FCC warning:

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-Reorient or relocate the receiving antenna.
-Increase the separation between the equipment and receiver.
-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-Consult the dealer or an experienced radio/TV technician for help.
The device has been evaluated to meet general RF exposure requirements. The device can be used in portable exposure condition without restriction.
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) The device may not cause harmful interference, and
(2) The device must accept any interference received, including interference that may cause undesired operation.

How to Maintain?

- Do NOT:
- Wash the WaterH Smart Bottle in a dishwasher (Bottle lid is dishwasher safe).
 - Submerge the WaterH Smart Bottle under water for over 30 minutes.
 - Unassemble the bottle.
 - Use the bottle with liquid over 140°F (60°C).
 - Clean bottle with strong acid or alkali such as cleaning powder, bleach, chemical or solvent.
- WaterH warranty excludes damages caused by negligence, accident, abuse, alteration or modification.

Warnings & Cautions

The WaterH Smart Bottle may cause injury if improperly used. Prior to using the product, please read and understand all warnings and precautions. Please do not use the WaterH Smart Bottle in any manner other than that specified on the product packaging or in the user manual.

IMPORTANT:

This product is not suitable or intended for use by children. This product contains small parts and may otherwise be hazardous to small children, especially children under 3 years old. Keep product and any dangerous equipment, including those using batteries, out of the reach of small children.

Conquer Hydration

Auto Accurate Tracking

No need for glasses or log manual entries. The sensor inside WaterH automatically tracks your exact level of hydration.

360° LED Hydration Reminder

Subtle reminder so you stay hydrated all day. Customize reminder preference and frequency in the WaterH app.

Smart Scan Safety Sensor

WaterH is equipped with a water quality sensor that measures the TDS (Total Dissolved Solids) in your drinking water.

Wireless Charging

No more fuss with charging cables. Experience WaterH convenience by charging your smart bottle on any wireless charging station. Each full charge lasts up to 15 days* of an interrupted use.

* Days may vary depending on your drinking habits.

1. Getting Started

In Your Package

Step 1 - Connect

Take the wireless charging station and connect it to the TYPE C charging cable. Then plug the TYPE C into any TYPE C wall charger.

Step 2 - Charging

Place the WaterH Smart Bottle on the wireless charging station until fully charged.

2. The Mobile APP

Hydration Intake is precisely tracked for you in the app

- No need to manually log water consumption or make your own calculations.
- No more kicking yourself for forgetting to log an entry and lose track.
- No more guessing whether you've had enough water.

For a full WaterH experience, scan the QR code and download the WaterH app via the App Store or Google Play Store.

Step 1 - Create Account

In the WaterH app, register for an account.

Step 2 - Bring Your Phone Near Your WaterH Bottle

Click "Search" in the WaterH app.

Step 3 - Pair Device

Click "Connect" in the WaterH app to begin pairing. WaterH bottle will display a solid blue LED light.

Step 4 - Complete Setup

Tap using your finger, the circle on top of the WaterH lid. Confirm successful pairing by checking your WaterH app for a display message "Connect Successful".

3. Enjoy & Grow

You're officially all set!
