

Buster - Boats that are built to last

Our design has always been guided by uncompromising goals regarding ruggedness, everyday practicality and seaworthiness. These values, combined with generations of industrial, hand crafted traditions have created a quality level that already carries a legacy of its own: Buster.

Of over 125.000 boats that we have launched over the past 6 decades, the majority is still in use. The exceptional durability and longevity of a Buster is beneficial to owner and environment alike.

AHT – Aluminium Hull Technology by Buster is living proof of the experience and relentless work spanning 60 years that we have committed to in order to make our boats ever better.

- Durable aluminium floor as standard
- Aft U-sofa adds to comfort

Buster - Boats that are built to last

The black and red V MAX design on the cowling has been updated into an even more aggressive look, making sure it turns heads and attracts the well-earned attention. The iconic V MAX-color theme continues on the hull, creating a unified and sporty overall look.

Buster XXL V MAX Edition standard accessories include a large, sleek Buster Q 16" touch screen with the Entertainment-package, Comfort and Canvas packages to make those sporty boat trips extra comfortable, as well as a water skiing bracket and the V MAX-themed color panel. It is possible to get the hull painted, too.

The V MAX SHO (Super High Output) engines are in a class of their own and full of advanced technology. The maximum torque along with superb acceleration and power is achieved by light weight and compact design, providing awesome high-speed performance.
