The Slim, Sleek SCP-6200 Features

Dual Band... Ensures "across-the-board" sound and clarity through Sprint's all digital CDMA network, also able to utilize analog service when outside of Sprint's digital coverage area.

Reinforced Magnesium Alloy Faceplate for Enhanced Durability... Don't be fooled by its slim/sleek appearance. The SANYO SCP-6200 is reinforced with magnesium alloy making it the embodiment of both strength and elegance.

Picture Caller ID... Look who's calling! Synchronize downloaded photos of friends and family with their phonebook entries using optional software.

Download Images (up to 15)... Sprint's "Ringers and More" service allows the user to download and store up to 15 images to personalize their handset with familiar premium images to be used with incoming calls or as standby wallpaper.

Download Images (up to 15)... Optional SANYO Multimedia Master Software allows user to download their favorite images from their PC.

Download Ringers (up to 15)... Sprint's "Ringers and More" service allows the user to download and store up to 15 ringers to personalize their handset with familiar premium melodies to be used as unique ringers or start-up melody.

Download Ringers (up to 17)... Optional SANYO Multimedia Master Software allows user to download up to 17 of their favorite midi melodies from their PC.

7 Melody Selections... The user can select from several 16-chord polyphonic ring-tone melody selections.

4 Unique Ringer Selections... Including Asian jingle, samba, cat, dog.

Customizable Backlight Display... The user can select either green or orange as their backlight color.

Monochrome 4-Step Gradation LCD with Adjustable Contrast... This 120 x 128 pixel LCD affords 7 lines and 15 characters per line using the preset font size. The SCP-6200 also has 5-step contrast variations to ensure optimal view-ability under various lighting conditions.

Adjustable Font Size... The user can choose from 4 various font sizes for Text Message and Browser functions, allowing optimization of reading.

Personal Profile... The SCP-6200 "Personal Profile" stores the user's name, birthday, blood type, address, PCS number, home phone, work phone, and up to 2 E-mail addresses.

Call Screening... The SCP-6200 can act as a portable answering machine, allowing the user to listen in as the caller leaves a message; in addition, the user is able to answer the call anytime while the caller is leaving their message.

Electronic Organizer... Built-in scheduler/calendar and to-do list with function alarm, reminds the user to make important calls, and helps in keeping track of important events.

One Touch Web Access... The Soft Key, located beneath the "Web"

icon on the bottom left side of the LCD standby screen, offers both convenience and simplicity when accessing the Internet.

One Touch Voice Memo... The SCP-6200 holds up to 8 eighteen-second voice memos or incoming caller messages. Voice recordings are made simply by pressing the Soft Key, located just below the "Memo" icon on the bottom right side of the LCD standby screen.

Voice Activated Dialing... Allows the user to call up to 30 stored entries by speaking the name into the handset.

The SANYO SCP-6200 has been designed especially for use on the digital Sprint PCS Nationwide Network.
