BLADELESS HEATERS
HEATING

Top notch design, technology, and efficiency

Its Bladeless technology allows for a great heat distribution and ensures increased safety during operation. On top of that, it is silent and easy to clean. Their triple-safety system ensures maximum safety: auto shut-off in case of tipping over, protection against overheating and no blades, safe for children.

Immediate heating

The heater's 1500-W power allows it to quickly heat up the room for us to enjoy immediate warmth.

1500 W CONNECTIVITY

Maximum comfort

Easy control thanks to its Wi-Fi connectivity that allows using the device from your smartphone. Also operated through remote control and touch panel.

ReadyWarm 8200 Bladeless

Bladeless heater with 1500 W, remote control, touch control, LED display, 3 modes, oscillation, timer and triple safety system.

FEATURES:

- The heater is highly powerful due to its 1500 W, capable of heating rooms in a small amount of time.
- Its Bladeless technology allows for a great heat distribution and ensures increased safety during operation. On top of that, it is silent and easy to clean.
- Easy control thanks to a user-friendly touch control or through remote control.
- Its LED display shows the room temperature and the rest of available functions.
- It includes 3 operating modes: Fan, Low (reduce consumption to 750 W) and High (maximum consumption of 1500 W).
- It oscillates up to 60° distributing heat evenly across the whole room.
- It features a 12-hour timer, which allows setting the desired operating time. The LED display will show the selected settings.
- Complete safety thanks to its triple safety system: Auto shut-off in case of tipping over, protection against overheating and no blades, safe for children.

COMPOSITION:

- Heater
- Remote control
- Instruction manual
