Phone, Charger, USB Type-C cable, Protective film (applied), SIM card tool, Quick Start Guide.

Notices for the Use of Your Phone

Your phone should be treated with care. The following suggestions can help you extend the life of your mobile phone.

1) Place the mobile phone and its parts and components out of reach of young children.
2) Keep the phone dry. Rain, humidity and all types of liquids which contain minerals will corrode electronic circuits.
3) Don't touch the phone with wet hands when charging, it will cause an electric shock or damage the phone.
4) Avoid placing the device in high temperature environments. High temperatures can shorten the life of electronic devices, damage batteries, and warp or melt certain plastics.
5) Avoid placing the device in a low temperature environment. When the temperature rises, the phone will produce water vapor that may damage electronic circuits.
6) Avoid placing the phone in dusty, dirty places, otherwise parts may be damaged.
7) Avoid placing the phone near a lit cigarette, open flame or any heat source.
8) Do not drop, knock or shake the phone. Rough handling can damage internal circuit boards.
9) Do not paint the phone. The paint may block headphones, microphones or other removable parts, and cause them not to work.
10) Use a clean, soft, dry cloth to clean the camera, light sensor lenses. Prohibit the use of harmful chemicals and cleaning agents to clean the phone.
11) Pacemaker manufacturers recommend that a minimum separation of 5mm be maintained between a mobile phone and a pacemaker to avoid a potential interference with the pacemaker (when the device is used in the USA, the separation distance can be maintained at 10mm between user's body and handset).To achieve this use the phone on the opposite
ear to your pacemaker and do not carry it in a breast pocket.
12) Please consult your doctor and the device manufacturer to determine if operation of your phone may interfere with the operation of your medical device.
13) Turn off your mobile phone or wireless devices when in a blasting area or in areas posted turn off "two-way radios" or "electronic devices" to avoid interfering with blasting operations.
14) There is a risk of explosion if the battery is replaced with an incorrect type. Dispose of a used batteries according to the instructions.
