FEATURES & BENEFITS

COOK WITH CONFIDENCE

Using the large 5" touchscreen interface, you can cook with a favorite method, hero ingredient, cooking function or recipe. Your oven will guide you through the steps, or change the temperature and heat type automatically, depending on your selection.

GENEROUS CAPACITY

With a generous 85L total capacity, you can create several perfectly cooked dishes at once using multiple shelves. Non-tip, full-extension shelves help to ensure safe removal of hot dishes.

EXCEPTIONAL PERFORMANCE

Our unique cooking technologies were developed to help deliver perfect results. ActiveVent ensures optimized moisture levels, while AeroTech™ circulates heat evenly for a consistent temperature.

SAFE AND SOUND

The CoolTouch door of this built-in oven is safe to touch from the outside. Sturdy, fully extendable shelves slide all the way out, reducing the need for you to reach inside.

SELF-CLEANING

Pyrolytic self-clean breaks down food residue at a very high temperature, leaving a light ash that's easily removed with a damp cloth. The enamel coated side racks don't need to be removed when using this function.

COMPLEMENTARY DESIGN

Designed to blend seamlessly into the kitchen, this Minimal style oven features subtle textural and tonal contrasts. Available in a black or grey finish to support a considered kitchen design. Pair with a Warming Drawer for the ultimate kitchen solution.

MULTI-FUNCTION FLEXIBILITY

Each function has been tailored, tested and perfected to ensure that no matter what you're cooking, you've got the right heat to match. A Wireless Temperature Sensor precisely monitors cooking in real time, giving you complete control.
