# 1. Product overview

The DVR uses two wide-angle cameras installed inside and outside the vehicle to capture images of the surrounding area and transmit them to the integrated device in real time. With the help of this system, the driver can see the obstacles and pedestrians around the vehicle intuitively, and effectively reduce the occurrence of scraping, collision, collapse and other accidents. This product can record all driving pictures to avoid accident fraud.

## 2. Product composition list

Name	Graphic	Instructions	Number
The host		- channel camera interface/touch control / B luetooth / W i- F i / FM Transmit / SD card recording / Type C interface power supply	1

	Asterisk line adjustment	Adjust the reversing line for various models
Smart + connected	Wi-Fi	Supports Apple CarPlay and Android Auto
	Bluetooth	Support Bluetooth music playback

	FM	FM Transmit support, connected to the car radio
The video store	SD card	CLASS10 U1 : 32GB minimum and 256GB maximum
Audio part	The microphone	Support microphone recording, menu can be set to turn off
	Voice control	Support voice control, menu can be set to turn off
Power part	The power input	The voltage drop line supports 7V~32V wide voltage and has power protection circuits such as surge, overload, overvoltage, undervoltage and short circuit
Power consumption	Two-way video	Less than 10W (screen display, 2-channel camera recording)
Other	Working temperature	-4 ~ 149 °F
	The cooling way	Passive cooling
	The video time	Video recording duration can be set
	camera mirroring	The camera supports mirror display, and the menu can be set

## 4. SD card specifications

The quality of SD card has a great impact on the stability of video recording.

To record video safely, use SD cards from major brands such as SanDisk,

Kingston, Toshiba, and Samsung. Speed certification must be at least

Class10.

## 5. Wiring instructions

The details are as follows:

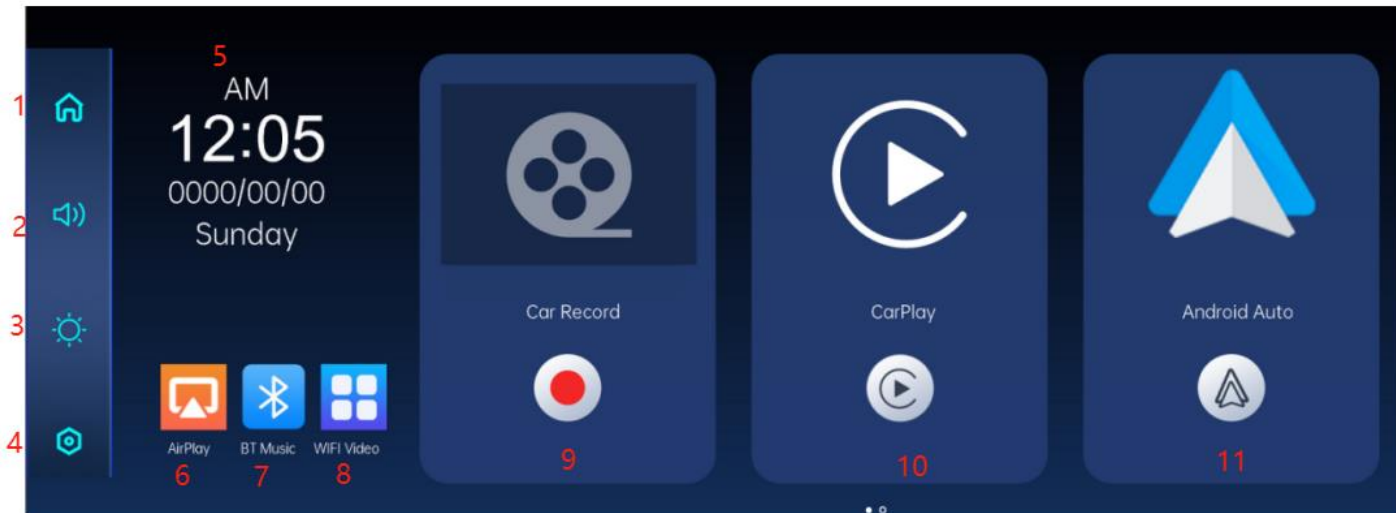

Port	Instructions
Type C interface	Monitor power supply interface
Cigarette charger	The cigarette lighter takes power directly

## 6 Camera installation

Locate the drilling hole, find the appropriate installation position in the license plate attachment, mark it with a pen and then drill the appropriate size of the screw hole. Fix the camera to the rear of the car with screws, the reversing trigger wire ( red thin wire) needs to be connected to the positive pole of the reversing light, and finally use the camera extension cable to connect to the monitor. ( This is not necessary if you choose the version without the reversing camera

# 7 interface specification

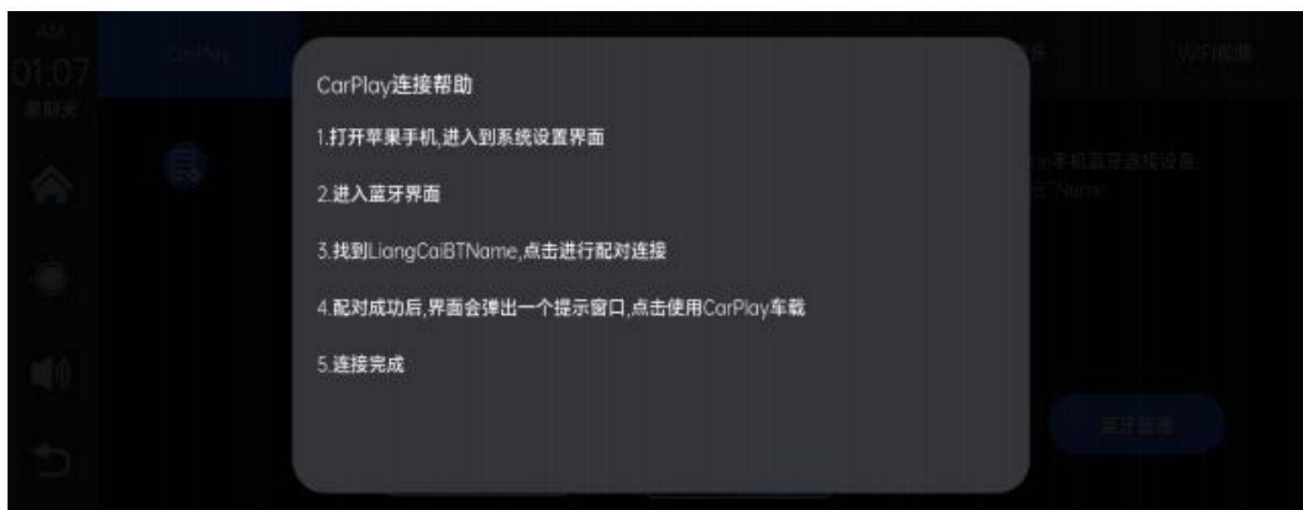

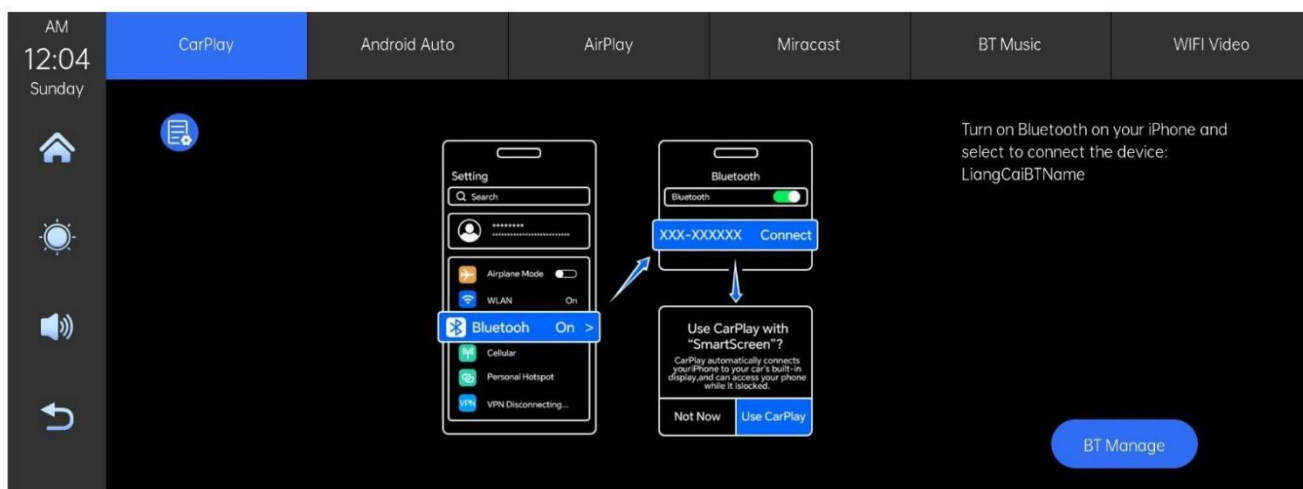

- ① **Time and Date:** Displays the current time and date
- ② **Home button:** Click to return to home page
- ③ **Brightness button:** Click to adjust screen brightness
- ④ **Volume button:** Click to adjust the volume
- ⑤ **Settings button:** Click to jump to the settings interface
- ⑥ **Apple CarPlay:** Special connector for iPhone
- ⑦ **Android Auto:** Special connector for Android mobile phone
- ⑧ **Drive:** Click to enter the video recording interface
- ⑨ **Video Playback:** Tap to view a video on the video screen
- ⑩ **FM Transmit:** When turned on, the device will transmit the sound to the original vehicle

## A. Apple

As shown in the figure, click the [Apple CarPlay] button to enter the Apple CarPlay. Turn on the Wi-Fi and Bluetooth of the mobile phone first, then as shown in the figure below, select the [Apple CarPlay] option, click the [BT Manage] option of the interface, connect Bluetooth with the phone, you can open the application. When the machine is powered on, it will try to automatically connect to the last connected phone.

(Turn off your phone's Wi-Fi to disconnect, Apple CarPlay option only supports iPhone phones, Android phone please select [Android auto] option)

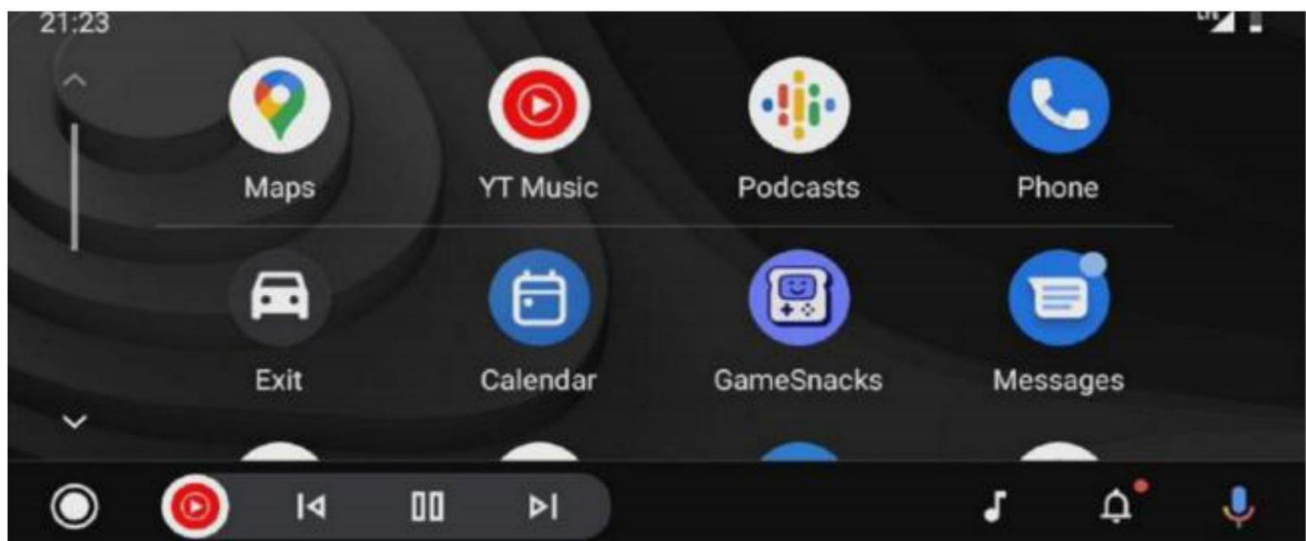

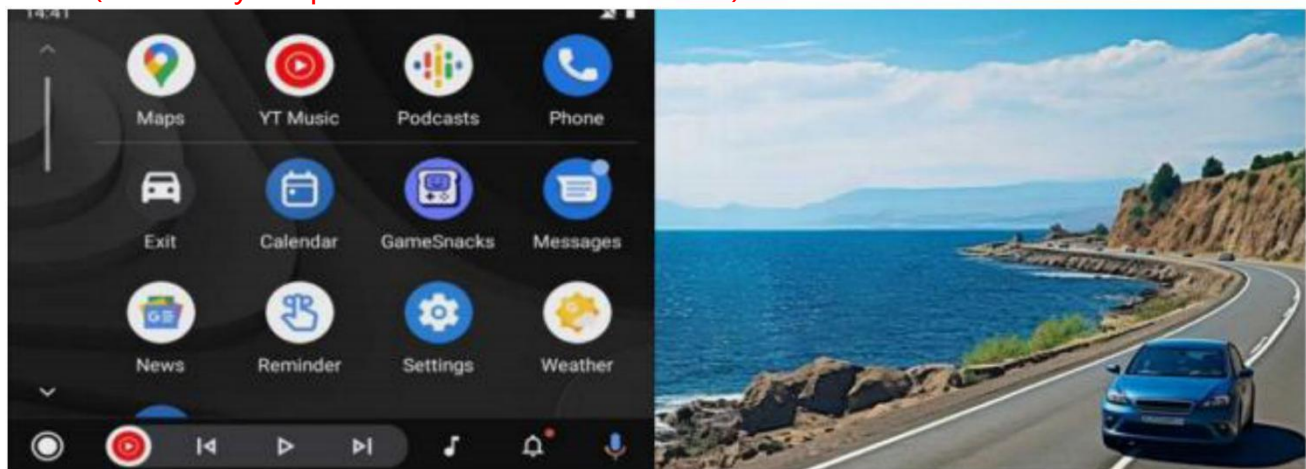

## R Android Auto

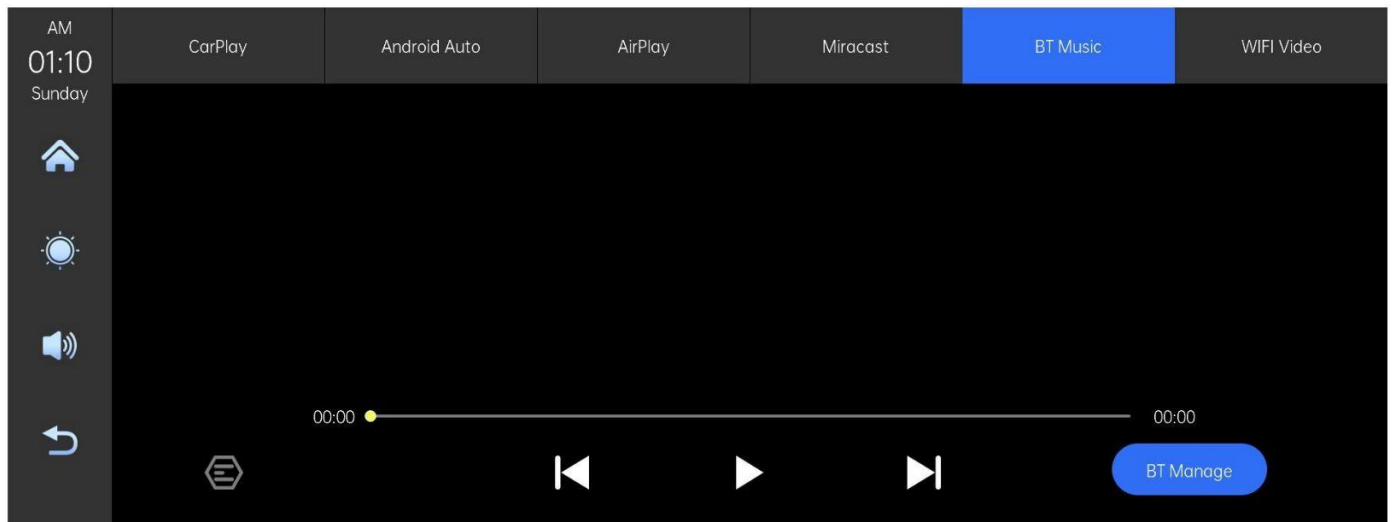

As shown in the figure, click the [Android Auto] button to enter the Android auto. Turn on the Wi-Fi and Bluetooth of the mobile phone first, then as shown in the figure below, select the [Android auto] option, click the [BT Manage] option of the interface, connect Bluetooth with the phone, you can open the application. When the machine is powered on, it will try to automatically connect to the last connected phone.

(Turn off your phone's Wi-Fi to disconnect)

## C Bluetooth music
