Any modifications to this product will void the warranty.

Make sure the crankset is firmly attached to the bottom bracket, Improperly attached cranks can become detached from the BB set.

Do not alter this product in any way as it can cause unseen damage.

- When cleaning the bottom bracket set, only use mild soap and water. Never use high-pressure water jet, It will cause BB cup internal water ingress and influencing the bearing rolling lifetime.
- If you have any questions or concerns about this product, Please feel free to contact us. E-mail:info@tripeakbearing.com

a trained bicycle mechanic at your local bike shop.
