Product Diagram

Product Specification

Model: DQ709	Tank capacity: 150mL
Input: 5V==2A	Size: 257x70x75mm
Rated Power: ≤10W	Timing: automatic power-off protection for water shortage
Weight: 368g	Raw Material: ABS/PP/PCBA
Made in China	Standard sheet: GB4706.1-2005

Product Contents

AtomizerX1、Type-C cableX1、ManualX1

Note

- The maximum water volume of the water tank is 150ml, and the water injection volume shall not exceed the maximum water level indicator line, otherwise the atomization effect will be affected.
- Please use DC5V-2A input power supply, otherwise the atomization effect will be affected or the host will be damaged.
- Please fill the atomizer with pure water to avoid damage to the atomizer function due to impurities in the water, so as to achieve the best maintenance effect.
- The sound emitted from the water tank during operation is the sound of atomization, which is a normal phenomenon.
