

ENERGY STAR CERTIFIED

# Uninterruptible Power Supplies

## Tripp Lite - AG-06B6 : SMART1500LCDTXL

### Specifications

|                                                          |                          |
|----------------------------------------------------------|--------------------------|
| ENERGY STAR Unique ID:                                   | 2395397                  |
| Brand Name:                                              | Tripp Lite               |
| Model Name:                                              | AG-06B6                  |
| Model Number:                                            | SMART1500LCDTXL          |
| Power Conversion Mechanism:                              | Static                   |
| Minimum Configuration Tested Model Number:               | AG-06B6                  |
| Active Output Power Rating Minimum Configuration (W):    | 1200                     |
| Apparent Output Power Rating Minimum Configuration (VA): | 1440                     |
| Topology (ac):                                           | Line Interactive         |
| Topology and Product Type Combined:                      | ac Line Interactive (VI) |
| Application:                                             | Consumer,Commercial      |
| Rated Input Voltage (V rms):                             | 381-120                  |
| Rated Input Frequency (Hz):                              | 50-60                    |
| Rated Output Voltage (V):                                | 120-120                  |
| Rated Output Frequency (Hz):                             | 50-60                    |
| Rack Mountable:                                          | No                       |
| Height (mm):                                             | 191                      |
| Width (mm):                                              | 140                      |
| Depth (mm):                                              | 381                      |
| Total Number of Outlets:                                 | 8                        |
| Number of Battery Backup and Surge Protected Outlets:    | 6                        |
| Number of Surge Protected Only Outlets:                  | 2                        |
| Normal Mode(s) Input Dependency Characteristic (ac):     | Voltage Independent      |
| Modular UPS:                                             | No                       |
| Number of Normal Modes:                                  | Single-normal-mode       |
| Default Normal Mode (ac):                                | Voltage Independent      |
| Test Input Voltage (V rms):                              | 120                      |
| Test Input Frequency (Hz):                               | 60                       |
| Test Output Voltage (V):                                 | 120                      |
| Test Output Frequency (Hz):                              | 60                       |

|                                                                             |                                                                                                                                                                                                                                                                                             |
|-----------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Total Input Power in W at 0% Load Min Config Lowest Dependency (ac):</b> | 3.1                                                                                                                                                                                                                                                                                         |
| <b>Efficiency at 25% Load Min Config Lowest Dependency (ac):</b>            | 98.8                                                                                                                                                                                                                                                                                        |
| <b>Efficiency at 50% Load Min Config Lowest Dependency (ac):</b>            | 99.0                                                                                                                                                                                                                                                                                        |
| <b>Efficiency at 75% Load Min Config Lowest Dependency (ac):</b>            | 98.5                                                                                                                                                                                                                                                                                        |
