The Reade Dining Table

Step 1

Lay the tabletop flat on a protected surface with the underside facing up.

Step 2

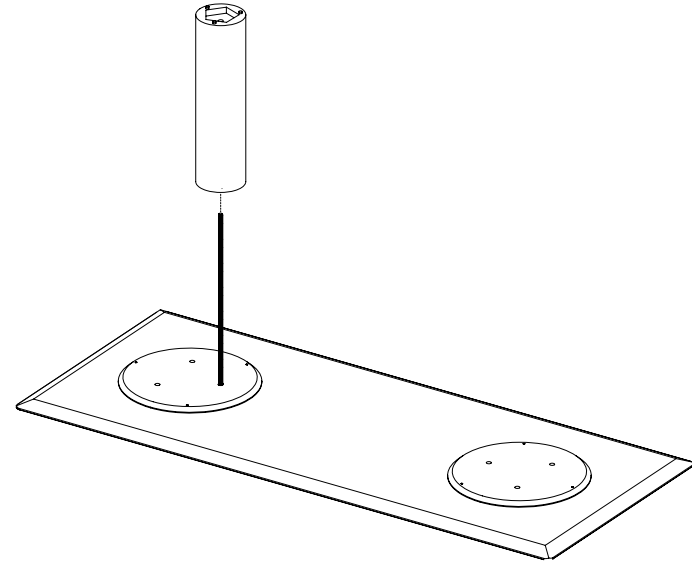

Screw a threaded rod into one of the inserts on the tabletop, being careful not to overtighten.

Step 3

Using the pre-drilled holes, slide one column leg over the threaded rod.

Step 4

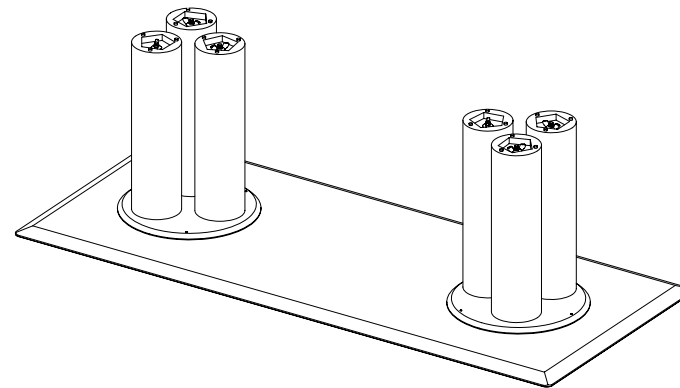

Secure the column leg to the tabletop by screwing a wing nut and washer onto the exposed portion of the threaded rod, being careful not to overtighten.

Step 5

Repeat steps for all of the column legs.

Step 6

With the help of another person, carefully flip the table over. Adjust the glides under the legs to ensure the table sits level on the floor.
