SAFETY INFORMATION

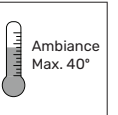

Do not touch the LED surface

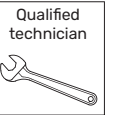

Do not stare into the LED

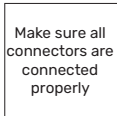

Ambiance  
Max. 40°

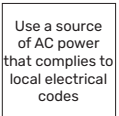

Qualified technician

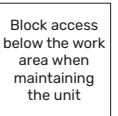

Disconnect the power supply before installing or maintaining

Make sure all connectors are connected properly

Use a source of AC power that complies with local electrical codes

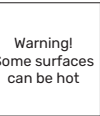

Block access below the work area when maintaining the unit

Don't modify or install genuine parts on this product

Don't install in a flammable or explosive area

Warning!  
Some surfaces can be hot

## Tools

## SPECIFICATIONS

LED:	High Power LED
Available colours:	CRI>80: 2500K & 2700K CRI>92: 2700K, 3000K, 3500K or 4000K
Colour Changing:	RGBA, RGBW (W: 3000K) or RGBW (W: 4000K)
Tunable White:	1800K-4000K or 2700K-6500K
Dim To Warm:	1800K-3000K
Lenses:	19°, 37° or 63°
Power supply:	200 ~ 240 VAC
Power consumption:	6 serie: Max. 30 Watt
Housing:	Anodised aluminium black or white coated
Weight:	1300 gr
IP value:	IP20
Cable length:	200, 400, 600 or 800 centimeters
Measurements:	232 x 100 mm (h x ø)
Ambient temperature:	-10° C till +40° C

## ACCESSORIES

Y106017	CLS Magnet for programming, 5 pcs
122200	CLS D-ta DMX addresser

# INSTALLATION DMX VERSION

# PROGRAMMING DMX

All settings can be configured via DMX. Settings can be configured at once or separately. When one or a couple settings needs to be changed just leave all other setting values zero. This keeps those settings unchanged. Please check the table for more information.

Always use a DMX controller with digital interface. If not available, you can purchase the CLS D-ta DMX addresser unit (#122200).

First make sure to set the DATA on the DMX controller. To program the setting into the LED fixture follow the next steps.

\* If all LEDs flash **10 times**, something went wrong. Please try again. If the problem continues to occur, please contact your local sales distributor.

## WIRELESS DMX

See the Manual of Wireless Solutions. The Manual can be found on our CLS website, in the Downloads section. Or use the link below  
<https://www.cls-led.com/wp-content/uploads/cls-files/W-DMX-manual.pdf>

### Unlink procedure

When the fixture does not receive a DMX signal (DMX controller off), place the magnet on the bottom of the fixture for 5 seconds. Slow flash indicates that the fixture is unlinked.

## BLUETOOTH BY CASAMBI

For Casambi controlled fixtures, see the manual of Casambi. The Manual can be found on our CLS website, in the Downloads section. Or use the link below:  
[https://www.cls-led.com/wp-content/uploads/cls-products/CLS\\_CASAMBI/MANUAL/Manual\\_Casambi\\_controlsistem\\_EN.pdf](https://www.cls-led.com/wp-content/uploads/cls-products/CLS_CASAMBI/MANUAL/Manual_Casambi_controlsistem_EN.pdf)

# PROGRAMMING TABLE

# REFLECTOR REPLACEMENT

PROGRAMMING TABLE				
DMX	Function	Data	Parameters	Description
CH1	Set address 001 to 255	0	0 = no change *	Use this DMX channel to set address from 001 to 255. The configured DMX address is called "n".
		1-255	DMX address = 1-255	
CH2	Set address 256 to 508	0	no change	Use this DMX channel to set address from 256 to 508. The configured DMX address is called "n".
		1-255	DMX address = 256-508	
CH3	Static behavior	0	no change	If no DMX is present the fixture will respond like set in this function.
		1	last DMX value *	
		2	output off	
		3	load static values	
CH4	Soft dim	0	no change	When dynamic softdim is activated an extra DMX channel behind the colours and/or Master controls the soft dim reaction. If fixed no extra DMX channel is used.
		1	off *	
		2	dynamic	
		3-250	Feed interpolation delay	
CH5	Master control	0	no change	If master is first channel is selected the channel will be DMX channel "n". If master is last channel is selected the channel will be "n+1" ("n" is calculated in the output patch).
		1	no master used *	
		2	master is first channel	
		3	master is last channel	
CH6	Output 1 patch	0	no change	Each output channel can be patched to respond to the desired DMX channel. This enables the user to mix up the colours according to the controller that is used.
		1	DMX channel n	
		2	DMX channel n+1	
		3	DMX channel n+2	
		4	DMX channel n+3	
CH7 *	Output 2 patch	0	no change	<b>Example: all outputs are patched as 1</b> All outputs will be controlled by DMX channel "n". If master is used total DMX channels will be 2 otherwise it uses 1 channel ("n" = 1).
		1	DMX channel n	
		2	DMX channel n+1	
		3	DMX channel n+2	
		4	DMX channel n+3	
CH8 *	Output 3 patch	0	no change	<b>Example: output 1&amp;2 are patched as 1 and 3&amp;4 are patched as 2</b> Output 1&2 will be controlled by DMX channel "n". Output 3&4 will be controlled by DMX channel "n+1". If master is used total DMX channels will be 3 otherwise it uses 2 channels ("n" = 2).
		1	DMX channel n	
		2	DMX channel n+1	
		3	DMX channel n+2	
		4	DMX channel n+3	
CH9 *	Output 4 patch	0	no change	
		1	DMX channel n	
		2	DMX channel n+1	
		3	DMX channel n+2	
		4	DMX channel n+3	
CH10	Static output 1	0	no change	Each output channel can be set to a static intensity.
		1	output off	
		2-255	intensity 2-255 * (255)	
CH11 *	Static output 2	0	no change	If no DMX is present and Static behavior is set to "load static values". The outputs will be set to the configured intensity values.
		1	output off	
		2-255	intensity 2-255 * (255)	
CH12 *	Static output 3	0	no change	
		1	output off	
		2-255	intensity 2-255 * (255)	
CH13 *	Static output 4	0	no change	
		1	output off	
		2-255	intensity 2-255 * (255)	
CH14 *	Load default settings	0	no change	This function resets all settings to the factory setting.
		1	load factory settings	
CH15	Input resolution setting	0	no change	In 16 bit mode 2 channels are used per colour. First channel is rough channel, second channel fine. 16 bit mode is only available in DMX mode 2.
		1	8 bit *	
		2	16 bit	
CH16	Drive mode setting	0	no change	You can set the frequency of the PWM for best compatibility with camera systems. However, the highest resolution of the dimming curve will be at the lowest frequency. Option 1 can be used to be compatible with older installation and new fixtures.
		1	compatible with version < 2020	
		2	PWM frequency 0.7kHz *	
		3	PWM frequency 1.4kHz	
		4	PWM frequency 2.8kHz	

\* Default setting

CHXX\* Not applicable on the Ruby DMX single colour

# HONEYCOMB ASSEMBLY

Make sure the honeycomb is placed between the diffuser & fronting

# LIST OF SYMBOLS

**Protection class**  
One, two or three

**Application area**  
Indoor or outdoor

**Application area**  
Floor, wall or ceiling

**Swivel**  
Fixture is horizontally rotatable, indicated in degrees

**Swivel**  
Fixture is vertically rotatable, indicated in degrees

**Multiple connection**  
Daisychain connectivity

**Installation depth**  
In centimeters

**Installation size**  
In centimeters

**Cable length**  
Maximum cable attached to the fixture in centimeters

**Driver**  
Inclusive or exclusive internal or external

**Weight**  
In grams/kilograms

**Pressure**  
Maximum pressure on the fixture in kg/cm²

**Lifespan**  
Of the light source in hours

**Lenses**  
Available lenses, indicated in degrees

**Performance Zoom**  
Adjustable beam angle

**LEDs**  
Kind of LED used in the fixture

**Plug & play**  
Easy connection using the SmartConnect system

**IP value**  
Ingress Protection classifies the degrees of protection provided against the intrusion of the product

**Colour changing**  
RGB, RGB-W, RGB-A, AWB or Tunable White

**Retail & Food LED modules**  
Clothing, furniture, kitchens, jewellery, shoes, bread, meat, fish and vegetables & fruit.

**Colour**  
Available colours:  
Amber, blue, red or green

**White colour temperature**  
In different Kelvin values:  
Cold white, neutral white, warm white or extra warm white

**Curve**  
Minimal bending curve in centimeters

**Cutting length**  
Indicated by the cutting marks

**LED pitch**  
Pitch between the LEDs in millimeters

**Power supply**  
In VDC, VAC or milliAmpere

**Power consumption**  
In VA or Watt

**Dimmable**  
1-10 Volt, Phase, individual, DMX dimmable or DALI

**PWM dimming**  
Traditional PWM dimming, DMX analog or DMX Hybrid dim

**Bluetooth controlled**  
By Casambi

**Magnet dimming**  
Accurate dimming from 100 - 1% by using a magnet

**Dynamic Control**  
Dynamic Power Control or Dynamic Temperature Control

**DMX input**  
Fixture works on DMX512 protocol or Wireless DMX

**Combined product**  
Compose your own fixture

**Warranty**  
3 or 5 years warranty on the product

**Conformité Européenne**  
CE marking for free marketability of industrial goods within the EU

**Energy label**

**Lightsource**  
Equipped with a CLS, Bridgelux or a Xicato LED module
