

BASIC CROCHET STITCH DIAGRAM

1. Stitch (Abbreviated 'st')

Instructions of crocheting chain, single, double, half double, and triple crochets are given in the diagram. The chain is made by pulling the yarn through the loop. The single crochets are made by pulling the yarn through the loop and then through the hook. The double crochets are made by pulling the yarn through the loop and then through the hook twice. The half double crochets are made by pulling the yarn through the loop and then through the hook once and then through the loop. The triple crochets are made by pulling the yarn through the loop and then through the hook three times.

2. Chain Stitch (Abbreviated 'ch')

The chain stitch is the basis for all crocheting. It is made by pulling the yarn through the loop and then through the hook.

3. Slip Stitch (Abbreviated 'sl st')

The slip stitch is the simplest of all crocheting stitches. It is made by pulling the yarn through the loop and then through the hook.

4. Single Crochet (Abbreviated 'sc')

The single crochet is the most basic of all crocheting stitches. It is made by pulling the yarn through the loop and then through the hook.

5. Increase (Abbreviated 'inc')

The increase stitch is made by pulling the yarn through the loop and then through the hook twice.

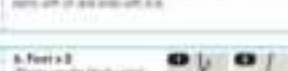

6. Decrease (Abbreviated 'dec')

The decrease stitch is made by pulling the yarn through the loop and then through the hook once and then through the loop.

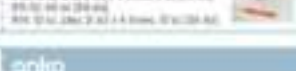

7. Magic Ring

The magic ring is a special stitch used to start a crocheting project. It is made by pulling the yarn through the loop and then through the hook.

8. Sewing

The sewing stitch is used to join two pieces of fabric. It is made by pulling the yarn through the loop and then through the hook.

9. Body

The body of the cow is made by pulling the yarn through the loop and then through the hook.

10. Head

The head of the cow is made by pulling the yarn through the loop and then through the hook.

11. Feet

The feet of the cow are made by pulling the yarn through the loop and then through the hook.

12. Eyes

The eyes of the cow are made by pulling the yarn through the loop and then through the hook.

13. Sewing

The sewing stitch is used to join two pieces of fabric. It is made by pulling the yarn through the loop and then through the hook.

14. Body

The body of the cow is made by pulling the yarn through the loop and then through the hook.

15. Head

The head of the cow is made by pulling the yarn through the loop and then through the hook.

16. Feet

The feet of the cow are made by pulling the yarn through the loop and then through the hook.

17. Eyes

The eyes of the cow are made by pulling the yarn through the loop and then through the hook.

18. Sewing

The sewing stitch is used to join two pieces of fabric. It is made by pulling the yarn through the loop and then through the hook.

19. Body

The body of the cow is made by pulling the yarn through the loop and then through the hook.

20. Head

The head of the cow is made by pulling the yarn through the loop and then through the hook.

21. Feet

The feet of the cow are made by pulling the yarn through the loop and then through the hook.

22. Eyes

The eyes of the cow are made by pulling the yarn through the loop and then through the hook.

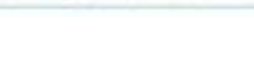

23. Sewing

The sewing stitch is used to join two pieces of fabric. It is made by pulling the yarn through the loop and then through the hook.

24. Body

The body of the cow is made by pulling the yarn through the loop and then through the hook.

25. Head

The head of the cow is made by pulling the yarn through the loop and then through the hook.

26. Feet

The feet of the cow are made by pulling the yarn through the loop and then through the hook.

27. Eyes

The eyes of the cow are made by pulling the yarn through the loop and then through the hook.

28. Sewing

The sewing stitch is used to join two pieces of fabric. It is made by pulling the yarn through the loop and then through the hook.
