

ATUVOS TAG

Disassembly & Replacement of Battery Instruction

- ① Use your fingernails or insert a smaller tool into the small gap at this position.
(Note: The panel with logo is facing down.)

- ② Slide left along the gap to the edge.

- ③ Then slide the other side along the gap to the edge.

- ④ Pull up and open the battery cover in the back of the ATUVOS TAG.

- ⑤ Use a paperclip to remove battery and then replace a new one, placing the battery positive side up.

- ⑥ Close the battery cover by aligning the top hole on both lids.
