QUICK TIPS

- The Bluetooth connection is established from the right earbud. For the most stable connection, keep the device near right hand side or in right pocket.
- If you prefer to wear only one earbud, you must wear the **right earbud** as this is the main earbud connected to Bluetooth.
- Choosing the correct ear tip makes a significant improvement in audio quality due to proper seal for the driver. Try all ear tips for best results.
- Only ONE Bluetooth device can be connected at a time. Turn off Bluetooth from unwanted devices and turn on Bluetooth from chosen device to connect.

WARNING

Fully dry off the earbuds before putting in the charging case to avoid any damage to the case.

The earbuds are sweat/water resistant but the case is not.

CAUTIONS

- Avoid extreme heat, cold, and humidity.
- Avoid dropping or crushing the earbuds.
- Wax may build up in the earbud tips, lowering the sound quality. Carefully remove the wax with a cotton swab or other small tool to improve the sound quality.
- If you experience discomfort or pain, try lowering the volume or discontinuing use temporarily.
- If you experience regular discomfort while using this product, discontinue use and consult your physician.
- We recommend you treat your earbuds as you would a nice pair of sunglasses and keep them in safe location when not in use.
