Elbow
Installation Instructions

SAFETY INSTRUCTIONS AND WARNINGS

- When using electrical equipment, basic safety precautions should always be observed
- This product must be installed in accordance with the applicable installation code by a person familiar with the construction and operation of the product and the hazards involved
- Installation should only be conducted by a qualified electrician in accordance with NEC and any relevant local building codes.
- Be certain electrical power is OFF before and during installation and maintenance.
- To prevent wiring damage or abrasion, do not expose wiring to edges of sheet metal or sharp objects.

WIRING INSTRUCTIONS

Installing the elbow onto flood lights, 2-in-1 traditional or full cutoff and slim wall packs is quick and simple.

1. Before installation, **always turn off the power supply from main circuit breaker first!**
2. Unscrew and remove the sensor port plug.
3. Plug elbow into port on corresponding fixture and gently screw in to socket.
4. Install compatible sensors:

- SC005
- SC006
- SC008
- SC011

Refer to sensor installation instructions for further details.

5. Restore power.

**2-In-1 Traditional
or Full Cutoff
Wall Packs**
