VESA INTERFACE

SIDE VIEW - TILT

FULLY ASSEMBLED MOUNT

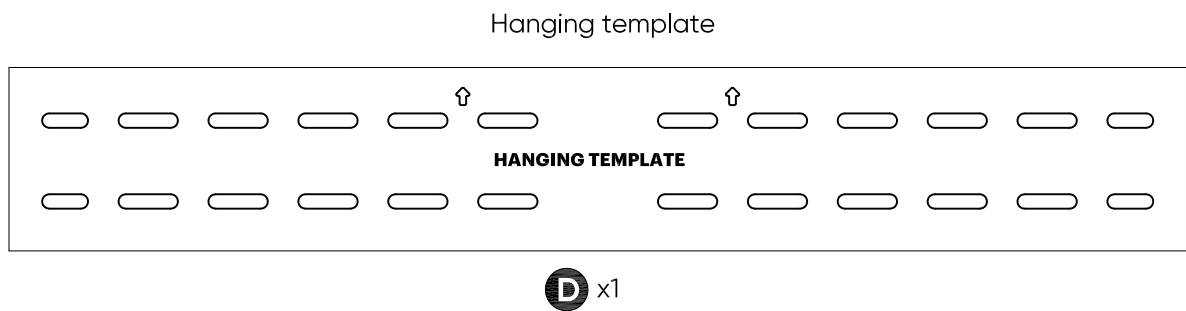

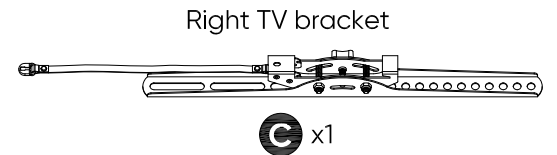

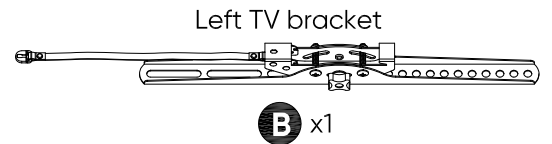

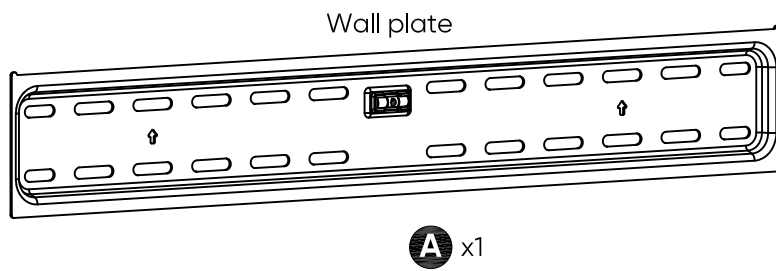

ASSEMBLY TIPS:

1. Carefully read the entire Product Guide before beginning your installation.
2. Make sure that all parts are in the box and in good condition.
3. Assemble the product on open flat carton or a rug to protect the product and your floor.
4. Do not install on sloping surface.
5. Two people are recommended for proper assembly.

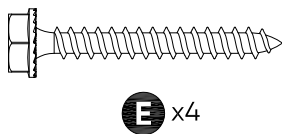

⚠ CAUTION : This mount is intended for use with TV weights not exceeding the maximum weight capacity of 120lbs. The wall itself must be capable of supporting 4X the standard weight. Do not over tighten screws to avoid any damage or injury. Use with products heavier than the maximum weight indicated may result in collapse of the mount and its accessories causing possible injury.

STEP 1 Attach TV Brackets **B** & **C** to TV

⚠ CAUTION: Carefully lay your TV on its face on a flat, non-abrasive surface covered with blanket or soft padding to help prevent damaging the screen.

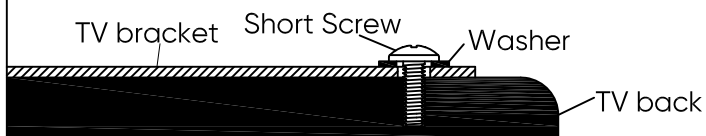

⚠ CAUTION: Place left and right TV bracket in the appropriate position, make sure they are **CENTERED** on the back of TV and **LEVEL** with one another.

1.1 Select TV Screws

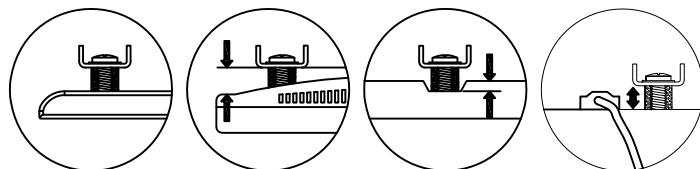

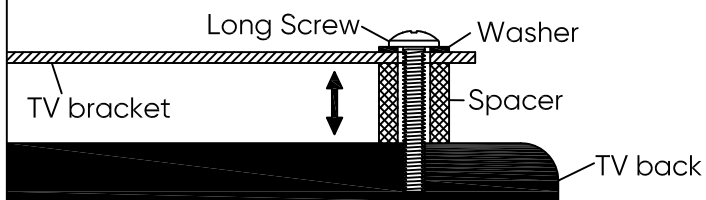

1.2 Need Spacer?

- No, go to **I** below for detailed combination.

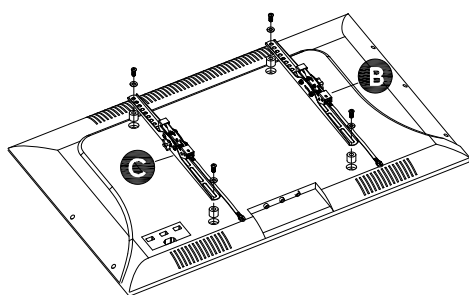

- Yes, go to **II** below for detailed combination.

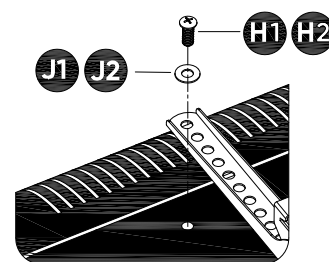

1.3 Attach both TV Brackets

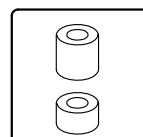

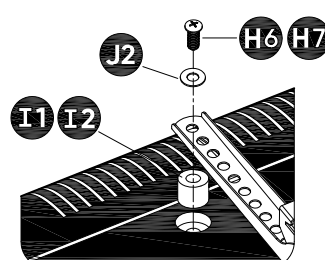

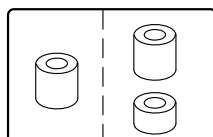

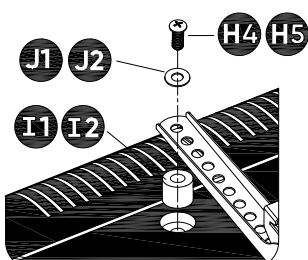

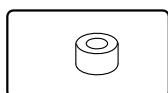

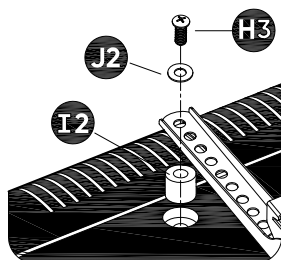

Choose proper screws that fit your particular TV mounting holes. Use spacers and washers as needed since they are not always required. You will have screws, spacers and washers leftover. Discard all unused hardware after you have completed TV mount installation.

I Screw and Washer

II Spacer, Screw and Washer

STEP 2 Attach Wall Plate **A** to Wall

For wood stud installation, follow STEP 2A

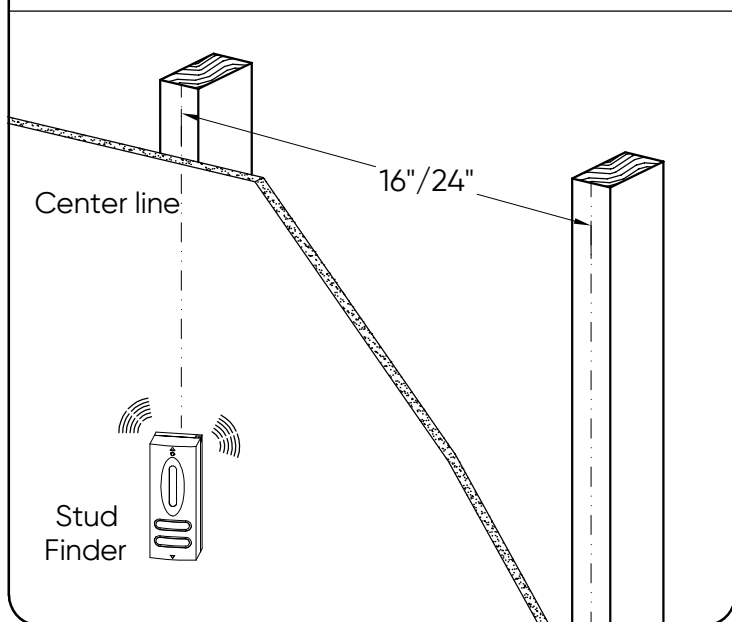

For concrete wall installation, follow STEP 2B

STEP 2A Wood Stud Installation

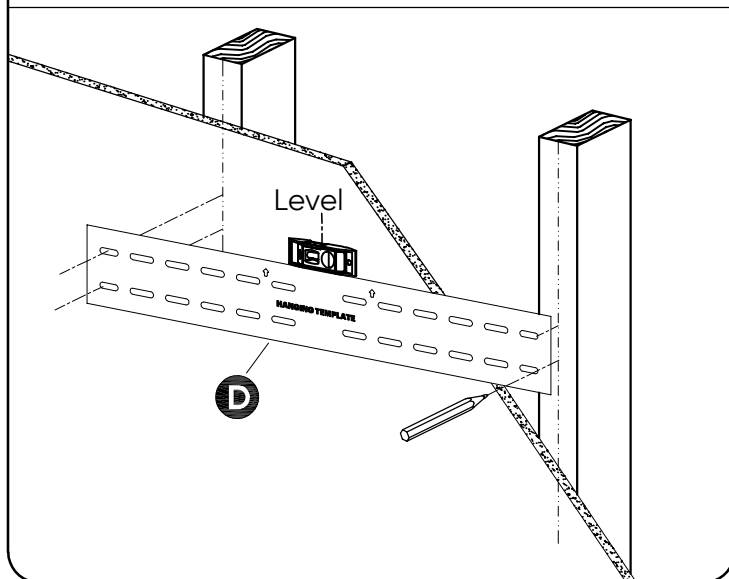

NEVER USE ANCHOR **F FOR WOOD STUD ASSEMBLY**

⚠ CAUTION: The wood stud minimum size is 2x4", and surface covering can't be more than 5/8". Drill hole on the wood stud center line.

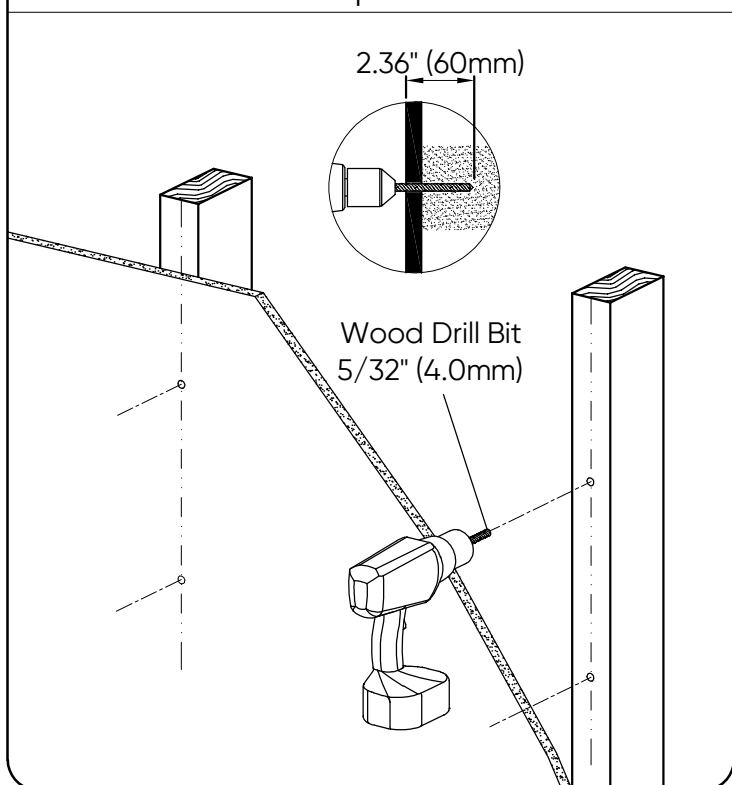

2A.1 Confirm wood stud location with stud finder.

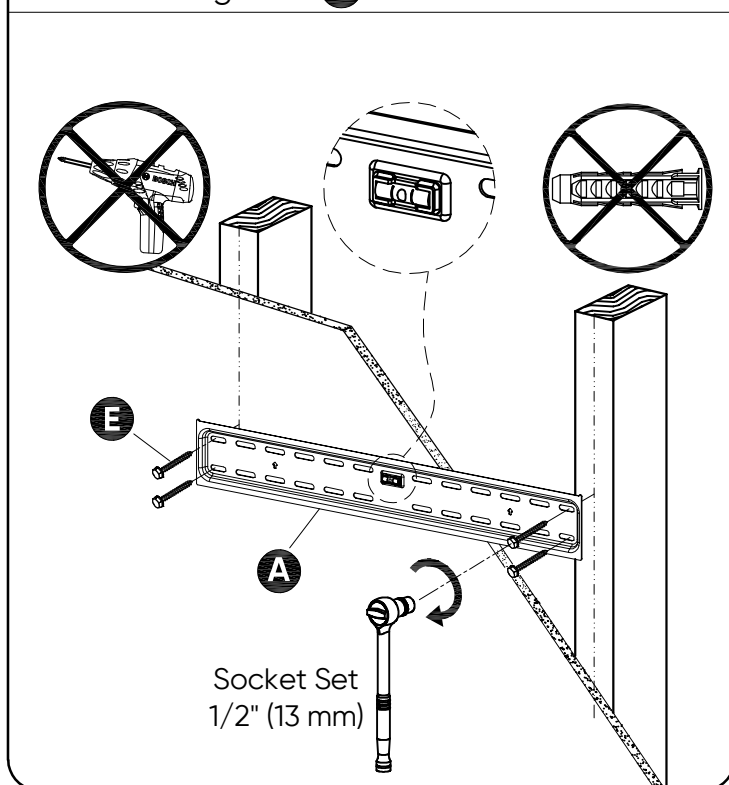

2A.2 Hold Hanging template **D** at desired position, use a pencil to mark 4 hole locations.

2A.3 Pre-drill marked 4 holes by 5/32" Wood Drill Bit to a depth of 2.36".

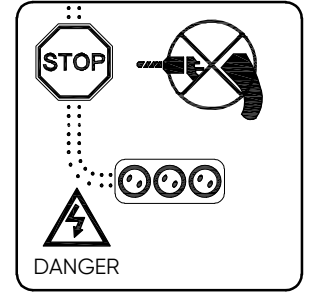

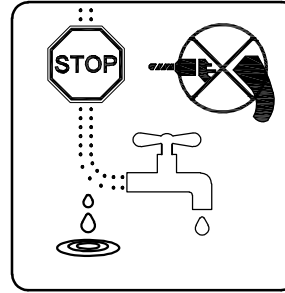

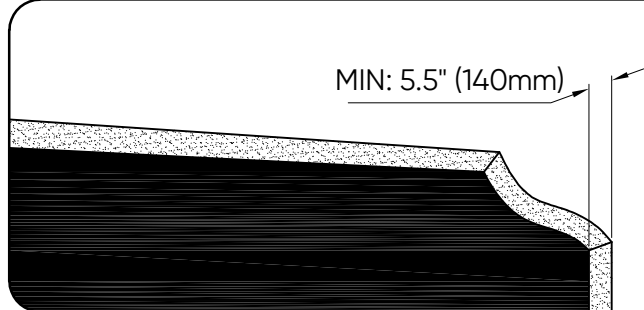

2A.4 Fix Wall plate **A** to the wall with M7x55mm Lag bolts **E**.

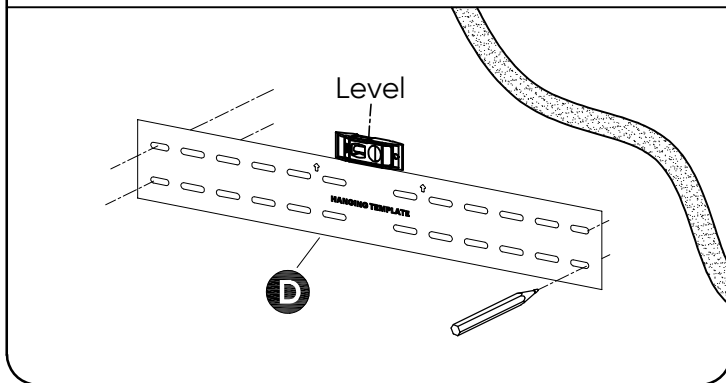

STEP 2B

Concrete, Stone or Masonry Installation

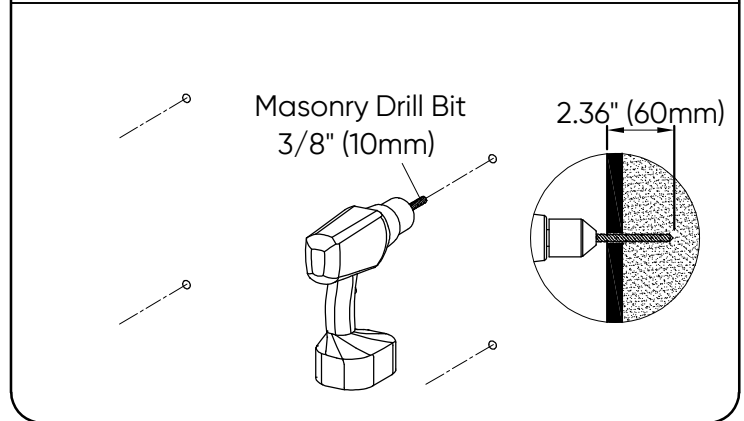

- CAUTION:** The concrete wall minimum thickness is 5.5", and surface covering can't be more than 3/8".
- CAUTION:** These anchors are for concrete, stone or masonry wall ONLY. Do not install into wood stud.
- CAUTION:** This product can only be installed on a perpendicular wall. Do not install this product on the ceiling.

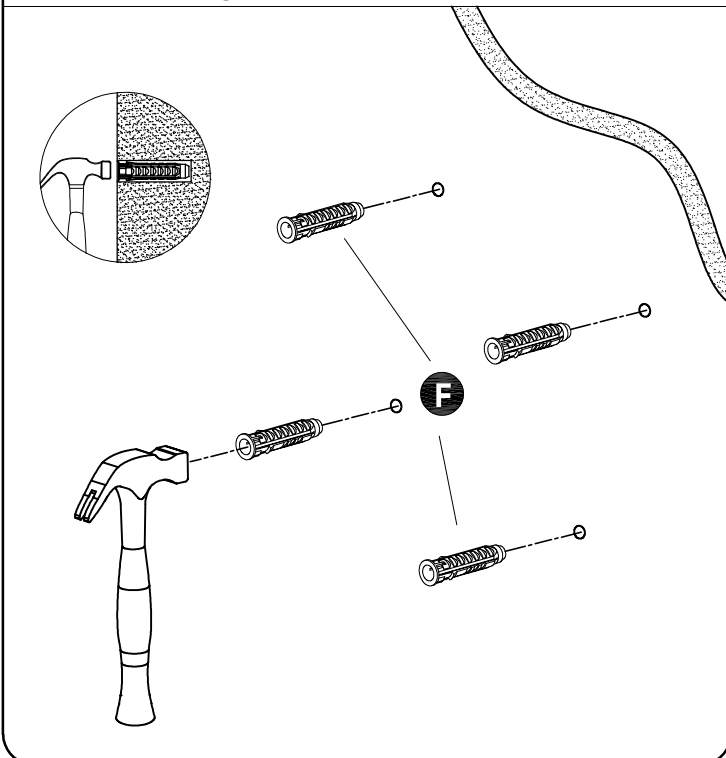

2B.1 Hold Hanging template **D** against wall at desired position, use a pencil to mark 4 hole locations.

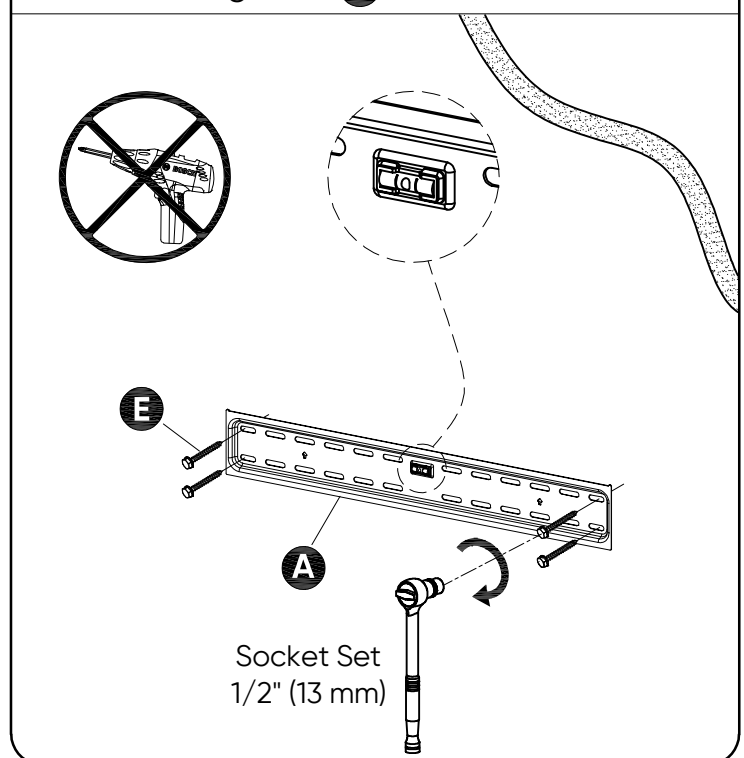

2B.2 Pre-drill marked 4 holes by 3/8" size Masonry Drill Bit to a depth of 2.36".

2B.3 Insert Anchors **F** into wall and use hammer to lightly tap them into wall.

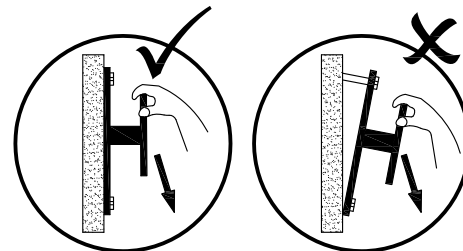

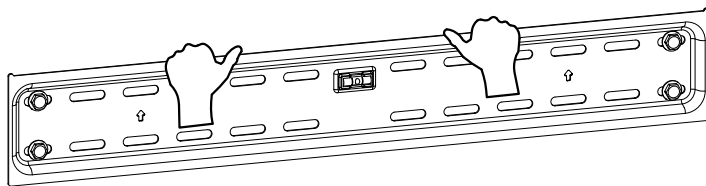

2B.4 Fix Wall plate **A** to the wall with M7x55mm Lag bolts **E**.

STEP 3 Hang and Secure TV on Wall Plate

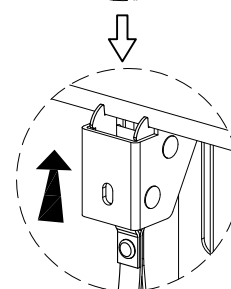

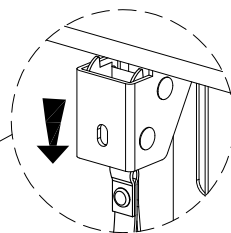

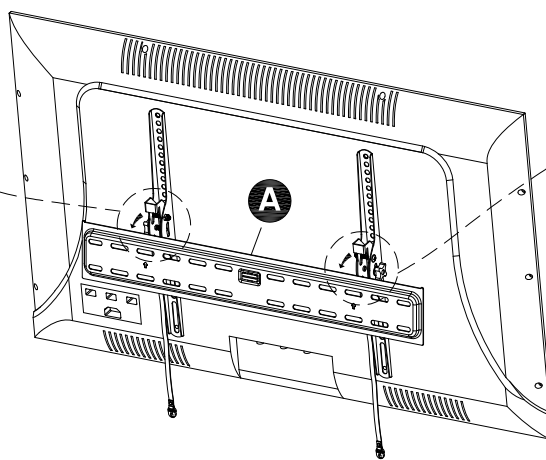

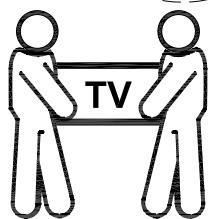

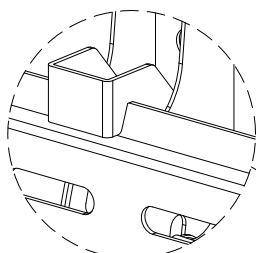

3.1 Try to pull the wall plate and make sure it is tightly mounted on the wall.

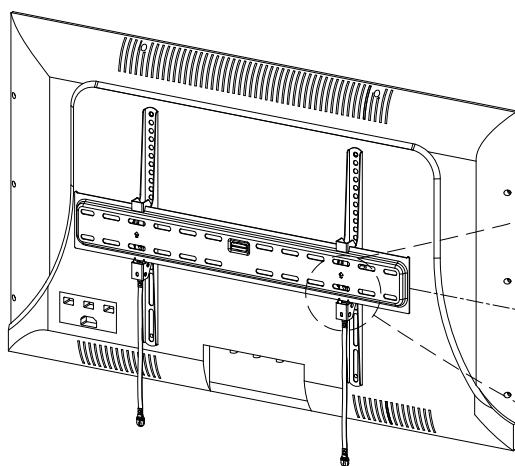

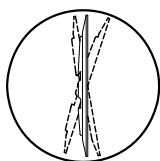

120 lbs (54.4 kg)

3.2 Hang pre-assembled TV unit on the Wall plate **A** and pull down the cords and release, you will hear the latches click into place.

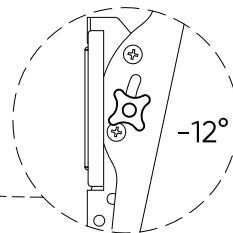

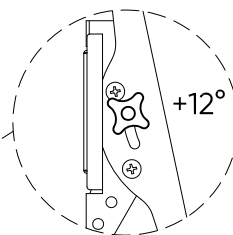

CAUTION: This step requires 2 or more people to complete.

3.3 You may need to loosen handles of TV brackets to tilt TV to your desired angle. Please remember to tighten the handles after adjustment.
