

CLOCK/ALARM FUNCTION

Clock Setting

Press the time key briefly to enter the clock/minute setting. Press +/▶/ - /◀ to adjust hours/minutes.

Alarm Setting

Press the alarm clock key briefly to enter the clock/minute setting. Press +/▶/ - /◀ to adjust hours/minutes. After setting the time, press the alarm button briefly and press +/▶/ - /◀ to choose the alarm sound you like. Finally, press and hold the alarm key to turn on the alarm clock (after setting successfully, the alarm clock will appear on the screen).

Press and hold the light touch sensor part to turn off the alarm when it rings.

Cancel The Alarm

Press and hold the alarm key until the alarm sign on the screen disappears.

TECHINCAL PARAMETERS

Bluetooth Version:	5.3
Bluetooth Name:	PY-TLMP
Output Power:	3W
Transmission Distance:	10M
Frequency Response Range:	50Hz -60KHz
Signal to noise ratio:	75db
Built in lithium battery voltage:	3.7V
Chargeing Input:	DC5V/500MA
Product Size:	5.82x3.85x3.85IN
Product Weight:	0.72LB/0.32KG
FCC ID:	2BBPLPYTLMP

To avoid damage caused by excessive voltage, please charge with a plug below 5v. 1200mAh long playing and lighting time. It can be fully charged in 3 hours and continuously working more than 4 hours.

KEY DIAGRAM

KEY FUNCTION OPERATION

Turn "ON/OFF" switch to the right to enter Bluetooth mode and light mode.

1. Bluetooth Function

The device is switched "ON" with voice prompts. At this time, the audio is in pairing mode. Only in this state can it pair and connect with Bluetooth audio.

2. Mobile Phone Connection

Turn on Bluetooth in your mobile phones settings and connect to "PY-TLMP". After pairing your mobile phone to the audio is successful, there will be a voice prompt and the connection will be displayed.

3. FM Radio

Press once the M key to switch to FM function. Connect the charging cable to the micro port to act as a radio antenna (the other end does not need to be connected to any equipment). Press once the pause key to automatically search and save stations.

Make a saved station selection: +/▶/ - /◀

LED FUNCTION

When the device is turned on, the default low-level white light effect is achieved.

Tap the center point of the LED Touch Light Sensor to adjust the light from White Light/ Warm Light/Color Light/ Breathing Light/Rhythm.

Press and Hold: Color Light Mode

Press and Hold for 2 seconds to enter the color light mode. The order of color light is: Red, Green, Dark Blue, Yellow, Light Blue, Purple, Breathing Light, Rhythm (sound reactive flashes with rhythm when playing music).

FCC STATEMENT

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
