

iSinbox JY821

iSINBOX JY821

The JY821 at a glance: The iSinbox Standard Portable LED LCD Projector offers 1500 ANSI lumens, a contrast ratio of 20000:1, and HDTV 1920 x 1080 resolution. The manufacturer specifies an LED service life of 30,000 hours, which would be over 20.5 years if viewed for 4 hours a day. An image width of up to 393 cm is possible because the projector has 1500 ANSI lumens. However, if there is ambient light, the image should be no more than 262 cm wide. Since the projector recognizes Airplay and Miracast screen mirroring signals, it is possible to play videos from a smartphone, tablet, or PC (Android, Windows, and iOS) with high resolution and surround sound directly via Wi-Fi. In addition, the Bluetooth capability is a useful addition to the projector, especially for wireless audio transmission. Furthermore, it is compatible with Full HD 1080P and 4K (compressed).
