March - May 2019

ASUS ZenBook 13

The world's smallest 13" laptop,
even smaller than A4 paper*

The first ZenBook with a
frameless NanoEdge display

The world's most
compact laptop

Fast face login and unique
NumberPad touchpad

Windows Hello: You are the password.

* As of August 17, 2018 based on internal ASUS market analysis comparing ZenBook 13/14/15 laptop size to competing products in their class (laptops with a screen measuring 13.3 inches, 14 inches and 15.6 inches) from vendors including Acer, Apple, HP, Huawei, Lenovo, Microsoft and Samsung.

In Search of Incredible

ASUS is passionate about technology and driven by innovation. We dream, we dare, and we strive to create an effortless and joyful digital life for everyone. We're always in search of incredible ideas and experiences, and we aspire to deliver the incredible in everything we do. Our extensive product portfolio includes motherboards, graphics cards, optical drives, displays, desktop and all-in-one PCs, laptops, netbooks, servers, multimedia devices, wireless solutions, networking devices, tablets and smartphones, and even robotics. Our results speak for themselves. We're the No.1 consumer laptop brand in Asia-Pacific, and a top-three vendor of consumer laptops globally. We're also proud to be world's best-selling, most award-winning motherboard brand. Driven by the core values of lean thinking, innovation, aesthetics and achieving results, ASUS won 4,511 awards in 2017 — and the total revenue for 2017 was approximately US\$13 billion. The combined talent of 16,000 international employees, including a world-class R&D team of 5,000 engineers, has elevated ASUS to become one of Fortune magazine's World's Most Admired Companies in 2018.

Ensuring The Best Quality Laptops

Durability is a hallmark of ASUS design. We strive to create devices that exceed expectations in any environment. That’s why ASUS laptops undergo a rigorous torture-test regime, including military-grade testing to the demanding MIL-STD-810G standard*. Using up to 12 separate tests in environmental conditions, we hope you’ll never encounter. So whether you’re an urban explorer or an Arctic trailblazer, you can rest assured your laptop is ready for the worst that life on the road can throw at it.

Drop Test
Drop tests check the resistance of the chassis and internal components to damage from unexpected drops.

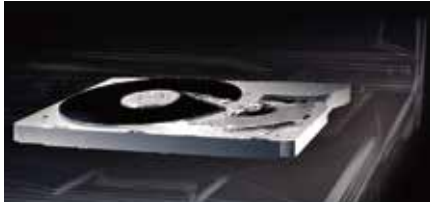

Vibration Test
Extensive vibration testing ensures that the chassis and internal components can withstand even the most extreme travel conditions.

Panel Resistance Test
Panel resistance tests ensure that the display can endure unexpected bumps or pressure.

Enhanced Hinge Test
Vigorous testing with over 20,000 open/close cycles helps ensure exceptional hinge strength.

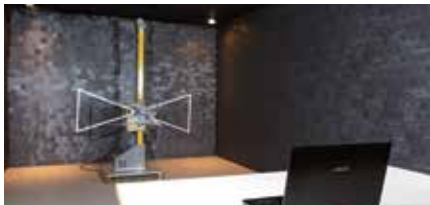

Shock Test
Shock tests ensure a laptop can withstand unexpected impacts such as accidental bumps, or jarring movements during shipping.

Keyboard Test
To ensure ultimate keyboard durability, specially designed ASUS robots test individual keys with millions of keystrokes.

Accelerated Life Test
These simulate the effects of long-term operation, so engineers can identify any possible design or component vulnerabilities.

EMI Test
This ensures that ASUS laptops perform well in internal or external electromagnetic fields.

Port Test
Port tests ensure that contacts and plugs are durable even in environments where devices are frequently connected and disconnected.

Altitude Test
This tests the ability to survive extremes of altitude encountered in shipping by air or air travel.

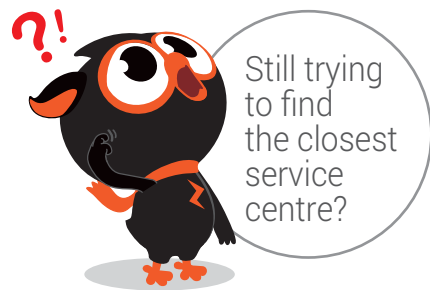

Noise and Audio Test
Laptops undergo fan, hard drive, and power-supply noise tests to ensure the quietest performance possible.

Temperature Test
Extremely high or low temperatures tests ensure laptops’ functions consistently for users everywhere.

*Selected ZenBook and ASUSPRO models will be tested according to the demanding MIL-STD 810G military-grade standard to ensure maximum reliability and durability and the number of tests passed by each laptop model is shown in the individual model’s specifications sheet.

ASUS Pick-Up & Return Service From Your Doorstep

ASUS provides the service you need. Beyond our 2-year global warranty, we offer a premium Pick Up & Return Service for customers and dealers. For customers, this allows you to **request door-to-door service**, or you may just drop your ASUS notebook or tablet at your nearest retailer.

5 simple steps to apply ASUS Pick Up and Return Service for Laptops, Mobile & Tablet

* As of August 17, 2018 based on internal ASUS market analysis comparing ZenBook 13/14/15 laptop size to competing products in their class (laptops with a screen measuring 13.3 inches, 14 inches and 15.6 inches) from vendors including Acer, Apple, HP, Huawei, Lenovo, Microsoft and Samsung.

The world’s smallest 13 inch laptop

Creativity. Style. Innovation. These are the qualities that define the elegant new ZenBook 13. Everything in this take-anywhere masterpiece — it’s one of the world’s smallest 13-inch laptops — is designed to give you the freedom to discover your creative power, including its breathtaking frameless NanoEdge display. You’ll appreciate not only the tremendous power within and the thoughtful attention to detail — such as the exclusive ErgoLift hinge and NumberPad touchpad — but also the timeless beauty of the design, with its sensational Royal Blue or Icicle Silver finish enhanced by the new Rose Gold trim panel.

Ultraportable, redefined

ZenBook 13 heralds a new era of ultraportable design, with an ultracompact, ultralight chassis that makes it the world’s smallest laptop series! None of the traditional ZenBook style has been lost, though: there’s the iconic Zen-inspired spun-metal finish on the lid and a choice of prestigious Royal Blue or sophisticated Icicle Silver finishes, both newly enhanced with a contrasting Rose Gold trim panel above the keyboard for an extra touch of luxury.

Color-blocking design

Dare to be different

When it comes to looks, VivoBook S doesn't do boring traditional laptop colors. Instead, it has striking hues that let you express yourself, adopting a color-blocking approach to pair the bright and bold with more subtle colors for a laptop that visually pops. VivoBook S has four exciting hues that tell the world who you are. Whatever your style and outlook, VivoBook S has a color combination to match it.

See more, do more

The new NanoEdge display on VivoBook S continues to push the boundaries of what's possible — the new three-sided NanoEdge display now has an even narrower bezel along the top and sides of the display. This results in an 86% screen-to-body ratio that provides unrivaled immersion in a much more compact package.

Give yourself a lift

Open up VivoBook S for a world of productivity and possibilities. Its precision-engineered ErgoLift hinge has a silky-smooth dual action that holds the display securely at any angle, and slightly tilts the keyboard up by 3.5° to give you a perfect typing position every time. The ErgoLift hinge also improves cooling for a stable computing experience.

See and do more on a frameless display

The chic VivoBook S13 breaks boundaries, and is the first ASUS laptop to feature a stunning frameless four-sided NanoEdge display, giving you a 4.3mm-thin bezel for an astounding 89% screen-to-body ratio.

Lightening your load

VivoBook S13 is the ultraportable that doesn't weigh you down. It's just 17.9mm thin and 1.2kg light, simply slip S13 into your messenger bag or backpack, and away you go! The new frameless four-sided NanoEdge display helps keep dimensions to a minimum. For a 13-inch laptop, S13 is surprisingly compact and lightweight with a chassis size that's only slightly larger than an 11-inch laptop for true go-anywhere computing.

Give yourself a lift

Open up VivoBook S13 for a world of productivity and possibilities. Its precision-engineered ErgoLift hinge has a silky-smooth dual action that holds the display securely at any angle, and adds a 2.5° keyboard tilt to give you a perfect typing position every time.

2.5 degree

It's all in the details

The stylish VivoBook S13 features an aluminum construction and is available in Icicle Gold, Rose Gold, and Transparent Silver. The Icicle Gold option comes with a complementary brushed finish around the keyboard for a premium feel —it's these little details that make S13 unique.

Making everything possible

Your future is what you make of it, and VivoBook S13 has the tools to help you every step of the way. With the very latest 8th Generation Intel® Core™ processors, you're ready for what lies ahead, be it productive multitasking, multimedia editing, or casual gaming. S13 also features up to high-speed 256GB SSD storage for improved data performance and near-instant boot-up times.

Unbounded immersion

VivoBook 14 pushes the limits of what's possible, inspiring you to break new bounds. The latest frameless four-sided NanoEdge design gives VivoBook 14 an almost-bezel-free display with vast amounts of screen area and extremely immersive visuals, for work and play.

It goes where you go

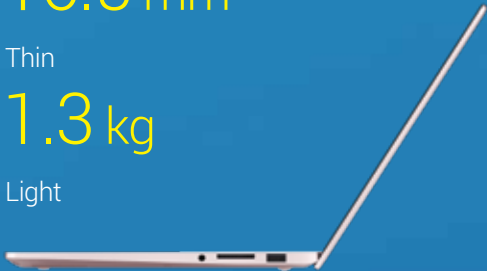

The new frameless four-sided NanoEdge display keeps dimensions down to a minimum, giving VivoBook 14 a footprint that's appreciably smaller than its predecessor. It takes up less space on your desk, leaving more room for you. Life moves fast, and you'll need a laptop that won't weigh you down. VivoBook 14 has compact, travel-friendly dimensions and is incredibly lightweight – simply slip it in your bag for true go-anywhere computing.

Immersive visuals, easy portability

ASUS VivoBook is the perfect combination of beauty and performance. Available in multiple colors and finishes, VivoBook 15 is a Windows 10 laptop powered by a 8th Generation Intel® Core™ i5 processor with 4GB RAM and MX150 graphics*. With the large capacities of a HDD, it's the ideal laptop for daily computing and entertainment.

Thinner and lighter

ASUS VivoBook 15 is thinner and lighter than ever: It weighs just 1.7 kg and has an amazingly thin 19.4mm profile. It's an everyday laptop with the weight and compactness of an ultrabook.

NanoEdge display with ultra narrow bezel

Fitting a 15.6-inch Full HD display into a frame size that's typical of a 14-inch laptop isn't easy – but the ultrathin bezel of the NanoEdge display on the VivoBook 15 makes it possible. With the 7.8mm bezel on the NanoEdge display, VivoBook 15 has an incredible 80% screen-to-body ratio – so you get more screen for more immersive viewing.

Amazing performance

ASUS VivoBook 15 is powered by up to the latest 8th Generation Intel Core i5 processor, with 2GB MX150 graphics* for smooth visuals and great gaming experiences. It also features dual-band 2x2 802.11ac* Wi-Fi for superfast internet connections.

Stylish design, smart productivity

ASUS A542 is the perfect combination of beauty and performance. Powered by a 8th Generation Intel® Core™ i5 processor with 4GB RAM and Discrete graphic MX130. It's the ideal laptop for daily computing and entertainment. It is available in a high-gloss spun finish in Icicle Gold & Star Grey.

Large storage capacity

With the blistering large storage capacities of a 1TB HDD. It can use the HDD to house large files such as movies, music libraries and photo albums.

Amazing performance

The ASUS A542 is powered by up to the latest 8th Generation Intel® Core™ i5 processor and Discrete graphic MX130 for smooth visuals and great gaming experiences. And with dual-band 802.11ac Wi-Fi, you'll enjoy super-fast online performance.

Complete connectivity, including USB Type-C™

A USB 3.1 port with a reversible USB Type-C™ connector makes connecting devices quick and easy. USB 3.1 provides data transfer speeds as fast as 5Gbps — up to 10x faster than USB 2.0 connections! You can transfer photos, music and large video files in a fraction of the time: transferring a movie with a file size of 2GB takes less than two seconds. The ASUS A542 also features HDMI and VGA ports, as well as a card reader for hassle-free compatibility with a wide range of peripherals, displays and projectors.

Model	Processor	Operating System	Display	Graphic Card	Memory	Storage	Connectivity	Interface	Price	Warranty
 X570ZD	AMD Quad Core R5-2500U Processor, 2.0 GHz (2M Cache, up to 3.6 GHz)	Windows 10 Home	15.6" 16:9 FHD (1920x1080)	NVIDIA® GeForce® GTX 1050 GDDR5 4GB	DDR4 4GB	SATA 1TB HDD	802.11ac + Bluetooth™ 4.2 (Dual band) 2*2	1 x COMBO audio jack; 1 x USB 3.0 port; 1 x USB 3.1 Type C gen1 port; 2 x USB 2.0 port; 1 x RJ45 LAN Jack; 1 x HDMI 1.4	RM2,799	2 Years Global Warranty

Amazing performance

ASUS X570 is a slim and lightweight high-performance laptop that's powered by the AMD Quad Core R5 processor. It delivers stunning visuals thanks to a FHD display with 100% sRGB color gamut and high-quality GeForce® GTX 1050 gaming-grade graphics. On top of that, it boasts a dual-storage design that combines the fast data speeds of a 128GB SSD with the large capacities of a 1TB HDD.

A stunning finish with colored edges

ASUS X570 sports an eye-catching look — with a smart and sophisticated Reaper Black finish accented by Lightning Blue edges. Its 21.9mm profile and overall weight of 1.9 kg makes it one of the lightest high-performance laptops available.

FHD display for vivid visuals

The ASUS X570 combines optimized hardware and software to provide best-in-class visuals. A FHD panel with wide-view technology, 72% NTSC and 100% sRGB color gamut, and ASUS Splendid display technology provide richer, deeper and more accurate colors — for any type of content.

All-day productivity and entertainment

An everyday laptop deserves nothing less than all-day battery life, so to achieve its remarkable up to 9 hours of web browsing, we designed a special high-capacity 48Wh lithium-ion battery. And with ASUS fast-charge technology, a low battery can be charged to 60% in just 49 minutes.

Immersive visuals, easy portability

ASUS X505 is the perfect combination of beauty and performance. Available in several colors and finishes, ASUS X505 is a Windows 10 laptop powered by the AMD Ryzen 5 processor with up to 4GB DDR4 RAM and Vega 8 graphics. With the large capacities of an 1TB HDD, making it the ideal laptop for daily computing and entertainment.

Thinner and lighter

ASUS X505 is thinner and lighter than ever — with an amazingly thin 20.35mm profile, it weighs just 1.65kg*. It's an everyday laptop with the weight and compactness of an ultrabook.

NanoEdge display with ultra narrow bezel

The ultrathin bezel of the NanoEdge display on the ASUS X505 allows a 15.6-inch Full HD display to fit into a frame size that's only slightly larger than those typically used in 14-inch laptops. The 7.7mm bezel on the NanoEdge display also results in an incredible 81% screen-to-body ratio — so you get more screen for more immersive viewing.

Windows Hello: You are the password.

Featherweight design for those constantly on the go

The ASUS E203 is the world's lightest and most compact 11.6-inch laptop that is powered by up to the latest Intel® quad-core processors for unmatched productivity on the go. The ASUS E203 features up to a 500GB HDD*, convenient connectivity features including a reversible USB-C™ port and dual-band 802.11ac Wi-Fi, and up to a class-leading 10 hours of battery life. It is pre-loaded with Windows 10, and features Cortana voice commands and other Windows enhancements. The ASUS E203 is available in two elegant colors — Star Grey and Petal Pink.

Designed for mobility

The ASUS E203 is designed for those constantly on the go, and easily fits into a messenger bag or backpack. This 11.6-inch laptop weighs just 980g*, has an ultra-thin 16.9mm* profile and a footprint smaller than an A4 sheet. And with 10 hours of battery life, it means you can leave the power adaptor at home.

Productive performance

The ASUS E203 is powered by up to the latest Intel® Pentium® quad-core processor. It has up to a 500GB HDD and convenient connectivity including a reversible USB-C port, two USB 3.0 Type-A ports, HDMI output and dual-band 802.11ac Wi-Fi. The ASUS E203 is primed for productivity.

Cinematic audiovisuals

ASUS Tru2Life Video technology uses intelligent algorithms to optimize the sharpness and contrast of every pixel by 150 percent to produce incredibly vivid and realistic imagery. ASUS Splendid display technology optimizes imagery to provide richer, deeper and more accurate colors – for any type of content. The ASUS E203 also features dual speakers and ASUS SonicMaster technology for immersive surround-sound.

Ergonomic typing and larger touchpad

ASUS E203 has a full-size ergonomic keyboard with 1.6mm key travel for supreme typing comfort. Its large multi-touch touchpad is similar to those found on larger 14-inch laptops. It is designed for extra-sensitive responsiveness, with Windows Precision Touchpad (PTP) support and palm-rejection technology for effortless navigation with Windows apps and other features.

One Laptop. One Tablet. One Device.

Transformer Book T101HA is fresh, vibrant and stylish. It's a lightweight ultraportable 10.1in laptop with up to 11hrs battery life, and its brand-new reversible hinge enables four versatile modes — tablet, laptop, stand and tent — to suit whatever you want to do! The durable metal finish has stylish honeycomb-inspired patterning on the keyboard area, comes in three fresh and vivid colors. It features Windows 10, a full-size USB port on the tablet and a quad-core Intel® processor. Weighing just 580g in tablet mode, it's everything you need for your mobile lifestyle!

Brilliantly Designed For Fun-Packed Freedom!

We designed Transformer Book T101HA using aluminum to make it tough, light and slim. It also feels great, and shrugs off everyday knocks and scuffs. With its fresh, vivid colors — Glacier Gray, Rose Gold and Mint Green — there's a T101HA for everyone. And the unique honeycomb-inspired pattern on the keyboard surround adds true individuality to T101HA —even the smallest details are important!

Four Versatile Modes To Match The Way You Work — Or Play!

Transformer Book T101HA's brand-new reversible hinge makes it even more versatile! Work productively in laptop mode, detach the tablet for catch up with your online life, flip it round and re-attach it to watch movies in stand mode, or use tent mode to share cool stuff with your friends and colleagues.

Enjoy Brighter, Sharper And Clearer Visuals

At 400cd/m², the gorgeous display is one of the brightest screens in its class, as well as having wide viewing angles! Exclusive ASUS Tru2Life video enhancement and TruVivid direct-bonding technology ensure the best possible images in any situation, with sharp, realistic videos and fewer annoying reflections.

ROG Zephyrus S (GX701)

ROG SERIES

Impeccable Gaming Visuals

Zephyrus S has an IPS-level panel with a 144Hz refresh rate and 3ms GTG response time for superfast visuals with minimal ghosting and motion blur. In addition, NVIDIA G-SYNC display technology synchronizes the display's refresh rate with the NVIDIA GeForce graphics card's frame rate, ensuring ultra-smooth visuals. G-SYNC reduces lag, minimizes perceived stutter, and eliminates visual tearing – providing the smoothest, fastest and most breath-taking gaming imaginable, without affecting system performance. The panel also features a 100% sRGB color gamut and wide-view technology to ensure lifelike colors, even when viewing the display from extreme positions.

Quickly switch gears for work and play

Live a double life powered by the ROG-exclusive GPU switch. With just a few clicks, ROG Zephyrus S transitions between better gaming and longer battery life. G-SYNC mode synchronizes the GPU and display to deliver smoother gameplay with lower input lag and tear-free graphics, while Optimus mode selectively turns off the discrete GPU to save power with everyday desktop productivity and entertainment

ROG STRIX SERIES

LIGHT IT UP WITH AURA LIGHTING

Dim the lights, and watch Aura lighting take center stage. The ROG logo on the lid, the front light bar, transparent QWER keycaps and semi-transparent key sides allow Aura to shine brighter than ever before. Together, they add up to show off your own unique style.

RANGEBOOST FOR ZERO-DEAD-SPOT WI-FI CONNECTION

ROG Strix gaming laptops are the first in the world to feature multi-antenna Wi-Fi for 30% more range, higher Wi-Fi throughput, and fewer connection drops. Patented ROG RangeBoost technology combines four antennas located at the back and front of the machine with a unique algorithm that constantly scans and selects the best pair of antennas able to cover each other's dead spots, resulting in the strongest possible signal.

ASUS TUF GAMING FX505 / FX705

- 

Gold Steel design with lighting logo
- 

IPS-level NanoEdge display with 144Hz refresh rate
- 

HyperCool Technology with Anti-Dust Tunnels and Fan Overboost

EXTREME IMMERSION ON AN ULTRAFAST DISPLAY

The new NanoEdge design has an even thinner 6.5mm bezel for extreme immersion in a much more compact package. FX505 features an IPS-level panel with up to an ultrafast 144Hz refresh rate for supersmooth gameplay with minimal motion blur. A 100% sRGB color gamut and wide-view angles ensure vivid and consistent colors, even when you're viewing it from extreme positions.

RGB-BACKLIT KEYBOARD

FX505 has a keyboard that's optimized for gaming, featuring RGB-backlighting* across all zones that can be controlled via the TUF Aura Core panel so you can express your own unique style. Exclusive HyperStrike technology ensures more accurate typing and improved ergonomics thanks to a desktop-inspired layout with a highlighted WASD key group, broader space bar, isolated arrow keys, and recognizable gaps between the function keys. In addition, Overstroke technology registers keystrokes faster for precise and effortless control.

ASUS TUF GAMING FX505 / FX705

- 

IPS-level NanoEdge display
- 

HyperCool Technology with Anti-Dust Tunnels and Fan Overboost
- 

Immersive DTS Headphone:X™ surround sound

TOUGHER THAN STANDARD

Infused with the spirit of The Ultimate Force (TUF), FX505 passes a series of rigorous MIL-STD-810G tests, successfully surviving varying conditions including solar radiation exposure, high altitude, and temperature extremes. It's certified to endure day-to-day use, from accidental knocks to sudden drops on a desk. Durable and stable, FX505 has been pushed to the limit to ensure only the very best for gamers.

HYPERCOOL TECHNOLOGY IMPROVES DURABILITY

ASUS-exclusive HyperCool technology comprises of the Anti-Dust Cooling (ADC) system and Fan Overboost technology to ensure exceptional cooling during gaming marathons. Furthermore, cooling is also improved by the patented trapezoid-cut lid and intelligent parallel fan placement.

IMMERSIVE DTS SURROUND SOUND

DTS Headphone: X™ technology delivers immersive, high-fidelity 7.1-channel virtual surround sound for theater-quality audio, even when you're using a headset. It features optimized settings for games, sports, and movies, and has a built-in equalizer for additional fine-tuning.

ROG STRIX GL12CX

Rebirth of a gaming beast

KEEP IT COOL UNDER PRESSURE

ROG Strix GL12CX provides robust cooling for epic gaming marathons. Its intelligent cooling system features two dedicated isolated air chambers to improve heat dissipation. Strix GL12CX includes the innovative interwoven HyperStream design that allows for maximum heat removal and airflow into the chassis. In addition, the three fans on the top and bottom of the chassis ensure constant airflow through the system to keep the power supply and storage drives cool in the heat of battle.

UNIFIED SYSTEM TUNING AND PERSONALIZATION

ROG Armoury Crate puts all essential system and lighting control at your fingertips in a single utility. You can easily change settings for both and define up to four game profiles that automatically make adjustments when you launch your favorite titles. Armoury Crate even lets you manually overclock ROG Strix GL12CX beyond the processor's factory-overclocked speeds. These options are just the beginning for what will become an even more versatile tool.

ROG STRIX GL10CS

Always game

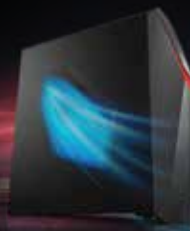

TESTED FOR QUALITY AND PROVEN FOR RELIABILITY

Each ROG GL10CS is subjected to a series of rigorous quality tests, including drop and vibration, thermal, noise, and voltage testing to ensure it meets our exacting standards, and surpasses those of the competition. From the internal structure to the individual components and from mechanical design to electrical safety is tested to make sure the device you receive serves you reliably for years to come. The user comfort tests such as noise tests are carried out to isolate and optimize sound pressure and tones in different performance modes and scenarios to provide you with a comfortable experience even in the most demanding applications.

DUAL-CHAMBER S-SHAPE DESIGN

The chassis adopts a dual-chamber S-Shape design meaning that the main components, including the CPU, the motherboard, and the graphics card are isolated from where the HDD and power supply unit are stored so that the internal thermal channels will not warm up one another resulting in improved thermal performance.

Model	Processor	Operating System	Chipset	Graphic Card	Memory	Storage	Connectivity	Interface	Price	Warranty
