

INSTRUCTIONS

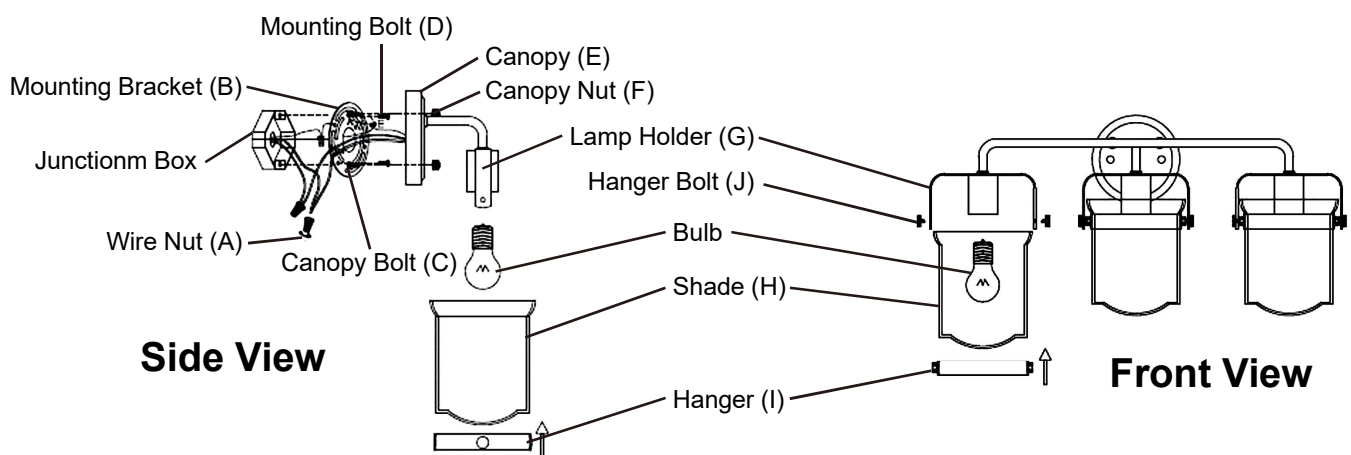

⚠ WARNING!

Read these instructions carefully prior to installation.

- Check for electric, gas, and plumbing lines before drilling or consult a professional.
- **ALWAYS** cut **ALL** relevant power before installing a lighting fixture, and do not restore power to the line until the lamp has been **FULLY** installed.
- **DO NOT** use with bulbs exceeding the recommended wattage.

ASSEMBLY

1. Prepare the wiring in your wall for the desired location of your new lamp. Prepare your junction box (not included).
2. Unscrew the canopy nuts (F) and take the mounting bracket (B) off the canopy (E). Connect your mounting bracket to your junction box using the mounting bolts (D).
3. Make electrical connections using the wire nuts (A).
4. Being careful that no wiring is left exposed, place the canopy against the mounting bracket and secure it by replacing the canopy nuts onto the canopy bolts (C) and retightening them.
5. Install your bulbs into the sockets. This fixture has been rated for three E26 bulbs (not included) up to 60W each.
6. Unscrew the hanger bolts (J) from the hangers (I). Attach the hangers to the shades (H) and slide them up. Fit the hangers onto the lamp holders (G) and secure them by replacing and retightening the hanger bolts.
7. Plug your lamp in, turn it on, and enjoy!
