

Residential Heating Controls

For 23 years, EPH have been supplying state of the art products to the residential, commercial and pharmaceutical markets.

In our 2020 residential heating controls catalogue, you will find our latest products with the best of features to suit your application.

I would like to draw your attention to a few of these products.

The BoilerPlus legislation is a result of our industry looking for a more sustainable and energy efficient heating solution. The result of this will be lower fuel consumption as well as reduced carbon emissions.

Our CombiPack4 (CP4), programmable RF room thermostat has all the features to meet the Boiler Plus requirements and with its ease of use, it will continue to be a popular choice for all installers.

Following a major update, the EMBER App can now control both Programmer based systems (EMBER PS) and Thermostat based systems (EMBER TS). On top of the existing features and benefits, voice control of your heating system is now possible via Alexa.

The new CP4i, smart thermostat has now been launched based on the success of the CombiPack4 (CP4). Controlled by the EMBER App, up to 6 thermostats can be installed in a home with multi zone OpenTherm® control.

Our Detach Pro range of motorised valves are manufactured with internationally recognised, market leading components. As a result, we continue to offer an industry leading 5 year warranty as we have done for the last 12 years.

These are some of the exceptional products that we have available to you.

We hope you enjoy the full range of products within this catalogue or visit our website at www.ephcontrols.co.uk.

We shall continue to pre-empt market requirements by delivering quality products with the USP's that set us aside from our competitors and make our products the first choice for all installers.

Motorised Valves

EPH Controls’ range of motorised valves offer market leading functionality. All motorised valves come with a detachable actuator, detachable power cable and a power on light. In addition, all component parts of the actuator, are sourced from the market leaders in their fields in USA and Europe, making the DETACH Pro range of valves a must for all home heating installations.

2 Port Valve – Compression

These two port valves come with light, detach button and detach cable.

PRODUCT CODE	CONNECTION TYPE	FLOW RATE	MAX. CLOSE OFF PRESSURE	BI-DIRECTIONAL FLOW
V222P	22mm compression	4.6 kvs	1.0 bar	No
DS222P*	22mm compression	4.6 kvs	1.0 bar	Yes
V228P	28mm compression	6.8 kvs	0.6 bar	No

SWITCH RATING	MAX AMBIENT TEMP	MAX FLUID TEMP
11(3)A 230Vac	50 °C	88 °C

2 Port Valve – Female BSP

These two port valves come with light, detach button and detach cable.

PRODUCT CODE	CONNECTION TYPE	FLOW RATE	MAX. CLOSE OFF PRESSURE
V222FP	3/4" female BSP	4.6 kvs	1.0 bar
V228FP	1" female BSP	6.8 kvs	0.6 bar
V232FP	1 1/4" female BSP	8.0 kvs	0.3 bar

SWITCH RATING	MAX AMBIENT TEMP	MAX FLUID TEMP
11(3)A 230Vac	50 °C	88 °C

3 Port Valve – Compression

These 3 port valves come with a detach cable.
[A] = Port A, [B] = Port B

PRODUCT CODE	CONNECTION TYPE	FLOW RATE	MAX. CLOSE OFF PRESSURE*
B322PF	22mm compression	4.6 kvs	1.6 bar (A) 1.2 bar (B)
B328PF	28mm compression	6.8 kvs	1.2 bar (A) 0.8 bar (B)

SWITCH RATING	MAX AMBIENT TEMP	MAX FLUID TEMP
5(2)A 230Vac	50 °C	88 °C

Replacement Actuators / Thermostatic Mixing Valves

Replacement Actuator

These two port valve actuators come with light, detach button and detach cable.

Hardwired Programmers

EPH Controls’ range of hardwired programmers offer a comprehensive solution for all zoning requirements with models available from 1 to 4 channels. With market leading functionality such as auto summer / winter time, boost, advance and service interval, these programmers are still easy to use. All units also come with the EPH Controls 5 year warranty.

EASY INSTALLATION

Thermostat, receiver and gateway have pre-paired RF connections making installation quick and easy.

MULTIPLE CONTROL

Control multiple homes and add multiple users at the touch of a button via your smartphone.

ALEXA VOICE CONTROL

With Alexa, you can control your heating system, check temperatures, boost zones and much more.

OPENTHERM®

Modulate your OpenTherm® boiler for maximum efficiency and minimum impact on our environment.

MULTI ZONE

Control up to 6 zones in a home by adding more thermostats. Hot water control is also available with CP4-HW-OT thermostat.

COST EFFECTIVE

Reduce your energy bills with time and temperature control of your heating & hot water - anywhere.

CONVENIENT

Whether at home or abroad, easy control of your heating system is in the palm of your hand.

PROGRAMMABLE

Allows flexible control by the users via the hardware or the EMBER App. Time & temperature can be programmed for 6 periods per day.

Programmable RF Thermostat & Receiver

USER FRIENDLY

User centered design is the key of COMBIPACK 4's development. With a large LCD and ergonomically shaped buttons, they are designed for easy use in the dark or for people with impaired vision.

PROGRAMMABLE

Allows flexible control by the users. Options available include 7 day, weekdays/weekend, or 24 hours. You can also choose to boost for 1 hour and a holiday mode is available for when you are away.

CONTEMPORARY

A comfortable and visually friendly interior is important to every home. Our designers have created this new sleek pure white casing, to be versatile and suit all interiors.

EASY INSTALLATION

The thermostat & receiver are pre-paired for your installer. As soon as the receiver is wired to your boiler, its ready to go.

COST EFFECTIVE

Reduce your energy bills with time and temperature control of your heating & hot water - anywhere.

MULTI ZONE

Control up to 6 zones via OpenTherm® by adding more thermostats. Hot water control is also possible with addition of CP4-HW-OT to the system.

EPH Controls' RF Programmer packs provide a 1 - 4 zone solution for RF zoning. All of these products are also WiFi ready, so that they can be controlled via the EMBER heating control app with the addition of the WiFi gateway. This offers a simple and convenient solution to installations, where time and temperature control is required via smart app.

2 Way RF Transceiver Pack Wireless Boiler Interlock

2 Way RF Communication
Meets Building Regulations
Saves Time and Materials

The TR1 TR2, 2 Way RF Transceiver Pack is a unique product from EPH Controls, allowing a wireless signal to be sent from one device to the other and back to the original device. This can allow wireless operation of motorised valves which are located in areas where wiring is not possible. This can achieve boiler interlock as well as other applications.

RF Transceiver

PRODUCT CODE	TYPE	CONTACT RATING	MOUNTING TYPE
TR1TR2	Transceiver	10(3)A 230V	Wall
RF RANGE	AMBIENT TEMP RANGE	DIMENSION	POWER SUPPLY
Max 30m	0-50°C	84 x 84 x 30mm	230Vac ±10%

Wiring examples

TR1

TR2

EXAMPLE 1 Wirelessly completing a 230V connection

a.) On TR1 When Lin receives 230V, TR1 sends a wireless signal to TR2.

b.) On TR2 N/O contact will close and can switch any device with a 230V switched live.

EXAMPLE 2 Single Wireless Switch - TR1 to TR2 only - Volt Free Switch to Boiler

a.) On TR1 When Lin receives 230V, TR1 sends a wireless signal to TR2.

b.) On TR2 N/O contact will close and switches on the boiler with a volt free switch.

EXAMPLE 3 Double Wireless Switch - TR1 to TR2 and TR2 back to TR1 - 230V

a.) On TR1 When Lin receives 230V, TR1 sends a wireless signal to TR2.

c.) On TR1 N/O contact on TR1 will close and switches the boiler with a 230V switched live.

b.) On TR2 N/O contact will close. Motorised valve will open. Auxiliary switch on motorised valve will close and send 230V to Lin on TR2. TR2 will send a wireless signal back to TR1.

EXAMPLE 4 Double Wireless Switch - TR1 to TR2 and TR2 back to TR1 - Volt Free

a.) On TR1 When Lin receives 230V, TR1 sends a wireless signal to TR2.

c.) On TR1 N/O contact on TR1 will close and switches the boiler with a Volt free switch.

b.) On TR2 N/O contact will close. Motorised valve will open. Auxiliary switch on motorised valve will close and send 230V to Lin on TR2. TR2 will send a wireless signal back to TR1.

Thermostatic Radiator Controls

TRV Single Pack – Chrome Angled

PRODUCT CODE	CONNECTION TYPE	BI DIRECTIONAL
CTRV15C	15mm Compression	Yes
SENSOR TYPE	TEMP RANGE	MAX. DIFFERENTIAL PRESSURE
Liquid filled	7 ... 28°C	0.6bar

TRV Twin Pack – Chrome Angled

EPH Controls’ range of hardwired programmers offer a comprehensive solution for all zoning requirements with models available from 1 to 4 channels. With market leading functionality such as auto summer winter time, boost, advance and service interval these programmers, offer simple design functionality and are ideally suited to householders.
