

Samsung Freestyle Gen 2 (LFF3C)

S A M S U N G F R E E S T Y L E G E N 2 (L F F 3 C)

A brief introduction to the Samsung Freestyle Gen 2 (LFF3C). The DLP LED projector has an HDTV 1920 x 1080 resolution and a contrast of 100000:1. The service life of the LEDs is 30000 hours, which is equivalent to over 20.5 years at 4 hours per day. 230 Ansi lumens ensure that a picture width of 154 cm is also possible. However, if room light is available, the picture should be max. 103 cm wide. In the event that the image is still too small, the projector offers integrated edge blending software, with which several projectors can project a large image together. The rechargeable projector is not dependent on a direct power source and can therefore be set up very quickly, freely and spontaneously. As the projector recognizes Airplay, Miracast Screen Mirroring signals, it is possible to play videos with high resolution and surround sound directly from a smartphone, tablet, PC (Android, Windows and iOS) via WLAN. Thanks to the Bluetooth function, the projector can also be flexibly paired with other speakers. The projector can also play 1080P without any problems. The operating noise of just 30 decibels makes the projection quiet.

Brief Introduction

Beta 2.5

Display Type

1 x DLP Chip
HDTV 16/9 Ti Digital Light Processing Chip

Ansi-Lumen

230

102 Lux (bei 200 cm Screen)

Contrast

100000:1 full on/off

100000:1 full on/off

Black Level

0,0023 min. Lumen

0,001 min. Lumen

Offset

HDTV 1920 x 1080

Resolution

2.073.600 Pixel

Video Modes

Pal, SECAM, NTSC, HDTV 720p, 1080i, 1080p, EDTV 480p, 576p

Application

Game-Portabel | Very portable, small-screen projections.

Very narrow picture width and rooms with very little light.

Light Source

LED

Light Life

30000 h.

Operating Costs

0,00 € LED
