

Use and Care Manual

Use & Care Manual:

Cleaning: Wipe glass tabletop with a damp cloth and mild soap; avoid abrasive cleaners. Clean PE rattan with a soft brush or damp cloth. Spot clean cushions with mild detergent and air dry.

Maintenance: Periodically check and tighten frame bolts/screws, especially early in use and after moving. Avoid overtightening initially.

Protection: While highly weather-resistant, using furniture covers during harsh winter months or extended periods of non-use prolongs life and appearance. Store cushions indoors when not in use for long periods.

Avoid: Harsh chemicals, bleach, or pressure washers on any part. Minimize prolonged direct sun exposure on cushions to prevent fading (use covers when possible).

Installation: Lay cardboard down during assembly to prevent scratches. Avoid parts rubbing together during setup. Follow instructions step-by-step; don't fully tighten all screws until the end.

Surface: Place on level ground for optimal stability.
