Safety Precautions

Please read the following information carefully before using this product.

■ Accidents may be caused by fire and explosion.
- Do not cause shock or damage to the product.
- Be careful that conductive materials (metal, liquid, etc.) get contacted on charger connector or connection terminal.
- Do not touch the product with wet hands or use it in a humid environment (toilet, swimming pool, water-shore, etc.).

■ The product may be damaged or the human body may be injured.
- Be careful that infants and pets suck or bite the product.
- Proper usage and storage temperature of our product is 10 - 35 degrees (Celsius) and the use under other temperature range may damage the product or shorten the battery life.
- Do not use the product in the following environment.
  (Microwave oven, fireplace, sauna, electric pad, inside the vehicle in the summer, etc.)
- Place the product in a dry place free from moisture or humidity.
- Do not use the product outdoors when thunder or lightning strike.
- While driving, comply with the relevant laws or road safety regulations regarding the use of the product.

■ Using the product may cause damage to peripheral devices and equipment.
- Do not use the product near vehicles, aircraft, hospital or medical device which may be affected by Bluetooth communication frequency.
  Electromagnetic waves from the product may affect medical devices or electronic navigation equipment.
- Do not use the product within 15 cm from the pacemaker because electromagnetic waves from the product may affect the pacemaker when connecting to other devices using the Bluetooth function. Be sure to keep 15cm distance from the pacemaker if a product must be used.

■ Cleaning and Maintenance Precautions
- Do not use strong chemicals or detergents to clean the product.
  (The outside of the product may be discolored or corroded.)
- Gently clean the product with a soft cloth and be careful not to scratch it.
- If a user modifies, dissembles, or repairs the product arbitrarily, the warranty will be void.

- If the product is damaged, do not use the product in a damaged condition.
  (Be sure to use the product after consulting with Hitron's Customer Service Center, for it may cause hand or face injury.)
- Do not discard the product in a fire or place the product near heat source (fireplace, microwave, etc.), heating cooker, and high-pressure vessel.
- Do not puncture the product (it may stop functioning or damage the human body).

In case of failure to comply with above precautions, the warranty service shall not be applied.
