

Small red-rod design  
from fitting with eye, with maximum neck strength  
(structure for maximum strength)

### Name:

1. Please read the user manual before using the device and make sure you understand it.
2. The device is designed to be used with an LED light.
3. Please refer to the user manual for more information on how to use the device and how to use the LED light.

### Product structure:

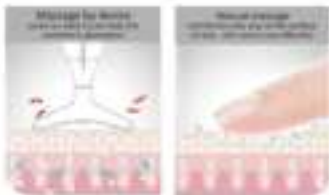

### Instructional picture table 3 programs:

### How to use:

1. Please refer to the user manual for more information on how to use the device and how to use the LED light.
2. The device is designed to be used with an LED light.
3. Please refer to the user manual for more information on how to use the device and how to use the LED light.

1. The device is designed to be used with an LED light.
2. The device is designed to be used with an LED light.
3. Please refer to the user manual for more information on how to use the device and how to use the LED light.

1. The device is designed to be used with an LED light.
2. The device is designed to be used with an LED light.
3. Please refer to the user manual for more information on how to use the device and how to use the LED light.

1. Please refer to the user manual for more information on how to use the device and how to use the LED light.
2. The device is designed to be used with an LED light.
3. Please refer to the user manual for more information on how to use the device and how to use the LED light.

When you use the device, please refer to the user manual for more information.

### Notes:

1. The device is designed to be used with an LED light.
2. The device is designed to be used with an LED light.
3. Please refer to the user manual for more information on how to use the device and how to use the LED light.

### How to clean:

1. Please refer to the user manual for more information on how to clean the device.

### Caution:

1. Please refer to the user manual for more information on how to use the device.
2. The device is designed to be used with an LED light.
3. Please refer to the user manual for more information on how to use the device and how to use the LED light.

### QA:

Question	Answer
Q: How do I use the device?	A: Please refer to the user manual for more information on how to use the device.
Q: How do I clean the device?	A: Please refer to the user manual for more information on how to clean the device.
Q: How do I charge the device?	A: Please refer to the user manual for more information on how to charge the device.

Product size	88 x 57 x 121 mm
Working voltage	3.7V ~ 4.2V
Monthly capacity	100mAh @ 25°C
Memory capacity	100mAh
Working mode	Working frequency: 433MHz (remote control), 433MHz (remote control), 433MHz (remote control)
Working mode	Working frequency: 433MHz (remote control), 433MHz (remote control), 433MHz (remote control)
Working mode	Working frequency: 433MHz (remote control), 433MHz (remote control), 433MHz (remote control)
Working mode	Working frequency: 433MHz (remote control), 433MHz (remote control), 433MHz (remote control)
