Better. Guaranteed.

At OXO, we believe there is a better way.

We look at everyday objects and activities and we see ways to make things simpler, easier, more thoughtfully designed...better.

We notice things. We notice pain points and pains-in-the-neck. We notice problems people don't realize are problems until we solve them. We see opportunities to improve a product or a process, or a part of everyday life, and we make things that make things better.

We see the big picture and the small details, and we think through it all: for peelers and graters and all kinds of cooks, for coffee makers and coffee drinkers, for dusters and compulsive cleaners, for baby strollers and families who stroll. We consider how a tool functions—how it fits into hands, how it fits into lives—and we design a better way.

We create a better way for all: With OXO tools, people who love tasks love them more; people who hate tasks hate them less.

We see a better way, and we make it happen: Better quality, better performance, better experience, better day.

We're always searching, we're always solving, we're always making tools that make everyday better. And if we can't make it better, we won't make it.

Because we keep our promises, by creating, delivering, delighting—every day.

Glass Pour-Over Set

We believe crafting pour-over coffee should be a ritual you savor. That's why the OXO Good Grips Pour-Over Set combines hand-blown borosilicate glass, elegant stainless steel, and all-natural cork to help keep the process of making hand-crafted coffee pure and simple.

The Server is double-walled to insulate heat and prevent condensation, ensuring your homemade brew, hot or cold, stays at the right temperature until you're ready for your second cup.

Basket Coffee Filters

- 50, all-natural, unbleached, chlorine- and adhesive-free
- Flat filter bed promotes even, consistent extraction
- Wavy ridges encourage proper air and coffee flow

ABSORBS ETHYLENE GAS

Enhanced carbon filter purifies air by absorbing ethylene gas, slowing down the aging process and keeping produce fresh longer.

PROMOTES AIRFLOW

The elevated colander keeps produce away from the walls to promote 360° air circulation and prevent rotting.

CONTROLS HUMIDITY

The sliding vent allows you to regulate humidity levels for fresh and crisp produce.
