

LASER AND THERMAL CAMERAS

FLASH GREEN 360°

DETAILS

- Green laser level. Projects: a horizontal plane over 360° plus a vertical plane at 90° to form 1 wall cross.
- Laser with adjustable intensity
- Indoor/outdoor use (with receiver not included Code 60749)
- Automatic flashing of the laser if the device is out of the self-leveling range
- Automatic locking system to avoid vibrations during transport
- Compact design, non-slip and shockproof rubber coating
- 1/4" connection for the tripod
- Magnetic base and metal cap for easy stacking
- Ion-Li batteries rechargeable via USB cable supplied

TECHNICAL DATA SHEET

PARAMETER	VALUE
Capacity (depending on ambient brightness)	40 m
Capacity with receiver	60 m
Leveling accuracy	± 3 mm / 10 m
Self-leveling range	± 4°
Signal out self-leveling	yes
Laser type	505-550 nm
Potenza laser	Class II
Batteries	2000 mAh li-ion
Dimensions (mm)	114 x 66 mm
Weight (without batteries)	0275 Kg
Dust/Waterproofing	IP 54
Tripod thread	1/4"
