The Hyper H412R, a new member of the longstanding Hyper Series, is an affordable, compact, and high performance air cooler. Its compact heatsink is a great match for small form factor systems. With 4 heat pipes and Direct Contact technology, it delivers great cooling performance that outperforms its predecessor Hyper 103 in heat dissipation. The special fin design optimizes air flow toward heat pipes. Its 92mm PWM fan features a wide fan speed range and can be fine tuned for maximum airflow and cooling performance or silent operation.

HYPER H412R

Direct Contact Technology
