Introduction

The Green Lion TOLEDO Power Bank is a versatile, high-performance portable charger designed for charging a wide range of devices. With a 10,000mAh battery capacity, it offers multiple charging options to meet the demands of modern devices. Its sleek ABS material casing ensures durability, while its compact size makes it easy to carry for on-the-go charging.

Equipped with various input and output options, including USB-C and USB-A ports, the power bank supports fast charging with up to 22.5W for both input and output, making it compatible with a wide range of smartphones, tablets, and other USB-powered devices. Whether you're charging your device or the power bank itself, the TOLEDO guarantees efficient and reliable performance.

The power bank is also lightweight at just 180g, with dimensions of 108*71*16.2mm, making it an ideal companion for both daily use and travel.

Specifications

Charging the Power Bank

1. Use the type-C charging cable to charge the power bank.
2. It is recommended to connect the power adapter to charge the power bank.
3. It can be connected to the USB port of a computer to charge the power bank.
4. During charging, the white indicator light of the power bank flashes continuously.
5. When fully charged, the indicator light of the power bank stays on and is white.

Charging for Mobile Phone

Power bank is used to charge digital products like mobile phones. Connecting the power bank and mobile phone with the power cable, the mobile phone is charged by the power bank automatically.

Charging Time

1. If the power bank cannot be charged or the iWatch or mobile phone cannot be charged by the power bank, please check if the connection cable is normal and firm, and the charging port accessory is suitable. It is recommended to use a regular brand power adapter to charge the power bank.
2. There is a conversion rate of power bank, so the capacity of power bank is not equal to the rechargeable capacity.
3. If the power bank cannot be turned on for short circuit protection due to improper operation, please charge the power bank to activate it.

Safety Information

1. Failure to follow these safety instructions may result in fire, electric shock, damage, or other injury.
2. Please try to keep the storage temperature of the product between 10-35°C.
3. Do not fall, do not disassemble or puncture, repair the power bank by yourself.
4. Do not expose the power bank in fire, high temperature, or water.
5. Stop using the power bank if you find any abnormal phenomena such as expansion or expansion of the charged device.
6. This device is not suitable for using by persons with immature physical, perceptual, and mental abilities (including children), nor by persons lacking relevant experience and knowledge, unless supervised and controlled by someone professionally responsible for their personal safety.
7. Do not leave the product in the car for a long time, especially when parked in the sun.
8. Do not put foreign bodies into the product interface.
9. Please charge your power bank at least every three months.

Package List

1. Power bank *1
2. User manual *1

Disposal

Do not dispose of discarded electrical appliances as unclassified urban waste. They should be handed over to an officially designated recycling center, which is beneficial for environmental protection.

Warranty

Products that you buy directly from our **Green Lion** website or shop come with a 24-month warranty.

When you buy **Green Lion** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at <https://www.greenlion.net/warranty> and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.
