+ Preparing For The Camp Kitchen X-Lite Installation

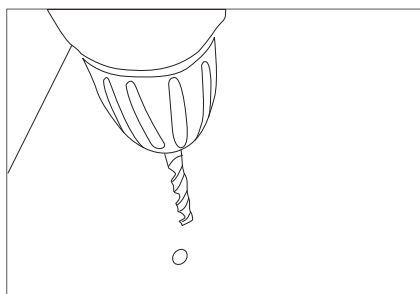

This camp kitchen need to be installed on a flat even surface with a minimum of 12 mm thickness. You will be required to use an electric drill to install.

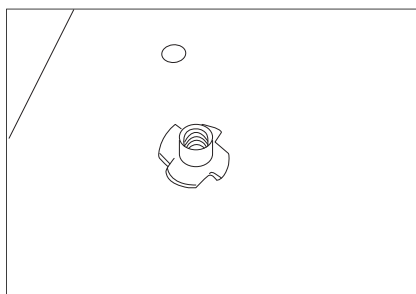

+ Pull out both fridge slide and stove top by pressing the lock levers on both sides, then fully pull out to reveal the fixing holes on the side rails.

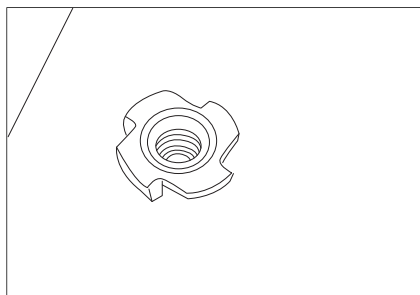

+ Mark the six drilling points through the fixing holes with a permanent marker.

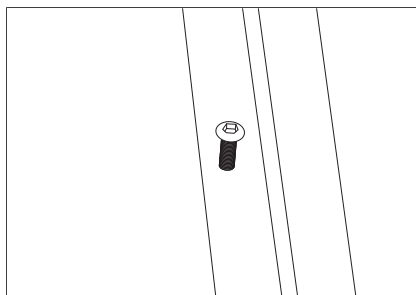

+ Drill six 7mm holes for the Tee Nuts.

+ Insert the Tee Nuts into the holes ensuring the nuts are upright and square to the hole.

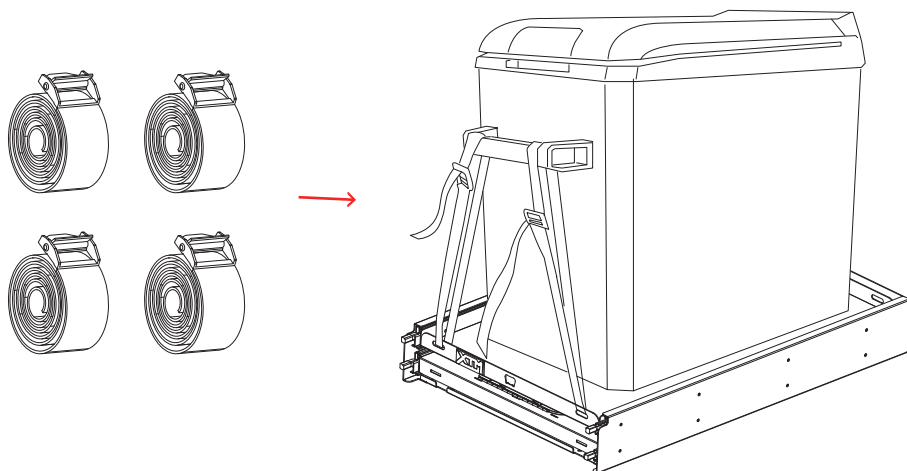

+ Flatten the Tee Nuts with a mallet or hammer.

+ Position the Camp Kitchen X-Lite on the flat surface. Use the 6 x M6 bolts to fix on the surface.

+ Tie Down the Fridge

Secure your fridge on the fridge slide tray by using the 4 nylon straps supplied. Make sure the straps are tight and secure.

+ Important Notes

- The camp kitchen X-lite must be securely and evenly installed on the surface of the vehicle or wherever the it is to be used.
- The max weight capacity of fridge slide is 80KG; the max weight capacity of stove top is 40KG.
