Fn + 🔆

How to use voice search on Google search box:

1.Open your Google Brower,find the "Search by Voice" function.
2.When seeing words"Speak now" means you can hold the "voice" key to speak words,when finished, just release the key,
3.Then Google will recognize what you said and show you the search results.

Note: Not all the devices could use Microphone. It will require the APP support voice input, like Google app

IR Learning Instructions

The M9 supports up to six learning keys, and can be programmed to learn some basic functions of the TV remote control, including: POWER, TV, and four color buttons on the keyboard
The specific learning methods are as follows:
Step 1: Long press the corresponding learning button until the indicator light is always on, for example, long press the POWER key for 5 seconds, the indicator light changes from flash to flash state, indicating the learning state.
Step 2: Release the learning button, the indicator light changes from constant to slow flash, then the key is a learning state.
Step 3: take the TV remote control at the M9 infrared transmitter position, make sure the distance between them is less than 0.1 feet, press the TV remote control button to learn, if the M9 indicator flash 5 times indicates successful success, if there is no flash, delay 1 second, repeatedly press the TV remote control button until the M9 indicator flash 5 times.
Step 4: Repeat the above 1 to 3 to learn the other keys.
Step 5: press and hold the [Fn]+[power] key for seconds and the orange LED flashes for 5 time to clear the learning code value and restore the factory setting.
