

# Manual

Important tips: When pairing a device with Find My® app, the phone will link to the Apple® Server . Pairing may fail because of network problems. The following actions are recommended: Change the phone's network, such as switching between WiFi and mobile network.

### 01. Turn on the device

Press and hold the button for 3 seconds, and the device will beep and turn on. Double press the button, A chime will sound.  
Note: To turn off, double-click the device first, then quickly press the button 5 times within 2 seconds, a long beep will sound.

### 02. Pair the device

Open the Find My app  
Make sure the Bluetooth is enabled.

Tap Items --> Add Other item --> Other Supported Item  
--> Name the Item --> Choose an Emoji --> Play and stop sound

### 03. Locate Your QCC Tag

#### 03.1 Find QCC Tag When It's Nearby:

Open Find My app and select the "Items" tab or open the Find Items app on your Apple Watch. Tap on your QCC Tag from the list.  
Tap "Play Sound" to make your QCC Tag beep.  
Tap "Stop Sound" to stop the beeps once you find.

#### 03.2 Find QCC Tag's Location:

Open Find My app and select the "Items" tab or open the Find Items app on your Apple Watch. Tap on your QCC Tag from the list.  
Your QCC Tag's location will appear on the Map with a time stamp of when the item was located. To navigate to the QCC Tag's location, tap "Directions" to open Apple Maps.

### 04. Notifications

#### 04.1 Enabling "Notify When Left Behind":

Open Find My app and select the "Items" tab or open the Find Items app on your Apple Watch. Tap on your QCC Tag from the list.  
Under "Notifications" enable the "Notify When Left Behind" toggle. You will receive a notification when you leave your QCC Tag behind and it's no longer in range of your device.

#### 04.2 Enabling "Notify When Found":

Under "Notifications", enable the "Notify When Found" toggle. When your QCC Tag is seen by another Find My network device, you will receive a notification of its location.  
Note: "Notify When Found" can only be activated when your QCC Tag is out of range.

### 05. When Your QCC Tag Is Lost

#### 05.1 Enabling "Lost Mode":

Open Find My app and select the "Items" tab or open the Find Items app on your Apple Watch. Tap on your QCC Tag from the list.  
Under "Lost Mode" tap "Enable" A screen detailing Lost Mode will pop up, tap "Continue" Enter your phone number or email address and tap "Next".  
You may enter a message that will be shared with the person that finds your item. Tap "Activate" to enable "Lost Mode"  
Note: When "Lost Mode" is enabled, "Notify When Found" is automatically enabled.  
Note: When "Lost Mode" is enabled, your QCC Tag is locked and cannot be paired to a new device.

### 06. Resetting QCC Tag

#### 06.1 Remove The QCC Tag From Find My App:

Open Find My app and select the "Items" tab.  
Tap on your QCC Tag from the list.  
please ensure "Lost Mode" is disabled.  
Scroll to the bottom of the screen and tap "Remove Item".  
A summary will open, tap "Remove" to confirm.

#### 06.2 Connect Your QCC Tag

After successfully removing the QCC Tag from Find My app, Quickly press the button twice. A chime will sound. then, Press and hold the button for about 5 seconds after the second confirmation chime sound, Press and Hold again for another 3 seconds until you hear a prompt sound to reset the device.

The QCC Tag is now reset and ready to be paired to a new Apple ID.

### 07. Extras

#### 07.1 Replace The Battery:

Carefully open the shell along the gap in the middle of the QCC Tag  
Replace the battery with a new CR2032 battery, with the positive side facing up (with the text side facing up).

Carefully close the QCC Tag by aligning the top holes on both sides

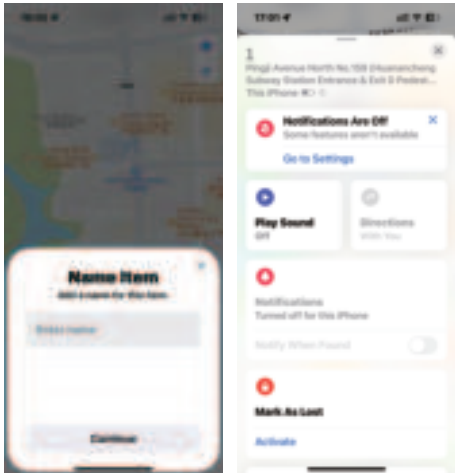

#### 07.2 Unwanted tracking:

If any Find My network accessory separated from its owner is seen moving with you over time, you'll be notified in one of two ways:

1. If you have an iPhone, iPad®, Find My will send a notification to your Apple device. This feature is available on iOS or iPad OS 14.5 or later.
2. If you don't have an ios device or a smartphone, a Find My network accessory that is n't with its owner for a period of time will emit a sound when it's moved.

These features were created specifically to discourage people from trying to track you without your knowledge.

### 08. About Apple Find My
