BECOME A TRUCK LEGEND – THEN PERSONALIZE, CUSTOMIZE AND ACCESSORIZE ONLINE.

Only the most loyal Chevy Truck owners can join Chevy Truck Legends. As members of this exclusive group specially recognized by Chevrolet, they represent the generations that have kept Chevy trucks going strong for over a century.

To honor the many miles, moments and memories under their belts, Chevrolet Accessories offers Truck Legends the privilege of 20% below MSRP¹ online on the only accessories designed, engineered, tested and backed by Chevrolet, or selected from our lineup of Associated Accessories.² Enroll at ChevyTruckLegends.com and then get busy personalizing, customizing and accessorizing online at Chevrolet.com/accessories.

On the Cover: ZR2 Bison model shown. Preproduction model. Production model may vary. Available early 2019. The Chevrolet Accessories Enthusiast Brochure features hundreds of accessories that are designed, engineered, tested and backed by Chevrolet. An additional offering of Associated Accessories is also available from third-party manufacturers. The Associated Accessories symbol  denotes that the accessory is engineered and sourced by third-party companies, each with its own individual warranty coverage.

Most Chevrolet Parts and Accessories sold and installed on a Chevrolet vehicle by a Chevrolet Dealer or a Chevrolet-approved Accessory Distributor/Installer (ADI) before delivery to the customer are covered by the applicable limited warranty. If Chevrolet Accessories are installed after vehicle delivery, or are replaced under the New Vehicle Limited Warranty, they will be covered, parts and labor, for the longer of the following: a) 12 months/12,000 miles (whichever comes first), or b) the balance of the applicable portion of the New Vehicle Limited Warranty. Chevrolet Parts sold over the counter, or those not requiring installation, will continue to receive the standard GM Dealer Parts Limited Warranty of 12 months from the date of purchase, parts only, regardless of miles. Chevrolet warranties do not apply to Associated Accessories. See your dealer for details.

¹ Discount applicable to cost of parts purchased on accessories.chevrolet.com. Discount not applicable to tax or installation charges. Offer subject to availability. Offer valid through 12/31/2018.

²  Associated Accessory. Non-GM part. Some accessories shown are from an independent supplier. GM Licensed and Associated Accessories are covered under the accessory-specific manufacturer's warranty and are not warranted by GM or its dealers. GM is not responsible for the safety or quality of independent supplier alterations. Associated Accessories are not tested by Chevrolet or necessarily undergo the same third-party testing procedures as Chevrolet Accessories.

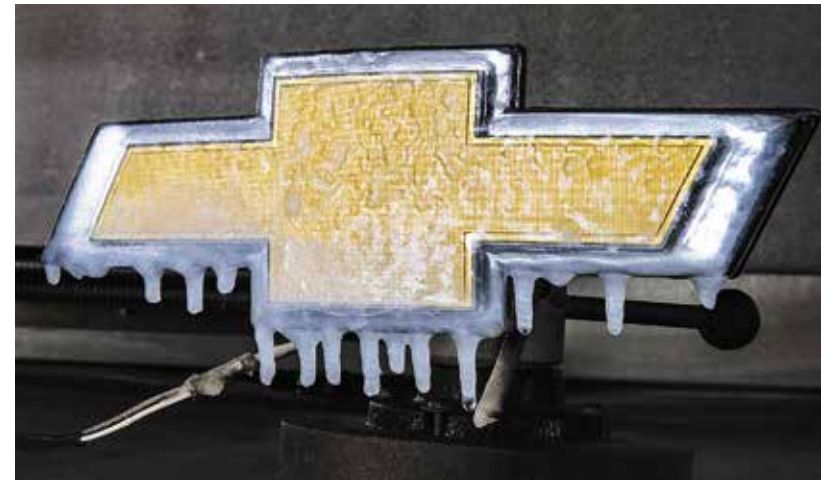

**THE ONLY ACCESSORIES DESIGNED,
ENGINEERED, TESTED
AND BACKED BY CHEVROLET.**

Developed in harmony with the vehicle-level engineering and design standards of Chevy trucks, Chevrolet Accessories are created to fit right and work in concert with the long list of systems and components of your Colorado.

Chevrolet Accessories make the grade because they're tested by Chevrolet engineers to meet our own exacting standards. Depending on the accessory, those tests may include¹:

- Cycle tests that include thousands of on/off and open/close cycles
- Corrosion testing
- Deflection, impact or stone chip resistance
- Electromagnetic compatibility with Chevrolet Entertainment Systems
- Vibration and moisture resistance

ILLUMINATED BOWTIE EMBLEMS ARE CYCLED 1.5 MILLION TIMES, FEATURE 100% WATERPROOF CONSTRUCTION AND ARE TESTED TO WITHSTAND EXTREME TEMPERATURES FROM -40°F TO 158°F.

Testing and validation continues from there. Wherever applicable, our engineers perform extensive validation testing on truck wheels for component durability, materials quality, system checks and more¹:

- Component Level Tests — Including radial and rotary fatigue, impact, torque tension and leak testing
- System Checks — Rapid air loss, pothole and road hazard impacts, rim slip and trim retention
- Material Testing — Thermal shock, paint adhesion, chemical and mechanical analysis and multiple corrosion tests, including a 1,000-hour salt spray
- Quality Checks — Dimensional testing, uniformity, porosity checks, design and process failure analysis

With thousands of items that focus on quality, style and selection, Chevrolet Accessories are the simple choice. Whether they're designed, engineered, tested, and backed by Chevrolet or selected from our lineup of Associated Accessories, count on them to be the right fit for your vehicle and for your lifestyle. Shop the entire portfolio on [Chevrolet.com/accessories](https://chevrolet.com/accessories).

THERE'S A COLORADO JUST FOR YOU.

When it comes to choosing a Colorado that's just right, the available trim levels, packages and options are only the start for some. That's why Chevrolet elevates personalization with Special Editions that blend looks and utility and infuses each one with a unique style concept. Choose the one that fits your individual tastes and lifestyle. Then express yourself with Chevrolet Accessories to make it truly your own.

Most Chevrolet Parts and Accessories sold and installed on a Chevrolet vehicle by a Chevrolet Dealer or a Chevrolet-approved Accessory Distributor/Installer (ADI) before delivery to the customer are covered under the applicable limited warranty. If Chevrolet Accessories are installed after vehicle delivery, or are replaced under the New Vehicle Limited Warranty, they will be covered, parts and labor, for the longer of the following: a) 12 months/12,000 miles (whichever comes first), or b) the balance of the applicable portion of the New Vehicle Limited Warranty. Chevrolet Parts sold over the counter, or those not requiring installation, will continue to receive the standard Chevrolet Dealer Parts Warranty of 12 months from the date of purchase, parts only, regardless of miles. Chevrolet warranties do not apply to Associated Accessories. See your dealer for details.

¹ Manufacturer's Suggested Retail Price. Tax and installation extra. See dealer for details.

² At peak rated airflow of 240 grams per second.

³ Estimated power based upon SAE test procedure J1349.

ZR2 OFF-ROAD PERFORMANCE PARTS

**WE FINISH
WHAT WE START.**

"...Here you have a manufacturer offering legitimate trophy-truck-style off-road parts for their production truck."

Chad Hall, Driver – Hall Racing Chevrolet Colorado ZR2

SIX EVENTS AND SIX FINISHES.

That's how the Hall Racing Chevrolet Colorado ZR2 conclusively proved the off-road credibility of Chevrolet Performance Parts for the production ZR2. In its 2017 debut year, the team kicked off with:

- Class wins in the "Best in the Desert" Vegas-to-Reno and Tonopah 250 races
- Successfully pre-running the Baja 1000

In 2018, the Hall Racing Chevrolet Colorado ZR2 continued to finish what it started with class wins in the Parker 425, Mint 400, Silver State 300 and the Vegas-to-Reno off-road races.

Chevrolet Performance is just getting warmed up with these six good reasons to put its desert-proven off-road parts on your pre-race checklist. And there's more to come. We're packing every component with off-road expertise to help you finish what you start.

DESERT-TOUGH TO DUST THE COMPETITION.

A new lineup of true factory off-road racing parts is ready to elevate the capabilities of Colorado ZR2 even further. The outcome of decades of off-road racing expertise, they're developed by engineers and racers as passionate about performance as you are. Over 10,000 combined off-road race and development miles are proof that the Hall Racing Chevrolet Colorado ZR2 — and the Chevrolet Performance Parts that power it — have made the grade.

1.5-INCH BODY LIFT SYSTEM

Increase front and rear fender clearance to accommodate popular off-road tire options. With 16 body spacers, impact beam, parking brake, and rear bumper relocation brackets, bed spacer blocks, a rear bumper step spacer, and a set of intake spacers, plus fastener hardware, the system is a direct bolt-on for 2017–19 Colorado ZR2 V6 models. P/N 84429026.

FRONT OR REAR JOUNCE SHOCK SYSTEM

Front or Rear Jounce Shock Systems (sold separately) incorporate nitrogen-charged secondary suspension bump shocks developed for off-road racing and rock crawling. Designed specifically for 2017+ Colorado ZR2 models intended exclusively for off-road use, they greatly enhance gross vehicle motion control, increase suspension capacity, and provide exponential bottoming protection for extreme off-road conditions. Complete front or rear bolt-on systems include Jounce Shocks for each side, required mounting brackets and all required fasteners. For the Rear Jounce Shock System, Chevrolet Performance recommends pairing with the Cross Car Beam System (P/N 84403779) for all V6-equipped off-road applications. Requires Leaf Spring Mount Jounce Striker Pads (P/N 84422116), available separately. Front P/N 84403780. Rear P/N 84422546.

CROSS CAR BEAM SYSTEM

Designed to increase the rigidity of 2017+ Colorado ZR2 rear frame assemblies, the system helps counteract loads from the ZR2 Rear Jounce Shock System. Recommended for pairing with the ZR2 Rear Jounce Shock System (P/N 84422546), the system includes the beam assembly, end plates, and required fasteners. Not available for diesel ZR2 models. P/N 84403779.

REAR DIFFERENTIAL COVER

The Chevrolet Performance ZR2 Rear Differential Cover is precision-machined from 6061-T6 billet aluminum, created for 2017–19 Colorado ZR2 models and intended exclusively for off-road use. It provides a robust mounting platform for the Anti-Wrap Bar System and looks great doing it, thanks to the clear anodized finish and unique Chevrolet Performance logo plate. Can be used with the optional Anti-Wrap Link System (P/N 84402369) or alone. P/N 84401895.

LONG TRAVEL LEAF SPRING SYSTEM

The Chevrolet Performance ZR2 Long Travel Leaf Spring System is an optimized single-rate leaf spring that replaces the stock ZR2 Dual-Rate Spring. The spring design relocates the rear axle for a better system-directed path of the rear tire to center in the rear wheelhouse in extreme travel conditions. The spring system also increases the rear ride height approximately 30mm to allow for a typical off-road payload to be carried during off-road events. Overall suspension travel is increased up to 11" when paired with Long Travel Rear DSSV shocks, P/N 84402367. A direct bolt-on, the system includes both rear leaf springs, longer off-road shackles and all mounting fasteners. P/N 84402368.

ANTI-WRAP LINK SYSTEM

Help prevent axle wrap under acceleration, braking and suspension articulation when using a single-rate leaf spring pack. A direct bolt-on to V6-equipped 2017+ Colorado ZR2 models, the system includes a front frame attachment, anti-wrap bar with bushing and sealed rod end bearing, a differential cover bracket, and mounting fasteners. Requires the available Rear Differential Cover (P/N 84401895) and Long Travel Rear Leaf Spring system (84402368). P/N 84402369.

FRONT

REAR

The Chevrolet Performance ZR2 Off Road Performance Parts listed here are intended for off road use.

STEEL DRIVESHAFT

Install superior resistance to impact damage, compared to the production aluminum 2017-2019 Colorado ZR2 driveshaft during extreme off-road and rock crawling events. Reduced ½ inch from the production aluminum driveshaft, this 3½-inch diameter steel shaft features a .083-inch wall thickness, allowing for increased clearance over obstacles and improved packaging with other off-road suspension components. Delivered assembled with 1350 U-joints. Maximum driveshaft speed: 5000 rpm. P/N 84401894.

HIGH-ANGLE UPPER CONTROL ARM BALL JOINT SYSTEM

A direct replacement for the production parts, this system enables increased upper Ball Joint articulation for increased front suspension travel and increases cross-car articulation by up to 18%. A sealed design helps prevent water intrusion and a dust boot helps keep dirt and dust out of the joint. Includes front upper control arms, control arm bolts and nuts, and new ball joint nuts for a direct bolt-on installation. P/N 84402363.

BALL SPLINE HALF SHAFTS

Fixed Double Offset Joint Ball Spline Half Shafts allow for larger joint angles compared to production half shafts, accommodating lifted or leveled 2017+ Colorado ZR2 models. Featuring fixed inner and outer joints and center bar plunging, these half shafts enhance articulation while reducing feedback forces through the steering system during hard cornering and landings. Designed and validated for severe duty off-road use where speeds and loading conditions are pushed to extremes, the system includes both Ball Spline Half Shafts and wheel nuts. P/N 84429060.

TIE ROD SLEEVE SYSTEM

This affordable solution for 2017+ Colorado ZR2 owners provides increased buckling strength for handling increased loads and suspension travel during severe duty off-road and race conditions. Tested in extreme conditions, the Tie Rod Sleeve System is a direct addition into the factory ZR2 steering system. P/N 84419134.

FRONT OR REAR LONG-TRAVEL DSSV SHOCKS

Designed specifically for long travel off-road race applications by Chevrolet Performance and Multimatic, the Dynamic Suspensions Spool Valve Front Shocks provide up to a 15% increase in overall suspension travel (up to 10% for rear shocks when paired with the available Performance ZR2 Rear Long Travel Leaf Spring System, P/N 84402368) on 2017+ Colorado ZR2 models. Front shocks feature a 18mm-thick rod diameter (16mm for rear shocks) to accommodate higher side loads, high temp seals to handle higher shock temperatures, stronger Heim joint lower attachments and optimized spool valve tuning. Front shocks also feature a threaded shock body to allow for ride height adjustments via the lower spring seat. The front system includes both front shocks, top mounts, upper and lower rate washers, upper spring seats, dust boots and mounting fasteners. Does not include front springs. Requires High-Angle Upper Control Arm Ball Joint System (P/N 84402363) and Plunging Ball Spline Half Shaft System (P/N 84401893). Rear shocks feature high temp seals to handle higher shock temperatures. The rear system includes both rear shocks and mounting fasteners. Front P/N 84402367. Rear P/N 84402366.
