*Installation Instructions*

### WHAT COMES IN THE BOX

Elbow
Installation Instructions

### SAFETY INSTRUCTIONS AND WARNINGS

• When using electrical equipment, basic safety precautions should always be observed
• This product must be installed in accordance with the applicable installation code by a person familiar with the construction and operation of the product and the hazards involved
• Installation should only be conducted by a qualified electrician in accordance with NEC and any relevant local building codes.
• Be certain electrical power is OFF before and during installation and maintenance.
• To prevent wiring damage or abrasion, do not expose wiring to edges of sheet metal or sharp objects.
## WIRING INSTRUCTIONS

Installing the elbow onto flood lights, 2-in-1 tradtional or full cutoff and slim wall packs is quick and simple.

1. Before installation, *always turn off the power supply form main circuit breaker first!*
2. Unscrew and remove the sensor port plug.
3. Plug elbow into port on corresponding fixture and gently screw in to socket.
4. Install compatible sensors:
   - SC005
   - SC006
   - SC008
   - SC011
   Refer to sensor installation instructions for further details.
5. Restore power.
