CNS-CMSW18PW	pearl-white	5291485005771
CNS-CMSW18DG	dark-gray	5291485007553

Designed for Apple

This stylish mouse will be a perfect tool for working in an office, coworking, or for off-site business meetings. Silent buttons allow you to concentrate on work without being distracted or disturbing others. The wear-resistant coating and compact dimensions allow you to carry it in a bag of any size. A large number of options for wired and wireless charging will allow you to avoid messy situations with a mouse suddenly shutting down. Just leave your mouse on a charger for your smartphone or a new Canyon mouse pad for your work break and get it charged. That's incredibly convenient! The mouse is comfortable for both the right and left hands. Convenience, simplicity and new technologies for comfortable and continuous work!

8 PORT USB-C HUB DS-15

This hub is one of the few capable of reading 4 types of cards. It has built-in slots for SD, SDHC, SDXC, and TF cards. In addition, you can connect a monitor, headphones, or speakers via a 3.5 mm mini-jack. It has two ports for peripheral devices - USB-A 3.0 and USB-A 2.0. The up to 100W USB-C PD charging port allows you to charge your connected device at optimal speed. You can connect directly to the network via Gigabit Ethernet using the hub. In addition, the device is compatible with Google Media Player Chromecast. The lightweight and durable housing of the hub is made of aluminum, which prevents interference in signal transmission. You will not need any additional software or special skills to use the hub. Compact and functional solution for many tasks!

The DS-14 hub turns one USB-C port into eight versatile connectors. You will be able to connect the monitor via HDMI or VGA port. There is a mini-jack for headphones or speakers. Three USB-A 3.0 ports allow you to connect three peripheral accessories at once conveniently. The up to 100W USB-C PD charging port allows you to charge your connected device at optimal speed. You can connect directly to the network via Gigabit Ethernet using the hub. Lightweight and durable aluminum housing helps maintain signal quality. "Plug and Play" - connect the hub and work without installing additional software. The hub will take up minimal space in your bag due to its compact size. The perfect combination of size and functionality!

Designed for Apple

The model DS-12 represents maximum functionality and flexibility in use. You can connect two monitors via HDMI ports or transmit a video signal via a VGA connector. Headphones and speakers are plugged in through a 3.5 mm mini-jack. Three USB-A 3.0 ports and one USB-A 2.0 port are provided to use all the necessary computer peripherals. Two conveniently located SD and Micro SD card reader slots allow you to transfer large amounts of data instantly. The up to 100W USB-C PD charging port automatically detects an optimal charging speed for a connected device. If necessary, you can connect to the web directly via Gigabit Ethernet. In addition to all of the above, the hub is compatible with Samsung DEX and Nintendo Switch. All this functionality is enclosed in a durable aluminum housing that suppresses interference in signal transmission. The device is «Plug and Play,» so you don't need additional software to start using the hub. Increase the functionality of your device by connecting everything you need!

- HDMI port: 4K, 30Hz
- 3.5 mm combined audio jack - for microphone and headphones
- 2 USB Type C ports: 60W Power Delivery charging, and data transferring
- 2 USB 3.0 Type A ports: up to 5 Gb/s high speed data transfer
- Ethernet output: 1000 Mbit

- Highly durable aluminum casing
- Plug-and-play usage with Mac OS and Windows
- Compatible with all USB type C Macbooks 2016-18, PC, Laptops
- Product size: 224x33.7x33.7 mm
- Can be used as a docking station or a stand

Designed for Apple

This is a truly universal USB Type C hub for a laptop, because it has all slots that an average user could need for daily work. It provides high-quality 4K HDMI connection with a monitor, stable 1000 Mbit ethernet, speedy USB 3.0 Type A connection, dual audio channel for microphone and earphones and 2 USB type C extensions - for charging and connecting other devices. The stability of all connections is maintained by high-quality PWC cable, and durable aluminum case protects the hub from any external damage. You can also use it as a docking station or a stand by putting your laptop on its upper edge.

Apple compatible

Are you using your laptop as your main machine for work? You must have experienced a shortage of free ports for all your accessories. If so, this product might come in handy. Canyon HDS-95ST is a Type-C multiport docking station. It provides up to 14 ports in a compact form factor.

Just connect it via a twin Type-C cable to your laptop. The station has an improved heat dissipation system and provides Power Delivery to your laptop and phone without a single issue.

One full-featured USB-C port can expand up to 8 USB ports.

Two HDMI ins also allow connecting two monitors simultaneously and transferring the image in 4K. There's a Gigabit Ethernet port, an SD card slot, and a 3.5mm audio jack with stereo output.

Expand the functionality of your laptop — all that goodness in one compact device.

Simultaneously supports 2 or 3 monitors:

- 4 types of protection: OCP / OVP / OTP / FOD
- Effective charging distance ≤7mm
- Type-C cable 1.2 m included (max 3A)
- COMPATIBILITY:
  Smartphones – iPhone 8 and later, All QI-enabled smartphones
  Earphones – AirPods 2, AirPods Pro and all other earphones with QI
  Smart Watches – Only Apple Watches (all models)

Designed for Apple

The reliable wireless charger for those who follow the latest gadgets and value convenience and functionality. This station provides the best charging speed for any QI-integrated device. Devices produced by Apple and other companies will also charge quickly and securely due to the built-in Novoton chipset. The original shape allows you to simultaneously charge Apple Watch, iPhone, and Airpods by conveniently attaching them to their respective charging zones. A sufficient charging distance up to 7 mm allows you to charge your phone without removing the case. The eye-catching, versatile dark color allows the charger to blend in perfectly with any interior. An excellent solution for organizing the storage of gadgets, optimizing space, and reducing the need for wires!

For Apple and QI certified devices

POWER ADAPTER INCLUDED

Meet the Canyon WCS-305 charging station — a liberating solution to break free from the tangles of charging cables. Compatible with most smartphones and devices following the Qi standard, including iPhone, Apple Watch, and AirPods, this compact station is your ticket to charging simplicity.

This charging station is a real multitasker and lets you charge up to three devices simultaneously. It supports Quick Charge technology, keeps devices safe from overheating and other threats, and controls the charging process.

When folded up, WCS-305 is pocket-size. You can shape it into a triangle, and it becomes a versatile phone holder, accommodating your device vertically or horizontally.

Worried about keeping your cases on? No problem! The station's high effective charging distance ensures your devices charge effortlessly with their cases intact. Your gadgets are in good hands with the anti-slip coating, providing extra protection, and the LED ambient light keeps you informed at a glance.

Ready to ditch those annoying wires now? Embrace the wireless charging revolution with the Canyon WCS-305 charging station.

• **Foldable and compact**

• PD fast charge
• Power 100 W

• Max. output voltage 20V / 5A
• Integrated E-MARK Chip
• Compatible with MacBook
• Cable length 1,2 m

Designed for Apple

A cable which you can always insert from the right side! Besides the ease of use, this model provides a high speed of data transfer and charging. The cable is equipped with an E-MARK chip, which enhances the transmission power up to 100 W and provides sufficient bandwidth for fast and complete transmission for video files. Also, the E-MARK chip regulates the power supply, which guarantees that using the cable is safe and efficient. The PD protocol allows you to charge not only smartphones but also laptops, including MacBooks and allows for uninterrupted data transfer even if connected devices change their roles from charging to data transmission and vice versa.

Laptop charging

E-mark chip inside

- Connectors USB-C - USB-C
- PD 100W support
- Output up to 20V/5A max.
- Smart E-mark chip for added protection

- Cable length 2 m
- Suited to smartphones and laptops
- Compatible with Macbook models charged via USB-C

This cable model will allow you to reduce the duration of charging and data transfer to the minimum possible today. The cable is equipped with an E-mark chip, which delivers additional protection for the charged device, especially in cases when the output current of the power adapter exceeds the requirements. The PD protocol allows charging smartphones, tablets, and laptops. It ensures continuous data transfer, even if the connected devices change roles from receiving a charge to data transmission and vice versa. The length of 2 meters makes it especially convenient when charging from the mains. The cable is encased in a strong PVC covering.

Canyon's H-140-01 charger belongs to the new, GaN charging device type, constructed with the usage of semiconductors based on gallium nitride. This material increases the charger's power using the same gauge. It allowed the H-140-01 model to have such a compact size and be able to charge 3 devices simultaneously. The 2 USB-C ports can supply power up to 100 watts and 140 watts accordingly, and the USB-A port - up to 30 watts. Each port is labeled. The smart chip supports PD and QC 3.0 charging protocols and distributes charging power to prevent overheating of connected gadgets. A perfect tool for charging devices from a power socket.
