

POLYTUNE 3 NOIR

Tiny Polyphonic Tuner with Multiple Tuning Modes and Built-In BONAFIDE BUFFER

- Tiny polyphonic tuner gives you fast, accurate tuning and a high-quality tone tool in a single unit
- Quickly tune up with polyphonic, chromatic and strobe tuning modes
- Built-in BONAFIDE BUFFER keeps tone crisp through long cables and large pedal boards
- Polyphonic mode tunes all your strings at once
- Lightning-fast chromatic tuner
- Extra-small enclosure easily fits on any pedal board
- Ultra-precise strobe tuner with ± 0.02 cent accuracy for ultimate tuning performance
- Premium buffer with a 1 M Ω input, 100 Ω output and extremely high >112 dB signal to noise ratio
- Switchable true bypass / buffer modes optimize signal integrity for any setup
- "Always on" mode for tuning even when not muted and playing
- Super-bright 109-LED display provides clear readouts in all viewing conditions
- Automatically goes from polyphonic to monophonic tuning based on how many strings you play
- 3-Year Warranty Program*
- Designed and engineered in Denmark

POLYTUNE 3 NOIR is destined to become the favorite mini pedal tuner for those going for a darker, more monochromatic manner of expression. Sometimes you want to keep things understated, classical. The midnight black powder coating compliments the stylistically oriented pedalboard – while keeping your signal crisp and your tone in tune.

Tiny Tone Guardian

Is your signal in desperate need of a strong buffer circuit to save your tonal integrity from a platoon of hungry true bypass pedals? POLYTUNE 3 NOIR has you covered for any setup, and then some. Thanks to its built-in BONAFIDE BUFFER, which ensures zero signal degradation and an extremely high signal to noise ratio, POLYTUNE 3 NOIR is the ultimate 2-for-1 pocket tool for pedalboards – keeping your tone robust and your pitch in place. Switch off the buffer, and you're instantly back in true-bypass mode.

Tiny Polyphonic Tuner with Multiple Tuning Modes and Built-In BONAFAIDE BUFFER

No Rest for the Wickedly Out of Tune

When you're on stage rocking out, there's just no time to stop and tune up, even if you've gone a bit overboard with the whammy bar. With POLYTUNE 3 NOIR's always-on mode, you never have to miss a beat. Additionally, there are 2 very practical DIP switches mounted on the side of the pedal that make it easy to go from buffered bypass to true bypass, and from standard mode to always-on.

LED the Sun Shine

Whether you're performing in direct sunlight, under a massive light rig or just planning to be the first live artist on the surface of the sun, the bright display on POLYTUNE 3 remains clear and readable. And with 109 powerful LED's running at full blast, you won't have to search for the display – it will find you!

You Are Covered

We always strive to provide the best possible Customer Experience. Our products are made in our own [Music Tribe](#) factory using state-of-the-art automation, enhanced production workflows and quality assurance labs with the most sophisticated test equipment available in the world. As a result, we have one of the lowest product failure rates in the industry, and we confidently back it up with a generous [Warranty program](#).
