charger and maintainer, making charging simple and easy for ordinary lead-acid batteries, AGM batteries, and Lithium Iron Phosphate (LiFePO4) batteries in cars and motorcycles.

KEY FEATURES

- Charges 12V batteries (2-1220AH)
- Battery repair
- 7 Precautions and safety measures
- 7 Stages of charging
- Compliant cables for safer charging
- IP65 Dust and splash resistant
- Low temperature charging
- Maintains optimum battery condition

UHF CB ANTENNAS

3 YEAR WARRANTY

Model No.	Description	Gain (dBi)
ANU025C	Portable mag-mount antenna with 3 metre coaxial cable and FME to PL259 connector.	1
ANU050	1/2 wave vertical ground independent antenna with a highly flexible whip and convenient compact size for versatile mounting.	3
ANU200	A 6.5dBi antenna with elevated feed, counter balanced spring and solid black fibreglass whip. The counter balanced spring is designed to absorb the vibrations from the engine and/or rough corrugated roads for better performance.	6.5
ANU220	A 6.5dBi ground independent black antenna with elevated feed, heavy duty barrel spring base and fibreglass whip.	6.5
ANU230	A 6.5dBi ground independent black antenna with elevated feed, heavy duty barrel spring base and fibreglass whip.	6.5
ANU240 NEW	A 6.5dBi ground independent black antenna with elevated feed, heavy duty parallel spring base and fibreglass whip.	6.5
ANU250	A 6.5dBi black antenna with independent mounting base, elevated feed with counter balanced spring and solid fibreglass whip.	6.5
ANU300	A 4.5dBi black fibreglass pole antenna with counter balanced spring. This antenna is built to withstand the harsh conditions of the Australian outback.	4.5
ANU410	A 6dBi antenna with detachable fibreglass pole. At 1m height and 6dBi gain this antenna is ideal for those looking for clear communication in Australia's relatively flat outback.	6
ANU800 NEW	A 6.5dBi black antenna with detachable fibreglass pole and heavy duty spring base.	6.5
ANU850 NEW	A 3dBi ground independent black antenna with fibreglass pole and heavy duty barrel spring base.	3
ANU900	6.5dBi fibreglass pole antenna with large barrel spring base in black powder coated finish.	6.5
ANU913	3dBi ground independent black antenna with detachable fibreglass whip and heavy duty barrel spring base.	3
ANU930	3dBi ground independent black fibreglass radome antenna with large barrel spring base.	3
ANU1100	All Terrain Pack: 3dBi short antenna including extra heavy duty parallel spring base with elevated feed. Extension fibreglass whip to convert the 3dBi base to a 6.5dBi antenna.	6.5 3
ANU1200	All Terrain Pack: 3dBi short antenna including heavy duty large barrel spring base with elevated feed. Extension fibreglass pole to convert the 3dBi base to a 6.5dBi antenna.	6.5 3

UHF CB ANTENNA WHIPS, AM/FM

Model No.	Description	Gain (dBi)
UHF CB ANTENNA WHIPS		
ANU060	3dBi Ground Independent Dipole UHF CB Antenna with NMO connector and a highly flexible whip.	3
ANT2CFGBK	A 5dBi two coil fibreglass UHF CB antenna whip. When fitted to an elevated feed mounting, this will give 8dBi of gain and improved length will give a better range than a standard, single coil whip. Can also be fitted on a ground plane and in this case will give specified gain.	5
ANT3CFGBK	A 6dBi three coil fibreglass UHF CB antenna whip. When fitted to an elevated feed mounting, this will give 9dBi of gain and improved length will give better range than the single or two coil whips. Can also be fitted on a ground plane and in this case will give specified gain.	6
ANT3FGBK	A 2dBi black UHF CB antenna whip (140mm).	2
ANT913	UHF CB Fibreglass Antenna Whip to suit ANU913 and ANU900	3
ANT900	UHF CB Fibreglass Whip to suit the ANU900 and ANU913	6.5

AM/FM ANTENNA

ANB10	AM/FM Fibreglass whip. This antenna is designed for receiving AM & FM frequencies of AM 522kHz to 1710kHz and FM 87MHz to 108MHz. The unit is supplied complete with 4.5 metre lead and 3.5DC connector.
ANB20 NEW	AM/FM/DAB+ Antenna with barrel spring base and fibreglass pole. This antenna is designed for receiving AM & FM frequencies of AM 522kHz to 1710kHz and FM 87MHz to 108MHz. The unit is supplied complete with base and 4.5 metre lead and 3.5DC connector.

CELLULAR ANTENNA

ANC970	4G LTE Multi-band Cellular Antenna with Fibreglass pole and heavy duty barrel spring base.
ANC670 NEW	4G LTE Multi-band Cellular Antenna with Fibreglass pole and heavy duty barrel spring base.
ANTC670 NEW	4G LTE Cellular Antenna Radome to suit ANC970.

Oricom's range of antennas suits mobile UHF CB Radios (477MHz) for Australia and New Zealand. The range covers all markets including 4WD, touring, industrial and transport. All Oricom UHF antennas include a low-loss coaxial cable, a pre-terminated FME connector and PL259 adaptor. (The coaxial cable length on the ANU050 and above is 4.5m).
