

Groundline Garden Edging

PRODUCT OVERVIEW

What is Groundline?

Groundline is a hassle-free, flush garden edge designed for ease and simplicity creating a seamless perimeter.

Material: 2mm High-grade steel, durable and weather resistant.

Design: Groundline is designed for simplicity and ease of installation. With seamless connection joints and a simple, sturdy support system, Groundline edging forms an exceptional perimeter in minutes.

Application: Perfect for flush or low edging, Groundline is best suited where the swift installation of a quality and beautiful perimeter edge is required.

Installation: Groundline is simple and swift to install. Securing the supports in the ground before installing the edging makes this system hassle-free and simple.

This flexible steel lawn edging offers a simple solution for keeping clean edges around lawns, paths, driveways, and garden beds. Its flexibility allows it to bend and curve to fit any shape, and it works in various soil conditions. Once installed, it's durable, weather-resistant, and maintenance-free.

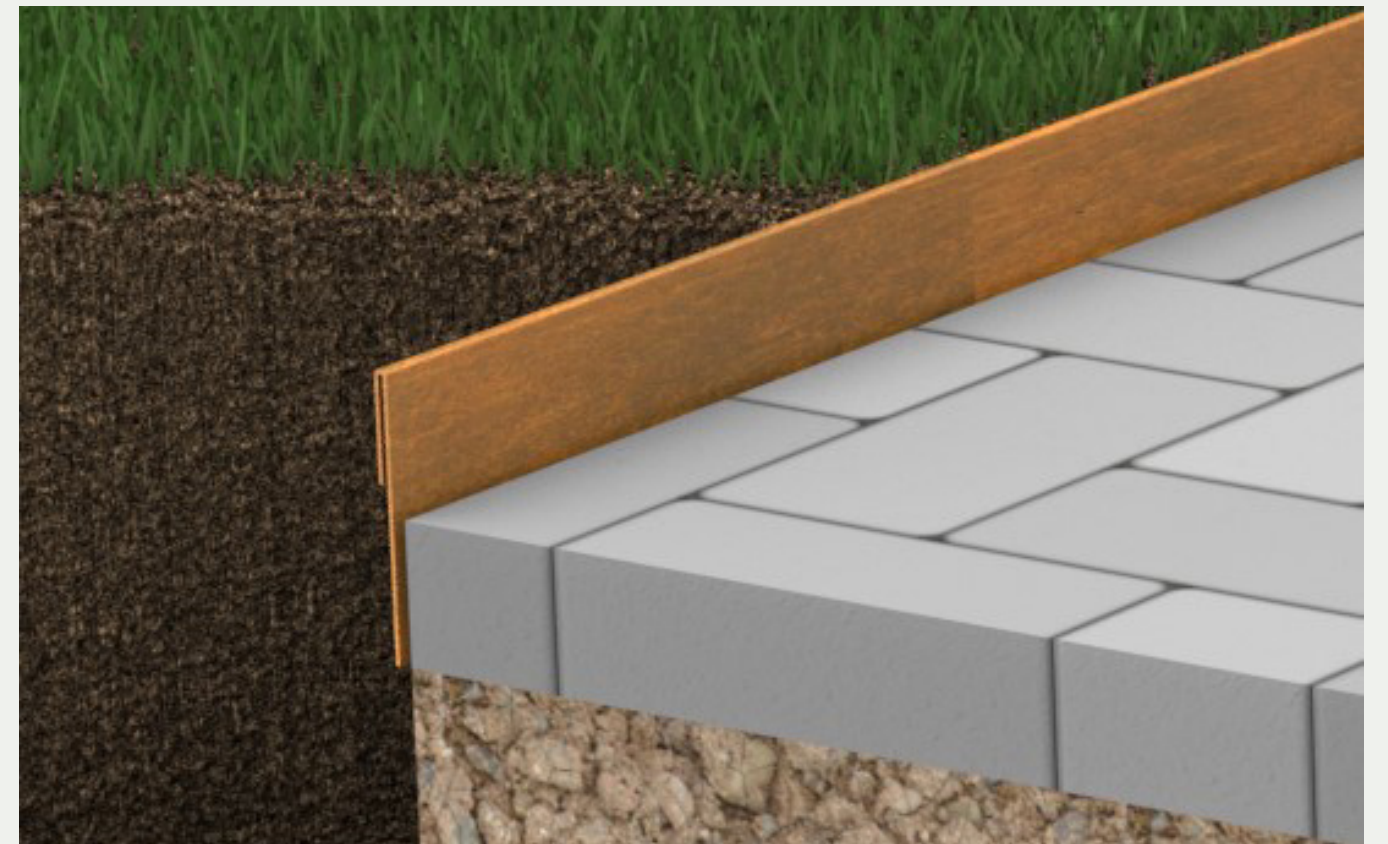

Heights

Groundline is available in heights from 50mm up to 150mm high.

The Groundline Difference

Groundline Garden Edging is perfect for creating defined, attractive edges in your garden, providing both functional and aesthetic benefits. With its high-quality materials and flexible design options, it's an excellent choice for enhancing the look and organization of your outdoor space.

Groundline can be curved onsite giving you design flexibility and allowing you to create stunning, flowing perimeters. The rolled top gives it structural certainty whilst being able to be curved onsite. The wide rolled top edge gives the impression of 8mm thick steel.

Finishes

Groundline is available in three finishes designed to enhance any garden design, bringing a sense of luxury and prestige.

Powder Coated

The powder coated finish offers a durable and long-lasting protective layer. With a wide range of colour options you can customize the aesthetic.

Weatering Steel / Corten

Corten boasts a beautiful, rust patina over time that blends seamlessly with many landscape styles.

Stainless Steel

Stainless Steel boasts exceptional durability and resistance to corrosion, ensuring long-lasting performance in outdoor environments.
