

MT20W

Credential Enrollment Reader with ENGAGE™ Technology

Overview

The Schlage® MT20W multi-technology enrollment reader is designed to simplify the enrollment of smart and multi-technology credentials in "No-Tour" multifamily applications. Site administrators use the MT20W to program encrypted credentials, such as a keyfob, over USB connection to PC. When presented at a lock by the resident or user, the pre-programmed credentials automatically update the lock database. This eliminates the need for the property staff to have to visit each lock to deliver updates.

The MT20W is compatible with Schlage smart credentials (MIFARE Classic®, and MIFARE® DESFire®) and supports no-tour access control when used with supported locks.

Features & Benefits

- Use your computer and the ENGAGE web app to easily enroll credentials
- Recognizes Schlage smart and multitechnology credentials (MIFARE Classic and MIFARE DESFire)
- Simplifies credential enrollment
- Communicates to server through your computers USB port
- Limited Lifetime Warranty
